**The Human Behavior** Valentin Matcas,2018-04-20 Your behavior consists of everything that you do in life knowingly  
and unknowingly Even more your behavior represents and is a consequence of everything that you need mean and think  
throughout life Yet it was so easy to manage your life if your behavior was so easy to define because you always live your life  
alongside the rest of society and always influenced by the rest of the world in every manner You are a social value highly  
useful to others and this is how others end up controlling you and your behavior according to their own needs and reasoning  
with or without your consent And this is how you behave and live your life in society you influence and you are influenced by  
others continuously according to your needs beliefs duties capabilities orders and agendas And you do so successively  
continuously and many times simultaneously throughout life and throughout society Even more your social behavior does not  
define you entirely since your private hidden behavior is distinct from your open social one You work hard to keep this  
shadow behavior unnoticed and at bay but now when you consider it you realize that it defines you more than everything else  
This has always been the case it can make life fun and exciting at times yet it can become dangerous and expensive Because  
it has become a continuously hidden need that you are forced to fulfill consistently and many times you would rather avoid  
this private behavior if you only knew how What happens is that the entire world lives in this major dissociation because  
everybody seeks privacy and intimacy in life for various reasons as everybody lives in the hiding most of the time  
overwhelmed guilty and confused And now you seek to find out why you behave in this manner you want to know what you  
can do in order to change and improve your behavior you seek to know how to educate your children towards adopting a  
good behavior in life and in the world and this is why you read this book Throughout this book you learn everything about the  
human behavior everything necessary to help you control yourself understand others and develop to higher levels along with  
everything necessary for you to help and educate others to behave well while developing consistently to higher levels
