overview of American memorialization and the impulses behind it Commemoration in America emphasizes a universal tendency for individuals and groups to use monuments to define their contemporary social identity and to construct historical narratives The volume shows that while commemorative acts and objects affect the community in fundamental ways their meaning is always multivalent and conflicted attesting to both triumphs and tragedies Constituting a vital part of both individual and national identity commemoration s contradictions strike at the core of American identity and speak to the importance of remembrance in the construction of our diverse national cultural landscape Contributors Jhennifer A Amundson Judson University Catherine W Bishir North Carolina State University Libraries Thomas J Campanella University of North Carolina at Chapel Hill Glenn T Eskew Georgia State University Glenn Forley Parsons The New School for Design Sally Greene University of North Carolina at Chapel Hill Alison K Hoagland Michigan Technological University Lynne Horiuchi University of California Berkeley Ellen M Litwicky SUNY Fredonia David Lowenthal University College London Mark A Peterson University of California Berkeley Richard M Sommer University of Toronto Dell Upton University of California Los Angeles

**Sorting Out the New South City, Second Edition** Tom Hanchett, 2020-01-08 One of the largest and fastest growing cities in the South Charlotte North Carolina came of age in the New South decades of the late nineteenth and early twentieth centuries transforming itself from a rural courthouse village to the trading and financial hub of America s premier textile manufacturing region In this book Thomas W Hanchett traces the city s spatial evolution over the course of a century exploring the interplay of national trends and local forces that shaped Charlotte and by extension other New South urban centers Hanchett argues that racial and economic segregation are not age old givens but products of a decades long process Well after the Civil War Charlotte s whites and blacks workers and business owners lived in intermingled neighborhoods The rise of large manufacturing enterprises in the 1880s and 1890s brought social and political upheaval however and the city began to sort out into a checkerboard of distinct neighborhoods segregated by both race and class When urban renewal and other federal funds became available in the mid twentieth century local leaders used the money to complete the sorting out process creating a sector pattern in which wealthy whites increasingly lived on one side of town and blacks on the other A new preface by the author confronts the contemporary implications of Charlotte s resegregation and prospects for its reversal
