The Essence Of Reparations:

The Essence of Reparations Amiri Baraka, 2003 African American Studies Baraka sees the struggle for reparations not as an end in itself but as part of a wider struggle for full citizenship and equal rights in a program for genuine democratic transformation in the United States In this context he poses issues that go way beyond the challenges of reparations One does not have to agree with his ideological framework to appreciate the timeliness and urgency of his case for reparations

Redefining Reparations Lorena De Vita, Constantin Goschler, 2025-03-24 This edited volume offers a new interpretation of the historically momentous 1952 Wassenaar negotiations between representatives of the Federal Republic of Germany Israel and the Jewish Claims Conference to negotiate reparations compensation and restitution in the aftermath of the Holocaust Wassenaar 1952 marked the first time that reparations were the subject of negotiations between representatives of victims and perpetrators following mass human

rights violations and genocide The reparations program that Germany established after the Holocaust eventually became a point of reference for many calling for reparations to deal with the aftermath of other atrocities from colonialism to slavery in contexts as diverse as Namibia the United States and beyond Combining perspectives from history anthropology international relations and transitional justice this volume reassesses the course and global legacy of these negotiations The book's holistic and nuanced intervention in the study of the politics of repair makes it essential reading for students of history law transitional justice and political science interested in the complex topic of reparations

Report of Committee of Experts on Reparations with Annexes and Concurrent Memorandum Allied Powers (1919-). Reparation Commission, 1929

The Politics of Reparations and Apologies Stephanie Wolfe, 2013-11-21 The Politics of Reparations and Apologies examines the evolution and dynamics of reparation politics and justice The volume introduces the key concepts theories and terms associated with social movements and in particular the redress and reparation movement RRM Drawing from RRM that have their foundation in World War II the German genocides the United States internments and the Japanese comfort women system the volume explores each case study's relative success or failure in achieving its goals and argues that there are overarching trends that can explain success

and failure more generally in the RRM movement Using the backdrop of international criminal law and normative concepts of reparations the volume establishes and analyzes the roles of reparations and apologies in obtaining transitional justice In each case study there is a detailed rundown of the political actions that were attempted to obtain redress and reparation for the victims of how successful the attempts were and of the crucial factors which influenced the relative success or failure Crucially the volume offers a comparative framework of the actions that contribute to a successful outcome for transitional justice With the increasing normative expectation of justice in post conflict situations this volume is a valuable resource for researchers in international affairs human rights political science and conflict studies *REPARATIONS - An urgent requirement for Humanity* MIR International Movement for Reparations,2020-09-16 COLLECTIVE INTERNATIONAL BOOK The fight initiated by MIR and many others must now be raised intensified and federated at the international level This is why in partnership with DIASPORAS NOIRES EDITIONS it seemed important to MIR to coordinate and produce this international collective work reflecting as many voices as possible exploring all the known paths on the theme of reparation and above all a pedagogical work dealing with all the forms it takes cultural psychological spiritual economic political reparation *International Law and Reparations* Claudio Grossman,Agustina del Campo,Mina A. Trudeau,2018-02-24 This book presents the most thorough analysis to date on the jurisprudence of the Inter American Court of Human Rights IACtHR concerning full reparations This jurisprudence interprets Article 63 of the American Convention on Human Rights In its interpretation of the Convention the IACtHR is guided by the important notion that human rights instruments should be interpreted in light of its object and purpose in accordance with the State members of the Organization of the American States The Court s jurisprudence ensures that victims of human rights violations are awarded not only monetary compensation in cases but also a full array of reparations designed to restore their dignity and reaffirm the value of the rule of law Accordingly reparation also includes moral compensation guarantees of non repetition and truth as a measure of satisfaction More specifically the book explores the notions of fair remedy injured party and the possibility of achieving restitutio in integrum for human rights violations through an analysis of decisions issued by the Inter American Court The book urges its reader to consider not only the current status of the law but also the role played by victims lawyers Commissioners and Judges in its jurisprudential development As a living instrument the value of the American Convention depends in great part on their actions and decisions This book by presenting the role of the different actors through concrete cases that shaped the system encourages everyone to think how the System should continue to satisfy the aspirations of justice in cases of human rights violations *After Violence* Elin Skaar,Camila Gianella Malca,Trine Eide,2015-04-17 *After Violence* Transitional Justice Peace and Democracy examines the effects of transitional justice on the development of peace and democracy Anticipated contributions of transitional justice mechanisms are commonly stated in universal terms with little regard for historically specific contexts Yet a truth commission for example will not have the same function in a society

torn by long term civil war or genocide as in a society emerging from authoritarian repression Addressing trials reparations truth commissions and amnesties the book systematically addresses the experiences of four very different contemporary transitional justice cases post authoritarian Uruguay and Peru and post conflict Rwanda and Angola Its analysis demonstrates that context is a crucial determinant of the impact of transitional justice processes and identifies specific contextual obstacles and limitations to these processes The book will be of much interest to scholars in the fields of transitional justice and peacebuilding as well as students generally concerned with human rights and democratisation

Reparation for Victims of Crimes against Humanity Jo-Anne Wemmers, 2014-05-30 Each year countless people fall victim to crimes against humanity These include widespread occurrences of systematic murder torture rape disappearances forced deportation and political persecution Crimes against humanity constitute an attack on human dignity and as such they violate the human rights of the victim as well as the laws of humanity In recent years following the creation of the International Criminal Court there has been a growing interest in the prosecution of offenders and in particular in reparation following crimes against humanity While such measures are meant to provide justice for victims victims are often forgotten or lost in legal debates about what constitutes reparation and who is eligible to receive it This book reaches beyond the boundaries of law and psychology and takes a multidisciplinary approach to the question of reparation for victims of crimes against humanity Law does not take place in a vacuum and it is important to consider the impact of the law on the psychology of the victim as well as the legal principles themselves Herein lies the originality of this book which bridges the gaps between psychology victimology criminology and law and will be of key interest to academics and students engaged in the study of these areas

Reparations for Indigenous Peoples Federico Lenzerini, 2008-01-24 In this book a group of renowned legal experts and activists investigate the right of indigenous peoples to reparations for breaches of their individual and collective rights

Reparations Jon Miller, Rahul Kumar, 2007 From civilian victims of war in Iraq and South America to descendents of slaves in the US to indigenous people around the world these groups and their advocates are arguing for the importance of addressing historical injustices This volume aims to contribute to these debates by examining four types of reparations claims

The Nation and Athenæum , 1924 The Nation and the Athenaeum , 1924 **Paper and Iron** Niall Ferguson, 2002-11-07 Few economic events have had a more profound or enduring impact than the German hyperinflation of 1923 still remembered popularly as a root cause of Hitler's rise to power Yet many historians have argued that inflationary policies were on balance advantageous to post 1918 Germany both boosting growth and helping to reduce reparations The scholarly consensus is that there was no viable alternative to inflation In *Paper and Iron* Niall Ferguson takes a different view He argues that inflation was indeed an economic and political disaster and further that there were alternative economic policies which could have stabilised the German currency in 1920 To explain why these were not adopted he points to long term defects in the political institutions of the Reich which went back as far as the 1890s and which persisted beyond 1918

The book therefore reveals the Wilhelmine origins of Weimar's failure as well as casting light on the origins of the Third Reich
