Ming Chen, Yuhua Ji, 2015-06-09 This monograph is the first academic work to apply a neo Marxist approach to 20th century Canadian social realist novels pursuing a refreshingly neo Marxist approach to such issues as Bakhtinian notions of the novelistic form and dialogism as applied to Canadian socio political novels influenced by various socialisms socialist feminist concerns economic and sexual politics and the genre of social realism In so doing it demonstrates that Marxist socialism is as relevant today as it was in the 1930s just as social realist novels continue to thrive as a critique of capitalism Readers will find valuable insights into the social significance formal innovations moral sensitivity aesthetic enrichment and ideological complexity of Canadian social realist novels

*Modernity and Responsibility* Eugene Combs, 1983-12-15 What is it to be modern How does the world look through the eyes of a modern Is it possible to bring the sensibility of the non modern to bear on the world around one If so how The essays in this volume consider these and a number of related questions in an attempt to determine how a thoughtful individual can understand and act justly in the world of modernity The authors stand firmly and deeply in modernity but they are profoundly aware of the classical and the Judaeo Christian traditions that the modern world has largely discarded and of non Western traditions that ask profound questions about the nature of man and his role in the universe They are willing to ask difficult and critical questions about traditional thought and about the assumptions often tacit of modernity The essays explore the problematic nature of the concept of transcendence in modern social and political philosophy They start with an analysis of Spinoza's use of biblical criticism to separate political philosophy and divine revelation and explore the impact of the rise of naturalistic individualism in the North Atlantic world A discussion of the role of the transcendent and of traditional philosophy in the East helps the reader to gain a deeper understanding of the process of secularization in the West The issue of moral responsibility is shown to be greatly influenced by the existence of the concept of transcendence and philosophy and

the apocalyptic tradition form the basis of attempts to bridge the gulf between the traditional and the modern secular view of the world These essays show that the quest for the grounds of responsible action requires a thorough going critique of modernity that looks not only at the modern world but beyond it to the traditions that formed and still inform it and to the experience of other cultures that are also facing the processes we already take for granted      **Keepers of the Code** Robert Lecker,2013-01-01 Robert Lecker explores the ways in which these anthologies contributed to the formation of a Canadian literary canon the extent to which this canon was tied to an ideal of English Canadian nationalism and the material conditions accounting for the anthologies production      **Canadian Fiction Magazine** ,1978      Revised and Updated Index to the Periodical Canadian Literature, Nos. 1-62 Glenn Clever,1975      *New Contexts of Canadian Criticism* Ajay Heble,Donna Palmateer Pennee,J.R. Struthers,1997-04-18 Times change lives change and the terms we need to describe our literature or society or condition what Raymond Williams calls keywords change with them Perhaps the most significant development in the quarter century since Eli Mandel edited his anthology *Contexts of Canadian Criticism* has been the growing recognition that not only do different people need different terms but the same terms have different meanings for different people and in different contexts Nation history culture art identity the positions we take discussing these and other issues can lead to conflict but also hold the promise of a new sort of community Speaking of First Nations people and their literature Beth Brant observes that Our connections are like the threads of a weaving While the colour and beauty of each thread is unique and important together they make a communal material of strength and durability *New Contexts of Canadian Criticism* is designed to be read to work in much the same manner      **Canadian Books in Print** ,1993
