Hilmarsson,2018-09-25 The Nordic Baltic region has become highly integrated The Nordic countries have been successful in balancing competitiveness and economic growth with social inclusiveness while the Baltic States have grown economically but remain vulnerable with weak social systems and highly unequal income distribution European Union EU membership and inter linkages with the continental Nordic banking systems appear to have affected the 2008 09 crisis response of the Baltic States In spite of their strengths including their social systems continental Nordic states are faced with a challenging mix of large cross border banks and highly indebted households at a time of rather weak global growth The Baltic States are

challenged by slow economic growth post crisis security concerns and large scale outward migration of the youngest and most highly educated people It is now a decade since the Baltic States were hit by the global crisis It is time to take stock of their progress and assess their relations with other countries in the region and with the EU This book focuses on the Baltics and their Nordic partners pre and post crisis successes failures lessons learned and future challenges examining and comparing the crisis response of these various small states that enjoy different income levels operate different welfare and tax systems and seek different levels of integration with the EU
