kanhua koan meditation as an antidote In this fascinating study Morten Schlatter shows that Dahui's target was the Caodong Soto Chan tradition that had been revived and reinvented in the early twelfth century and that silent meditation was an approach to practice and enlightenment that originated within this new Chan tradition Schlatter has written a refreshingly accessible account of the intricacies of the dispute which is still reverberating through modern Zen in both Asia and the West Dahui and his opponents arguments for their respective positions come across in this book in as earnest and relevant a manner as they must have seemed almost nine hundred years ago Although much of the book is devoted to illuminating the doctrinal and soteriological issues behind the enlightenment dispute Schlatter makes the case that the dispute must be understood in the context of government policies toward Buddhism economic factors and social changes He analyzes the remarkable ascent of Chan during the first centuries of the Song dynasty when it became the dominant form of elite monastic Buddhism and demonstrates that secular educated elites came to control the critical transmission from master to disciple procreation as Schlatter terms it in the Chan School

Monks, Rulers, and Literati : The Political Ascendancy of Chan Buddhism Asian Religions University of Winnipeg Albert Welter Professor, 2006-01-11 The Chan Zen in Japanese school began when in seventh century China a small religious community gathered around a Buddhist monk named Hongren Over the centuries Chan Buddhism grew from an obscure movement to an officially recognized and eventually dominant form of Buddhism in China and throughout East Asia It has reached international popularity its teachings disseminated across cultures far and wide In Monks Rulers and Literati Albert Welter presents for the first time in a comprehensive fashion in a Western work the story of the rise of Chan a story which has been obscured by myths about Zen Zen apologists in the twentieth century Welter argues sold the world on the story of Zen as a transcendental spiritualism untainted by political and institutional involvements In fact Welter shows that the opposite is true relationships between Chan monks and political rulers were crucial to Chan's success The book concentrates on an important but neglected period of Chan history the 10th and 11th centuries when monks and rulers created the so called Chan golden age and the classic principles of Chan identity Placing Chan's ascendancy into historical context Welter analyzes the social and political factors that facilitated Chan's success as a movement He then examines how this success was represented in the Chan narrative and the aims of those who shaped it Monks Rulers and Literati recovers a critical period of Zen's past deepening our understanding of how the movement came to flourish Welter's groundbreaking work is not only the most comprehensive history of the dominant strand of East Asian Buddhism but also an important corrective to many of the stereotypes about Zen

Women, Property, and Confucian Reaction in Sung and Yüan China (960-1368) Bettine Birge, 2002-01-07 This book originally published in 2002 argues that the Mongol invasion of the thirteenth century precipitated a transformation of marriage and property law in China that deprived women of their property rights and reduced their legal and economic autonomy It describes how after a period during which women's property rights were steadily improving and laws and practices affecting marriage and

property were moving away from Confucian ideals the Mongol occupation created a new constellation of property and gender relations that persisted to the end of the imperial era It shows how the Mongol Y an rule in China ironically created the conditions for radical changes in the law which for the first time brought it into line with the goals of Learning the Way Confucians and which curtailed women s financial and personal autonomy The book evaluates the Mongol invasion and its influence on Chinese law and society

Political Communication in Chinese and European History, 800-1600 Hilde Weerd, Franz-Julius Morche, 2025-10-01 Based on a collaboration between historians of Chinese and European politics Political Communication in Chinese and European History 800 1600 offers a first comprehensive overview of current research on political communication in middle period European and Chinese history The chapters present new work on the sources and processes of political communication in European and Chinese history partly through juxtaposing and combining formerly separate historiographies and partly through direct comparison Contrary to earlier comparative work on empires and state formation which aimed to explain similarities and differences with encompassing models and new theories of divergence the goal is to further conversations between historians by engaging regional historiographies from the bottom up

The Routledge Handbook of Chinese Citizenship Zhonghua Guo, 2021-11-29 Two assumptions prevail in the study of Chinese citizenship one holds that citizenship is unique to the Western political culture and China has historically lacked the necessary conditions for its development the other implies that China is an authoritarian regime that has always been subject to autocratic power in which citizens and citizenship play a limited role This volume negates both assumptions On the one hand it shows that China has its own unique and rich experiences of the emergence development rights obligations acts culture education and sites of citizenship indicating the need to widen the scope of citizenship studies to include non Western societies On the other hand it aims to show that citizenship has been a core issue running through China s political development since the modern period urging scholars to bring citizenship into consideration in the study of Chinese politics This Handbook sets a new agenda for citizenship studies and Chinese politics Its clear accessible style makes it essential reading for students and scholars interested in citizenship and China studies

