Paris Steven Laurence Kaplan,2018-09-05 Dependence upon grain deeply marked every aspect of life in eighteenth century France Steven Kaplan focuses upon this dependence at the point where it placed the greatest strain on the state the society and the individual on the daily supply of grain and flour that furnished the staff of life He reconstructs the history of provisioning in pre industrial Paris and provides a comprehensive view of a culture shaped by the subsistence imperative Who were the agents of the provisioning trade What were their commercial practices What sorts of relations did they maintain with each other How did the authorities regulate their business To answer these questions Professor Kaplan combed the archives and libraries of France He maps out the elementary structures of the trade and shows how they were transformed as a result of cultural and political as well as commercial and technological changes In rich ethnographic detail he evokes the dayto day life of merchants millers bakers brokers and market officials He shows how flour superseded grain and how the millers overtook the merchants in the provisioning process He explores the tension between the suppliers need for freedom and the consumers need for security Even as he weaves the intricate patterns of life inside and outside the

marketplace he never loses sight of the immense interests at stake the stability and legitimacy of the government the durability of the social structure and the survival of the people "Proverbs Speak Louder Than Words" Wolfgang Mieder,2008 The ten chapters of Proverbs Speak Louder Than Words present a composite picture of the richness of proverbs as significant expressions of folk wisdom as is manifest from their appearance in art culture folklore history literature and the mass media The first chapter surveys the multifaceted aspects of paremiology the study of proverbs with the second chapter illustrating the paremiological work by the American folklorist Alan Dundes The next two chapters look at the effective role that proverbs play in the mass media where they are cited in their traditional wording or as innovative anti proverbs The fifth chapter discusses proverbs as expressions of the worldview of New England This is followed by two chapters on the proverbial prowess of American presidents to wit the proverbial style in the correspondence between John and Abigail Adams and a discussion of Abraham Lincoln s apocryphal proverb Don t swap horses in the middle of the stream The eighth chapter traces the tradition of proverb iconography from medieval woodcuts to Pieter Bruegel the Elder and on to modern caricatures cartoons and comic strips The last two chapters deal with the origin and history of the proverbial expression to tilt at windmills as an allusion to Cervantes Don Quixote and the many proverbial utterances in Mozart s letters The book draws attention to the fact that proverbs as metaphorical signs continue to play an important role in oral and written communication Proverbs as so-called monumenta humana are omnipresent in all facets of life and while they are neither sacrosanct nor saccharine they usually offer much common sense or wisdom based on recurrent experiences and observations
