Photogr. by Emil Bauer** Josef Maria Ritz, Emil Bauer, Joseph Schaffner, 1968      *The Miniatures and Meters of the Old English Genesis, MS Junius 11* Seiichi Suzuki, 2023-05-22 The Old English Genesis is the sole illustrated Anglo Saxon poem In full appreciation of this unique concurrent execution of visualization and versification in a single manuscript this multidisciplinary work explores the pictorial Vol 1 and the metrical Vol 2 organization from both synchronic structural and diachronic comparative perspectives Among the most significant findings of each volume are The first twenty two images in the Old English Genesis originated on the whole from the Tournon Bibles and the underlying classical Old English and Old Saxon meters were interactively reshaped through mutual adaptation and recomposition aimed at their firm integration into a synthesized Old English Genesis While each part is solidly embedded in the respective scholarly tradition and pursues its own disciplinary concerns and problematics vigorous formal and cognitive reasoning and theorizing run commonly through both By way of mutual corroboration and integration the twin volumes eventually converge on the hypothesis that the earliest portion of the extant Old English Genesis lines 1 966 derived from the corresponding episodes of an illustrated Tournon Old Saxon Genesis in both pictorial and metrical terms      Sensory Adaptation Mehdi Adibi, Davide Zoccolan, Colin W. G. Clifford, 2022-01-27      **The Language of Emotions ...** Niemeier-Dirven, René Dirven, 1997-01-01 Since the celebration of the 100th anniversary of Darwin's *The Language of the Emotions in Man and Animals* 1872 emotionology has become a respectable and even thriving research domain again The domain of human emotions is most important for mankind emotions being right in the center of our daily lives and interests A key role in the interdisciplinary scientific debate about emotions has now been accorded to the study of the language of emotions The present volume offers a new approach to the study of the language of emotions insofar as it presents theories from very different perspectives It encompasses studies by scholars from diverse disciplines such as linguistics sociology and psychology The topics of the contributions also cover a range of special fields of interest in four major sections In a first section a discussion of theoretical issues in the analysis of emotions is presented The conceptualization of emotions in specific cultures is analyzed in section 2 Section 3 takes a different inroad into the language of emotions by looking at developmental approaches giving evidence of the fact that the acquisition of the language of emotions is a social achievement that simultaneously determines our experience of these emotions Section 4 is devoted to emotional language in action that is the contributions focus upon different types of texts and analyze how emotions are referred to and expressed in discourse      **The Jew, the Cathedral and the Medieval City** Nina Rowe, 2011-04-04 In the thirteenth century sculptures of Synagoga and Ecclesia paired female personifications of the Synagogue defeated and the Church triumphant became a favoured motif on cathedral façades in France and Germany

Throughout the preceding centuries the Jews of northern Europe prospered financially and intellectually a trend that ran counter to the long standing Christian conception of Jews as relics of the prehistory of the Church In this book Nina Rowe examines the sculptures as defining elements in the urban Jewish Christian encounter She locates the roots of the Synagoga Ecclesia motif in antiquity and explores the theme s public manifestations at the cathedrals of Reims Bamberg and Strasbourg considering each example in relation to local politics and culture Ultimately she demonstrates that royal and ecclesiastical policies to restrain the religious social and economic lives of Jews in the early thirteenth century found a material analog in lovely renderings of a downtrodden Synagoga placed in the public arena of the city square

internet infrastructure simultaneously spurred the development of social network applications such as Facebook Twitter Snapchat and Instagram providing accessible media for sharing photographs including photographic self portraits However despite their tremendous reach and popularity selfies have so far received relatively little attention by the scientific community especially within psychology Thus we proposed a Frontiers in Psychology Research Topic to expand empirical and theoretical work on the massively popular yet scientifically unexplored phenomenon of the selfie The articles published in this eBook offer a multifaceted insight into current scholarly work on this topic

**Eloquent Bodies** Jacqueline E. Jung, 2020-07-14 A radical reassessment of the role of movement emotion and the viewing experience in Gothic sculpture Gothic cathedrals in northern Europe dazzle visitors with arrays of sculpted saints angels and noble patrons adorning their portals and interiors In this highly original and erudite volume Jacqueline E. Jung explores how medieval sculptors used a form of bodily poetics involving facial expression gesture stance and torsion to create meanings beyond conventional iconography and to subtly manipulate spatial dynamics forging connections between the sculptures and beholders Filled with more than 500 images that capture the suppleness and dynamism of cathedral sculpture often through multiple angles *Eloquent Bodies* demonstrates how viewers confronted and in turn were addressed by sculptures at major cathedrals in France and Germany from Chartres and Reims to Strasbourg Bamberg Magdeburg and Naumburg Shedding new light on the charismatic and kinetic qualities of Gothic sculpture this book also illuminates the ways artistic ingenuity and technical skill converged to enliven sacred spaces

**"Saints, Sinners, and Sisters "** Jane L. Carroll, 2017-07-05 A collection of original essays *Saints Sinners and Sisters* showcases the diverse questions currently being asked by gender scholars dealing with French Netherlandish and German art from the medieval and early modern periods Moving beyond the reclamation of personalities and oeuvres of lost female artists the contributors pose questions about gender and sex within specific historical contexts addressing such issues as intended audience use of the object and patronage These avenues of inquiry intersect with larger cultural questions concerning societal control of women The book's three sections *Saints Sinners and Sisters Wives Poets* are each preceded by a concise introductory essay detailing themes and offering reflective comparisons of theses and information In *Saints* contributors look at women who were positive exemplars used by society to uphold standards In the

second section the essays focus on the power of women's sexuality The third section expands beyond the customary dichotomous division of the first two to examine women in diverse roles not widely studied as positions of women in those times This final section expands our definitions of women's responsibilities and realigns them historically it argues that women and thus gender need to be understood within a much broader historical context and beyond simplistic approaches sometimes superimposed by present day readers on past times This volume answers an acute need for research on the art of Northern Europe prior to the 20th century and highlights the possibilities of new directions in the field The effect of the new scholarship presented here is to broaden the discursive field allowing fluidity of disciplinary boundaries resulting in a volume that is illuminating to historians of more than art alone     *The American and English Annotated Cases* ,1912     **Annotated Cases, American and English** ,1912     American and English Annotated Cases Harry Noyes Greene,William Mark McKinney,David Shephard Garland,1912     **Medieval Germany** John M.
