The Evidence For God:

The Evidence for God Paul K. Moser, 2010 Paul Moser offers a new perspective on the evidence for God that centers on a morally robust version of theism that is cognitively resilient The resulting evidence for God is morally and existentially challenging to humans as they themselves responsibly and willingly become evidence of God's reality in receiving and reflecting God's moral character for others

How to Know God Exists Ray Comfort, 2008 With the recent wave of books on atheism becoming New York Times best sellers the God debate is heating up Because of the implications it's the most significant question of all time Is there a God or isn't there In this compelling book Ray Comfort argues the case with simple logic and common sense If there is a God surely He has made His presence known so that anyone young or old scholar or school child can find Him By applying basic logic to three clear evidences for the existence of God Comfort will help you to Examine the case for evolution and see what top scientists are really saying about the theory Explore the facts that led the world's most notorious atheist to acknowledge a Creator Investigate the evidence to discover who God is through 100% scientific proof you can know God exists

Prove It Frank Harber Jr, 2021-05-05 In courtroom fashion Prove It takes a fresh look at the overwhelming evidence that proves beyond a reasonable doubt the reality of our Intelligent Designer Easy to follow chapters on design cosmology miracles contingency human consciousness desire astronomy and Pascal's Wager among others offer proof of God that is upheld by science history archaeology philosophy and theology Frank Harber holds a Ph.D. from Southwestern Baptist Theological Seminary and a Doctor of Jurisprudence from Texas A M He is the President and Chief Legal Counsel for The Institute for Christian Defense

God: the Evidence Ronald W. Larsen PhD, 2022-09-19 The holy grail of physics is quantum gravity often called the theory of everything But any scientific theory will be incomplete without the God of the Bible Physicists claim the cosmos began with a big bang created from nothing But the word nothing is meaningless in physics Furthermore the big bang is an impenetrable barrier to whatever preceded it In addition a finite cosmos cannot contain within itself an explanation for its own existence To claim we are here by accident explains nothing and leads to a logical dead end The cause of the universe is information in the form of mathematical laws left behind for science to discover The fundamental properties of these laws have the same attributes as the Supreme Lawgiver of Genesis An intelligible cosmos is unmistakable evidence the Creator is an Intelligent Mind The Creator's Voice is a valid scientific theory confirming the truth of Genesis God spoke the laws creating the universe out of nothing creatio ex nihilo The foundation of the universe is ethereal cosmic waves which interact according to the laws to create and sustain the illusion of reality we experience Space time energy and matter are made from quantum information nothing else is needed By a process of elimination God is the only possible explanation for everything we know The human mind is evidence consciousness is endemic to the cosmos Cosmic waves interact with the human mind in mysterious ways The cosmos relates to humans more like a great Mind than a mindless machine The god-like nature of the human mind is evidence we are made imago Dei Even if

God is included in a scientific theory it means little unless it can be shown God is a real Being alive present in the world and relevant to our lives

