**The Culture-Bound Syndromes** Ronald C. Simons,C.C. Hughes,2012-12-06 In the last few years there has been a great revival of interest in culture bound psychiatric syndromes A spate of new papers has been published on well known and less familiar syndromes and there have been a number of attempts to put some order into the field of inquiry In a review of the literature on culture bound syndromes up to 1969 Yap made certain suggestions for organizing thinking about them which for the most part have not received general acceptance see Carr this volume p 199 Through the seventies new descriptive and conceptual work was scarce but in the last few years books and papers discussing the field were authored or edited by Tseng and McDermott 1981 Al Issa 1982 Friedman and Faguet 1982 and Murphy 1982 In 1983 Favazza summarized his understanding of the state of current thinking for the fourth edition of the Comprehensive Textbook of Psychiatry and a symposium on culture bound syndromes was organized by Kenny for the Eighth International Congress of Anthropology and Ethnology The strongest impression to emerge from all this recent work is that there is no substantive consensus and that the very concept culture bound syndrome could well use some serious reconsideration As the role of culture specific beliefs and practices in all affliction has come to be increasingly recognized it has become less and less clear what sets the culture bound syndromes apart Complicated Grieving and Bereavement Gerry Cox,Robert Bendiksen,Robert

Stevenson,2018-12-20 Losses may provide a turning point where an individual faces personal and social choices Still one may derive significance through the experience of loss while another may encounter bereavement with less consequence Complicated Grieving and Bereavement Understanding and Treating People Experiencing Loss examines complicated grief in special populations including the mentally ill POW MIA survivors the differentially abled suicide survivors bereaved children those experiencing death at birth death in schools and palliative care death **Worldviews of the Greenlanders** Birgitte Sonne,2018-01-15 Ninety years ago Knud Rasmussen's popular account of his scientific expeditions through Greenland and North America introduced readers to the culture and history of arctic Natives In the intervening century a robust field of ethnographic research has grown around the Inuit and Yupiit of North America but until now English language readers have had little access to the broad corpus of work on Greenlandic natives Worldviews of the Greenlanders draws upon extensive Danish and Greenlandic research on Inuit arctic peoples as well as Birgitte Sonne's own decades of scholarship and fieldwork to present in rich detail the key symbols and traditional beliefs of Greenlandic Natives as well as the changes brought about

by contact with colonial traders and Christian missionaries It includes critical updates to our knowledge of the Greenlanders pre colonial world and their ideas on space time and other worldly beings This expansive work will be a touchstone of Arctic Native studies for academics who wish to expand their knowledge past the boundaries of North America      **Questions of Competence** Richard Jenkins,1998 This book offers a conceptualisation of intellectual disability emphasising its cultural variability and social construction      **Soundings** Doreen Cunningham,2022-07-12 In this memoir of motherhood love and resilience a woman and her toddler son follow the grey whale migration from Mexico to northernmost Alaska In this striking blend of nature writing whale science and memoir Doreen Cunningham interweaves two stories tracking the extraordinary northward migration of the grey whales with a mischievous toddler in tow and living with an I upiaq family in Alaska seven years earlier Throughout the journey she explores the stories of the whales and their young calves their history their habits and their attempts to survive the changes humans have brought to the ocean Cunningham s voice is powerful sharp profound sensitive and unflinching A story of courage and resilience Soundings is about the migrating whales and all we can learn from them as they mother adapt and endure their lives interrupted and threatened by global warming It is also a riveting journey onto the Arctic Sea ice and into the changing world of Indigenous whale hunters where Doreen becomes immersed in the ancient values of the I upiaq whale hunt and falls in love For this is Doreen s story too a fierce feminist tale touching on her childhood and her time living in a Women s Refuge with her baby becoming a mother just like the whales Lyrical brave and fearlessly honest Soundings is an unforgettable journey      **Perspectives on the North American Indians** Mark Nagler,1972-01-01      **The Road to Nunavut** Ronald Quinn Duffy,1988 A description of the transformation of the Inuit of the eastern Canadian arctic from a hunting and trapping society to a sedentary population tied to the economy of southern Canada and striving for self government      *Landscapes of Fear* Yi-Fu Tuan,2013-04-01 To be human is to experience fear but what is it exactly that makes us fearful Landscapes of Fear written immediately after his classic Space and Place is renowned geographer Yi Fu Tuan s influential exploration of the spaces of fear and of how these landscapes shift during our lives and vary throughout history In a series of linked essays that journey broadly across place time and cultures Tuan examines the diverse manifestations and causes of fear in individuals and societies he describes the horror created by epidemic disease and supernatural visions of witches and ghosts violence and fear in the country and the city fears of drought flood famine and disease and the ways in which authorities devise landscapes of terror to instill fear and subservience in their own populations In this groundbreaking work now with a new preface by the author Yi Fu Tuan reaches back into our prehistory to discover what is universal and what is particular in our inheritance of fear Tuan emphasizes that human fear is a constant it causes us to draw what he calls our circles of safety and at the same time acts as a foundational impetus behind curiosity growth and adventure      Race Relations in World Perspective Andrew W.
