The Divine Feminine in Biblical Wisdom Literature Rami M. Shapiro, 2005. The pure and penetrating message of the Divine Feminine Wisdom can become a companion for your own spiritual journey. The first of God's creations and God's endless delight, Wisdom also known as Chochma and Sophia is the Mother of all life, the guide to right living. She is God manifest in the world you encounter moment to moment. Her teachings embedded in the Holy Scriptures of Jews and Christians are passionate powerful calls to live in harmony, love with integrity and act joyously. Through the Hebrew books of Psalms, Proverbs, Song of Songs, Ecclesiastes and Job and the Wisdom literature books of Sirach and the Wisdom of Solomon, the Divine Feminine speaks to you directly and Her only desire is to teach you to become wise. Rami Shapiro's contemporary translations and powerful commentaries clarify who Wisdom is, what She teaches and how Her words can help you live justly, wisely and with compassion. This is not a book about Wisdom but the voice of Wisdom Herself liberating, uplifting and compelling. Now you can experience the Divine Feminine and understand Her teachings with no previous knowledge of Wisdom literature. Reciprocal Constructions Vladimir P. Nedjalkov, 2007-11-06. This monograph constitutes the first comprehensive investigation of reciprocal constructions and related phenomena in the world's languages. Reciprocal constructions of the type 'The two boys hit each other' / 'The poets admire each other's poems' have often been the subject of language particular studies but it is only in this work that a truly global comparative picture emerges. Nine stage-setting chapters dealing with general and theoretical matters are followed by 40 chapters containing in-depth descriptions of

reciprocals in individual languages by renowned specialists The introductory papers provide a conceptual and terminological framework that allows the authors of the individual chapters to characterize their languages in comparable terms making it easy for the reader to see points of commonality between languages and constructions that have never been compared before This set of volumes is an indispensable starting point and will be a lasting reference work for any future studies of reciprocals