Evidence of God Sanjeev Sareen, 2023

The majority of people believe in the existence of God and follow different paths to realize Him. It is good to have a spiritual belief but is not enough. The distance between us and God remains. The confusion remains and we still sort of look for evidence of God. It is because we haven't experienced Him. The belief is not fully converted into faith. By working within strengthened Belief leads to strengthened faith and strengthened Faith leads to the actual Experience. The twenty first century calls for new insights into spirituality by analyzing the deepest parallel between various scientific theories and what is experienced by realized masters. People are already realizing that the traditional practices in all religions in the name of spirituality are mere child plays and thus cannot lead to the realization. Being in the scientific age people are now reasoning within and more appreciative of spirituality when explained scientifically. The efforts of this book are to transform your Belief into Faith through introspection reflecting on what scriptures say and primarily through pieces of evidence that are scientific in nature. Let's briefly think it over. If Lord Rama, Lord Krishna, Lord Buddha, Saint Guru Nanak, Lord Christ, Prophet Mohammad etc are the Gods then was there no God before them? And then which God did these very masters worship? Did any of these Masters ever say that ONLY they are the Gods and should be worshiped as personalities? If God is there only in the temples, churches etc and not everywhere then can He be God? It is projected as if there is a different God for different religions. Now what were the religions before these great masters came? If Christ is God for Christians and not for the whole of humanity without conditions can He be the Absolute the God? Same with the Gods of other religions. God through these Masters pointed out something but are we moving forward in the direction shown by these great Masters or just holding on to those symbols and worshiping the hand that has shown us the way? It is important to remember the great masters but is it helping us realize The Truth through traditional ways? To worship Jesus because He is Jesus is not enough. We need to embrace the universal ideals He taught and strive to be like Him. God is present everywhere in temples, churches etc too but just going there will not persuade Him to reveal Himself. Churchgoing is good but daily meditation is better still. We are to do both. Because we may certainly have inspiration from going to church but from daily meditation we will receive even greater upliftment. Yogananda Jesus said Seek the Kingdom of God Which means God is and there is a kingdom also and it is possible to seek it. The kingdom of God is within and is to be sought only within the soul. We are to seek God scientifically. Just like the fish which is made from water is born in water is inside the water and is inside the water it is not experiencing anything other than the water alone. Still the fish if its consciousness gets evolved enough can ask the question What is the water? How to respond to this query? In the same way despite being made of God by God we are inside God. God is within and God is all around. Ironically we are still looking for God. It is like God seeking God in the human form which has forgotten its true identity. But we are not fish. The solution to any problem cannot be had from the same level of consciousness in which the problem is perceived. The efforts here are to help you realize who you truly

are And the moment you realize yourself you realize God there and then You will realize that ONLY GOD EXISTS and You are that **The Evidence for God** Paul K. Moser,2010 Paul Moser offers a new perspective on the evidence for God that centers on a morally robust version of theism that is cognitively resilient The resulting evidence for God is not speculative abstract or casual Rather it is morally and existentially challenging to humans as they themselves responsively and willingly become evidence of God s reality in receiving and reflecting God s moral character for others from publisher description

Compelling Evidence for God and the Bible Douglas A. Jacoby,2010-03-01 In an age of doubt it s rare to find Christians who can speak clearly and boldly about the reasons for their faith Douglas Jacoby is one of those rare Christians As an international teacher for over 25 years he has shared the vital truths found in *Compelling Evidence for God and the Bible* with thousands of people in all walks of life and in dozens of cultures Jacoby s book is an easy to read apologetics work that will show readers the evidence that there is a God help readers see the unique role of the Bible as the Word of God encourage readers to make an informed decision about whether to follow Jesus *Compelling Evidence for God and the Bible* is especially suited for nonbelievers anyone new to the faith and believers who want a better understanding of their faith and how to explain it to others For readers who want solid reasons why the Christian faith is not only true but also reasonable this book is the place to begin *God* Patrick Glynn,1997 In the modern age science has been winning its centuries old battle with religion for the mind of man The evidence has long seemed incontrovertible Life was merely a product of blind chance a cosmic roll of an infinite number of dice across an eternity of time Slowly methodically scientists supplied answers to mysteries insufficiently explained by theologians Reason pushed faith off into the shadows of mythology and superstition while atheism became a badge of wisdom Our culture freed from moral obligation explored the frontiers of secularism God was dead Glynn s arguments for the existence of God put the burden of disproof on those intellectuals who think that the question has long since been settled Andrew M Greeley But now in the twilight of the twentieth century a startling transformation is taking place in Western scientific and intellectual thought At its heart is the dawning realization that the universe far from being a sea of chaos appears instead to be an intricately tuned mechanism whose every molecule whose every physical law seems to have been design from the very first nanosecond of the big bang toward a single end the creation of life This intellectually and spiritually riveting book asks a provocative question Is science the long time nemesis of the Deity uncovering the face of God Patrick Glynn lays out the astonishing new evidence that caused him to turn away from the atheism he acquired as a student at Harvard and Cambridge The facts are fascinating Physicists are discovering an unexplainable order to the cosmos medical researchers are reporting the extraordinary healing powers of prayer and are documenting credible accounts of near death experiences psychologists who once considered belief in God to be a sign of neurosis are finding instead that religious faith is a powerful elixir for mental health and sociologists are now acknowledging the destructive consequences of a value free society *God The Evidence* argues that faith today is not grounded in ignorance It