The Cambridge History of China: Volume 5, Sung China, 960-1279 AD, Part 2 John W. Chaffee, Denis Twitchett, 2015-03-05 This is the second of two volumes on the Sung Dynasty which together provide a comprehensive history of China from the fall of the T ang Dynasty in 907 to the Mongol conquest of the Southern Sung in 1279 With contributions from leading historians in the field Volume 5 Part Two paints a complex portrait of a dynasty beset by problems and contradictions but one which despite its military and geopolitical weakness was nevertheless economically powerful culturally brilliant socially fluid and the most populous of any empire in global history to that point In this much anticipated addition to the series the authors survey key themes across ten chapters including government economy society religion and thought to provide an authoritative and topical treatment of a profound and significant period in Chinese history

Marriage and the Law in the Age of Khubilai Khan Bettine Birge, 2017-07-24 The

Mongol conquest of China in the thirteenth century and Khubilai Khan's founding of the Yuan dynasty brought together under one government people of different languages, religions, and social customs. Chinese law evolved rapidly to accommodate these changes as reflected in the great compendium *Yuan dianzhang* Statutes and Precedents of the Yuan Dynasty. The records of legal cases contained in this seminal text Bettine Birge shows paint a portrait of medieval Chinese family life and the conflicts that arose from it that is unmatched by any other historical source. *Marriage and the Law in the Age of Khubilai Khan* reveals the complex, sometimes contradictory inner workings of the Mongol Yuan legal system seen through the prism of marriage disputes in chapter eighteen of the *Yuan dianzhang* which has never before been translated into another language. Birge's meticulously annotated translation clarifies the meaning of terms and passages, some in a hybrid Sino-Mongolian language for specialists and general readers alike. The text includes court testimony recorded in the vivid vernacular of people from all social classes in lawsuits over adultery, divorce, rape, wife selling, marriages of runaway slaves, and other conflicts. It brings us closer than any other source to the actual Mongolian speech of Khubilai and the great khans who succeeded him as they struggled to reconcile very different Mongol, Muslim, and Chinese legal traditions and confront the challenges of ruling a diverse polyethnic empire. [An Economic History of China](#) Richard von Glahn, 2016-03-10 The first comprehensive study of China's economic development across 3 000 years of history to be published in English. [A Companion to Chinese History](#) Michael Szonyi, 2017-02-06 A Companion to Chinese History presents a collection of essays offering a comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day. Covers the major trends in the study of Chinese history from antiquity to the present day. Considers the latest scholarship of historians working in China and around the world. Explores a variety of long range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras. Addresses China's connections with other nations and regions and enables non specialists to make comparisons with their own fields. Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality, national identity and the environment. [Death, Rituals and Politics in Northern Song China](#) Mihwa Choi, 2017-10-03 This study examines how political and legal disputes regarding the performance of death rituals contributed to shape a revival of Confucianism in eleventh century Northern Song China. [The Writing of Weddings in Middle-Period China](#) Christian de Pee, 2012-02-01 Approaching writing as a form of cultural practice and understanding text as an historical object, this book not only recovers elements of the ritual practice of Middle Period weddings but also reassesses the relationship between texts and the Middle Period past. Its fourfold narrative of the writing of weddings and its spirited engagement with the texts, ritual manuals, engagement letters, nuptial songs, calendars and almanacs, and legal texts offer a form and style for a cultural history that accommodates the particularities of the sources of the Chinese imperial past. **The Rule of Laws** Fernanda Pirie, 2021-11-09 From ancient Mesopotamia to today, the epic story of how humans have

used laws to forge civilizations Rulers throughout history have used laws to impose order But laws were not simply instruments of power and social control They also offered ordinary people a way to express their diverse visions for a better world In *The Rule of Laws* Oxford scholar Fernanda Pirie traces the rise and fall of the sophisticated legal systems underpinning ancient empires and religious traditions while also showing how common people tribal assemblies merchants farmers called on laws to define their communities regulate trade and build civilizations Although legal principles originating in Western Europe now seem to dominate the globe the variety of the world's laws has long been almost as great as the variety of its societies What truly unites human beings Pirie argues is our very faith that laws can produce justice combat oppression and create order from chaos

The Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271 1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing comic drama and medical learning

Battlefronts Real and Imagined D. Wyatt, 2008-05-12 This collection examines the cultural and intellectual dimensions of war and its resolution between Han Chinese and the various ethnically dissimilar peoples surrounding them during the crucial middle period of Chinese history

Writing and Law in Late Imperial China Robert E. Hegel, Katherine N. Carlitz, 2015-07-16 In this fascinating multidisciplinary volume scholars of Chinese history law literature and religions explore the intersections of legal practice with writing in many different social contexts They consider the overlapping concerns of legal culture and the arts of crafting persuasive texts in a range of documents including crime reports legislation novels prayers and law suits Their focus is the late Ming and Qing periods c 1550 1911 their documents range from complaints filed at the local level by commoners through various texts produced by the well to do to the legal opinions penned by China's emperors *Writing and Law in Late Imperial China* explores works of crime case fiction judicial handbooks for magistrates and legal secretaries popular attitudes toward clergy and merchants as reflected in legal complaints and the belief in a parallel otherworldly judicial system that supports earthly justice
