Money, Money Ed McBain, 2001-10-19 It is Christmas in the city but it isn't the giving season. A retired Gulf War pilot, a careless second-story man, a pair of angry Mexicans, and an equally shady pair of Secret Service agents are in town after a large stash of money, and no one is interested in sharing. The detectives at the 87th are already busy for the holidays. Steve Carella and Fat Ollie Weeks catch the squeal when the lions in the city zoo get an unauthorized feeding of a young woman's body. And then there's a trash can stuffed with a book salesman carrying a P-38 Walther and a wad of big bills. The bad bills and the dead book salesman lead to the offices of a respected publisher, Wadsworth and Dodds. This is good news for Fat Ollie because he's working on a police novel, one written by a real cop, and he's sure it's going to be a bestseller. *Trauma and Transformation at Ground Zero* Storm Swain, 2011-08 From personal interviews with chaplains at the temporary mortuary at Ground Zero and her own experiences as an Episcopal priest, psychotherapist, and chaplain, Storm Swain offers a new model of pastoral care grounded in theology and practice. Reflecting on experiences of suffering faced in ministry, Swain considers what it means to love in these instances and what is involved in ministering in these contexts. Within this model, caregivers can move from a place of trauma to a place of transformation, which enables wholeness and healing for both caregivers and those for whom they care. Religions of the United States in Practice Colleen McDannell, 2001-11-18 *Religions of the United States in Practice* is a rich anthology of primary sources with accompanying essays that examines religious behavior in America. From praying in an early American synagogue to performing Mormon healing rituals to debating cremation, Volume 2 explores faith through action in the nineteenth and twentieth centuries. The documents and essays consider the religious practices of average people: praying, singing, healing, teaching, imagining, and persuading. Some documents are formal liturgies, while other texts describe more spontaneous religious actions. Because religious practices also take place in the imagination, dreams, visions, and fictional accounts are also included. Accompanying each primary document is an essay that sets the religious practice in its historical and theological context, making this volume ideal for classroom use and accessible to any reader. The introductory essays explain the various meanings of religious practices as lived out in churches and synagogues, in parlors and fields, beside rivers, on lecture platforms, and in the streets. *Religions of the United States in Practice* offers a sampling of religious perspectives in order to approximate the living texture of popular religious thought and practice in the United States. The history of religion in America is more than the story of institutions and famous people. This anthology presents a more nuanced story composed of the everyday actions and thoughts of lay men and women. *Religions of the United States in Practice, Volume 2* Colleen McDannell, 2018-06-05

The Future of Religious Heritage Ferdinand de Jong, José Mapril, 2023-03-28

The Future of Religious Heritage examines the resurgence of religious heritage in a secular age and frames such heritage as both legacy from the past and promise for the future. Drawing on case studies from across Europe, this volume addresses the intersection of three well-defined areas of research: secularism, religious heritage, and the question of renewal. Considering the heritagisation of religion and the sacralisation of heritage, contributions to the book consider to what extent the idea of renewal, so pivotal to religious and secular ontologies, is present in heritage formations. Thinking about the temporalities of re-enactment and reconstruction, this volume examines whether heritage practices incorporate religious time into secular practice. Problematising such temporalities of the sacred in our post-secular age, the volume explores how these intersections of religious and secular time in heritage practices inform constructions of the future. The Future of Religious Heritage addresses the paradox of the secularisation of religion and the sacralisation of heritage in a post-secular age. It will appeal to academics and students with an interest in critical heritage studies, religion, and post-secularism, and will also be of interest to those studying re-enactment, regeneration, and renewal.

Jews, Bible and Prayer Stefan C. Reif, 2017-05-08

In his articles, Stefan Reif deals with Jewish biblical exegesis and the close analysis of the evolution of Jewish prayer texts. Some fourteen of these that appeared in various collective volumes are here made more easily available together with a major new study of Numbers 13, an introduction, and extensive indexes. Reif attempts to establish whether there is any linguistic, literary, and exegetical value in the traditional Jewish interpretation of the Hebrew Bible for the modern scientific approach to such texts, and whether such an approach itself is always free of theological bias. He demonstrates how Jewish liturgical texts may illuminate religious teachings about wisdom, history, peace, forgiveness, and divine metaphors. Also clarified in these essays are notions of David, Greek and Hebrew divine metaphors, and the liturgical use of the Hebrew Bible.