is where reason has been leading us all along Gravity True for You But Not for Me Michael Edwards,2018-11-17 Updated and revised 10 18 print on demand version Evidence For Gods Existence and Identity There are many contradictory beliefs about God that claim to be the truth But since truth never contradicts itself who really has the truth Utilizing objective evidence like a detective does in an investigation the facts point to the one belief that can be proven beyond a reasonable doubt One truth that applies to everyone if they believe it or not Follow the evidence and see for yourself Setting feelings and what others believe aside for a moment learn why objective evidence is the best way to find truth in any investigation including the truth about God See for yourself exactly why Christianity is the most reasonable belief available based on the facts and why it applies to everyone everywhere even if they do not believe it Learn the two things we all encounter daily that the Bible states is absolute proof of God s existence and leave every person without excuse even those who have never read the Bible Learn why trying to be a good person is not good enough Weigh the objective evidence for yourself and make a reasonable decision about God and then pass the evidence on to others so they can discover the truth Everyone deserves the opportunity to examine the evidence for themselves Perfect for the seeker and the believer who want to eliminate doubts and have a reasonable assurance that their faith is actually placed in the truth If you are a believer you know in your heart that you need to share the truth Let this book show your friends and family the sound foundation your belief rests upon then talk to them about it Print copies are available directly from the author in bulk for a greatly reduced price www.god.evidence.truth.com Includes access to our website www.god.evidence.truth.com with more resources and a video linked E Book version that goes into more depth Share Gravity with friends family and strangers It s not about religion it s about truth

Evidence of God (Pack of 25) Good News Tracts,2012-09-30 Tracts are creative short form gospel presentations Former atheist Lee Strobel shows how the facts of science point to a Creator He then explains how faith in God is a reasonable step to take based on that evidence **The Evidence of God** J. W. Trent,2016-03-07 This book examines the evidence of God through several theories faiths and general logic We come to the conclusion that the Christian God of the bible lives and that he loves his creation especially Mankind We cannot run from the truth of God s word and we cannot escape the fact that he loves us and sent his Son Jesus Christ to be the atonement for our sins **God on Trial** Paul K. Moser,2025-09-30 How do we know if God is benevolent Can we trust God or is our faith finally in vain Noted philosopher Paul Moser takes up this concern with a rigorous and persuasive argument that God is constantly seeking to vindicate divine goodness and to self manifest God s divinity as perfect goodness to humans *Does God Exist?* Gary Eldridge,2020-09-30 Does God Exist It is estimated that there are over 4 300 religions in the world Each claims to be correct Many people believe none are correct And while Christianity is the number one in terms of the number of members with 2 2 billion believers neither size nor the fervour of a religion s membership nor it s age guarantee anything most people believed the world was flat until recent centuries Almost all religions have no proof Many have some kind of bible Some even have archaeological

