The Experiment Of Life Science And Religion:

The Experiment of Life Trinity College (Toronto, Ont.),1983 *Science and Religion* J.W. Fennema,Paul Iain,2012-12-06

The world is increasingly becoming one It is at the same time one endangered ecosystem and one thriving market place with material and spiritual goods on competitive display And the good and evil things of life cannot easily be sorted out The world is becoming one also in the sense that it is better understood today than it was in earlier times that the material good and the spiritual good though seemingly belonging to different realms of fact defined by their respective modes of existence together constitute effectively one and the same reality the modern world of science technology computerized administration and power that calls upon humankind to struggle for a just participatory and sustainable society and to strive for a society of the future that will be the world over both long lived and worth living The Second European Conference on Science and Religion held on 10 13th March 1988 on the campus of the Universiteit Twente Enschede The Netherlands was meant to be a modest market place a forum where standpoints and opinions could be presented and criticized It was meant to offer an opportunity to meet and to make acquaintances in the expectation that the exchange of thoughts would lead to new conceptual horizons that would challenge what so far had been considered as hard fact or what until now had been looked upon as a distinctive feature of a well established view either of the kingdom of the sciences or of the realm of religion **The Art and Science of Sociology** Roland Robertson,John Simpson,2016-07-06 A festschrift honoring the work of Edward A Tiryakian consisting of a large number of essays Costly Communion ,2019-01-28 Costly Communion Ecumenical Initiative and Sacramental Strife in the Anglican Communion seeks to engage with Anglicanism s theological responses to the onset of the twilight of empire and to explore the diversity of Anglican sacramental and ecumenical controversies during the twentieth century From sacramental initiation and the doctrine of Eucharistic sacrifice to church order and the historic episcopate Costly Communion offers insights into Anglo Catholic and Evangelical attempts to resolve the divisions provoked by the impact of the Oxford Movement from the 1830s In its engagement with sub Saharan African contextualization of the Anglican moreover Costly Communion analyses the unanticipated threat that Anglican diversity now poses for the unity of the Anglican Communion Contributors are Jeff Boldt Jeremy Bonner Hugh Bowron Mark Chapman Colin Buchanan Ken Farrimond Joseph Galgalo Benjamin Guyer Charlotte Methuen Thomas Mhuriro Esther Mombo Zablon Nthamburi Kevin Ward **Archbishop William Temple** Stephen Spencer,2022-07-31 Leadership is a growing preoccupation of the contemporary church but for some of the most inspiring examples of good leadership we need to go back not forwards Archbishop William Temple is widely regarded as one of the most influential church leaders of the twentieth century In this book Stephen Spencer unpacks Archbishop Temple s life and legacy and the ways in which his leadership transformed society in remarkable ways From education to politics and from spiritual direction to leading the church through national crisis this book draws on Temple s biography to offer a unique and profound portrait of the kind of servant leadership the church needs today **Anglican Social Theology**

Malcolm Brown,2014-07-04 This volume commissioned by a group of Bishops in hard hit dioceses looks to develop strong theological foundations for local social action initiatives by churches especially for activists who are not familiar with the Church of England's tradition of social theology developed by William Temple and others a century ago Christianity and Ecological Theology E. M. Conradie,2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so These include a number of recent edited volumes each covering a range of topics and consolidating many of the emerging insights in ecological theology The call for Christian churches to respond to the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **William Temple and Church Unity** Edward Loane,2016-09-29 This book evaluates William Temple's theology and his pursuit of church unity It exposes a number of paradoxes and conflicts that have generally gone under appreciated in assessments of Temple William Temple was one of the most outstanding leaders of the early ecumenical movement In many ways his ecumenical efforts provided a paradigm others have looked to and followed Through detailed analysis of primary sources this study sheds light on several behind the scenes conflicts Temple experienced as he worked toward church unity Edward Loane explores the foundation of Temple's work by analyzing the philosophy and theology that underpinned and fueled it The book also exposes the tensions between Temple's denominational allegiance and his ecumenical convictions a tension that in some ways undermined his work for reunion This book reveals issues that contemporary Christians need to grapple with as they seek to further church unity *Anglican Social Theology Today* Malcolm Brown,Alan Suggate,Jonathan Chaplin,Anna Rowlands,John Hughes,2014-07-25 In periods of recession churches frequently respond to social need in practical ways These responses are often driven by pastoral concern rather than a theology of church and society But without theological roots such social action can be vulnerable and episodic This volume commissioned by a group of Bishops in hard hit dioceses looks to develop strong theological foundations for local social action initiatives by churches especially for activists who are not familiar with the Church of England's tradition of social theology developed by William Temple and others a century ago In exploring what a renewed Anglican social theology might look like this also draws on the impact of Catholic Social Teaching and focuses on the core topics of multiculturalism economics family patterns ecology and other key issues **The Making of Yeats's A Vision** George Mills Harper,1987 According to Yeats his wife surprised him on 24 October 1917 four days after their marriage by attempting automatic writing Excited he offered to spend the remainder of his life organizing and explaining the scattered sentences Over a period of approximately 30 months they collaborated in 450 sittings he asking questions she responding to fill a total of more than 3 600 pages Quoting copiously from the Script Harper has traced in two volumes these incredible experiments day by day as the Yeatses moved about England Ireland and America He has also cited hundreds of parallel explanatory passages from many workbooks notebooks and the concordance arranged like a card index in which Yeats codified the System he projected in A Vision and numerous poems and plays Harper also has examined the