evidence of past people or events contained in their writings But that alone does not prove their supernatural or divine claims This inter disciplinary book by necessity links theology and science In this book the author presents newly discovered inviolable circumstantial evidence which is arguably so strong this exceeds the standards required by most courts worldwide in convicting suspects based on DNA matching alone Also presented are extremely well documented and scientifically verified modern day events which are worthy of being called nothing else but miracles a term which is frequently over used Contents Newly discovered secrets of the crucifixion eclipse scientific proof of the crucifixion earthquake ancient well documented predictions fulfilled by Christ s crucifixion scientifically medically documented medical miracles and apparitions scientific proof of heaven purgatory and hell and more **The God Relationship** Paul K. Moser,2017-04-07 Paul K Moser proposes a new approach to inquiry about God including a new discipline of the ethics for such inquiry **Burden of Proof: Using Known Concepts to Reveal Eternal Truths** Brandon Russell,2015-11-28 Where is the proof Why believe in something if there is no evidence Also why believe in something when there is evidence that runs contrary to a particular belief This is basic logic and a reason why most deny a deity Most who deny a deity argue there is no evidence Also they point to scientific evidence to validate their skepticism However what if there is evidence and evidence that is overwhelming Those who deny a deity have every right to demand evidence Yet what will they do when they are provided proof The Bible advocates a God who is sovereign If this is true everything points to his existence God is not hiding he wants to be known BURDEN OF PROOF Using Known Concepts to Reveal Eternal Truths was written to identify the evidence of God s existence The author answers forty thought provoking questions that highlight the eternal truths of Scripture Thus proving that the burden of proof does not lie with those who believe in God but with those who don t *The Evidence of Scripture Against the Claims of the Roman Church* Sanderson Robins,1853 *The Proof* Dennis Marcellino,2009 Through science and logic takes a thorough and objective look at the bigger questions of existence from many disciplines resulting in conclusive scientific proof that God exists and the Bible is true Provided by publisher God's Not Dead Rice Brooks,2013-03-11 The evidence behind the hit movie God s NotDead is apologetics for the twenty first century presented in clear and easy to follow terms Learn to defend your faith in a world that s determined to tear it down The goal of God s Not Dead is straightforward to help readers develop a faith that is real and credible and strong enough to help others find faith in God Author Rice Brooks outlines a roadmap that guides seekers to acknowledge the most basic truths of Christianity There is overwhelming and exciting evidence for God s existence The God who exists is indeed the God of the Bible God has revealed his nature through his Son Jesus Christ As shown during the movie this is the original book on which the main character bases much of his debate points with his atheistic professor It contains persuasive arguments crafted with tools borrowed from logic science philosophy and scripture that will solidify your faith and provide starting points for discussions with skeptics With clear easy to follow explanations of key concepts and controversies God s NotDead is modern apologetics presented in layman s terms

You will be empowered not only to talk about your own faith with confidence but to lead others to a relationship with Jesus

The Philosophical, Scientific, and Historical Evidence for God David Scott Nichols M.D., 2021-12-28 The Evidence for God For approximately one hundred years most secular scientists and the majority of the intelligentsia in the world have preached that God does not exist Darwin's book *The Origin of the Species* published in 1859 was the primary impetus for this change in our world's viewpoint away from God Today many leaders in academia look at Christians and others who believe in God as bereft of intelligence At the onset of the 20th century there was very little scientific evidence to suggest that God was the Creator of the Universe However since 1917 amazing evidence has been discovered in the fields of cosmology and biology that a significant number of secular scientists admit points to an incredible Creative Force most call this Force God The Philosophical Scientific and Historical Evidence for God presents this evidence in a detailed yet understandable manner This book Dr Nichols eleventh on theology provides well researched information showing the ever increasing evidence for an omnipotent Creator He considers it to be the magnum opus of his writing career The significance of the Big Bang theory and the many weaknesses now recognized in the theory of evolution will be thoroughly reviewed Philosophical and historical evidence for God will also be presented Dr Nichols is convinced that an open minded reader will come away with the realization that God does indeed exist and that He is the God of the Holy Bible

Christianity Contested Paul Copan, Stewart Kelly, 2024-12-30 Although Christianity has significantly influenced many of Western civilization's cherished ideals and values it faces ongoing criticism regarding its truth goodness and beauty Critics argue that Christianity is at odds with science human flourishing and the dignity of women that it is disconnected from modern views on sexuality and that its Scriptures support slavery and genocide They also claim that the historical evidence for Jesus bodily resurrection is weak and his claims of exclusivity are narrow minded Additionally the problem of evil and the hiddenness of God are major points of contention In response a group of scholars has provided a comprehensive well reasoned yet accessible resource to address these accusations for both the church and the broader public