extensive personal revelations that were excluded from A Vision and carefully concealed in many passages of personal Script As Professor Harper demonstrates Yeats had these often oblique highly allusive passages in mind when he admitted To Vestigia that he had not even dealt with the whole of my subject perhaps not even with what is most important writing nothing about the Beatific Vision little of sexual love **Christ in All Things** Stephen Spencer,2015-01-30 William Temple was one of the towering figures in the Church of England in the twentieth century He was a philosopher theologian social reformer bishop and archbishop As Archbishop of Canterbury he guided a nation at war and helped pave the way of the new post war society coining the term the welfare state and building support in the Church of England for radical social reforms This comprehensive volume draws on Temple s extensive publications broadcasts public speeches sermons and private letters and reflects the broad range of his concerns The case for Christian belief The interface of theology and philosophy Spiritual formation of the faithful Christian social principles and political thought Guiding a nation at war and envisaging a new society Prefaced by an extensive introduction to Temple s life and times and an overview of the key aspects of his legacy Stephen Spencer provides students with an authoritative guide to one of Anglicanism s most influential figures **Religion Index Two** ,1986 *The Social Impact of Science: a Select Bibnliography with a Section on Atomic Power, Subcommittee on War Mobilization ..., Pursuant to S.Res. 107 and S. Res. 146 ..., August 1945* United States. Congress. Senate. Committee on Military Affairs,1945 Canadian Book Review Annual ,1984 **What is Religion?** Nigel Ajay Kumar,2014-01-15 What Is Religion is one of those questions rarely asked by Christian theologians who engage in interreligious discourse Nigel Ajay Kumar makes the case however that to answer this question is critical for Christian scholars who want to negotiate multiple religious identities as well as for those who want a clearer understanding of their own faith as religion Kumar takes a historical and theological approach to answering this question The history of the concept of religion is traced from biblical times to the Indian independence era Then a theological answer is offered not only by looking at the classical Indian theologian Pandipeddi Chenchiah but also by listening to other contemporary secular and theological voices This is the South Asian Edition of the original Wipf Stock edition 2013 with the same name Scientific and Technical Books and Serials in Print ,1984 *Science, Religion and Deep Time* Lowell Gustafson,Barry Rodrigue,David Blanks,2022-07-05 This book examines the meaning of religion within the scientific evidence based history of our known past since the big bang While our current major religions are only centuries or millennia old our volume discusses the origins and development of human religious practice and belief over our species existence of 300 000 years The volume also connects the scientific approach to natural and social history with ancient truths of our religious ancestors using new lines of inquiry new technologies new modes of expression and new concepts It brings together insights of natural scientists social scientists philosophers writers and theologians to discuss narratives of the universe The essays discuss that to apprehend religion scientifically or to interpret and explain science theologically the subject must be examined through a variety of disciplinary lenses

simultaneously and raise several theoretical philosophical and moral problems With a singular investigation into the meaning of religion in the context of the 13 8 billion year history of our universe this book will be indispensable for scholars and students of religious studies big history sociology and social anthropology philosophy and science and technology studies
