The Origins of Transmedia Storytelling in Early Twentieth Century Adaptation Alexis Weedon, 2021-06-18 This book explores the significance of professional writers and their role in developing British storytelling in the 1920s and 1930s and their influence on the poetics of today s transmedia storytelling Modern techniques can be traced back to the early twentieth century when film radio and television provided professional writers with new formats and revenue streams for their fiction The book explores the contribution of four British authors household names in their day who adapted work for film television and radio Although celebrities between the wars Clemence Dane G B Stern Hugh Walpole and A E W Mason have fallen from view The popular playwright Dane witty novelist Stern and raconteur Walpole have been marginalised for being German Jewish female or gay and Mason s contribution to film has been overlooked also It argues that these and other vocational authors should be reassessed for their contribution to new media forms of storytelling The book makes a significant contribution in the fields of media studies adaptation studies and the literary middlebrow

The Never End John Reed, 2023-07-27 This book

presents full history of the origin of Orwell's Animal Farm as well as a translation of the Russian Ukrainian source work. Has George Orwell lost his saintly luster? In The Never End, rabble rouser, dogged investigator and consummate literary stylist John Reed collects two decades of subject Orwell findings previously published in Pank, Guernica, Literary Hub, The Brooklyn Rail, The Rumpus, The New York Press, The Believer, Harper's Magazine, and The Paris Review. Reed's treatment of Orwell is corrective and peerlessly contemporary; he views Orwell in a twenty-first century global context, considering Orwell's collaboration with Cold War intelligence operations in the US and UK with unfaltering objectivity. It's hard to imagine that Orwell in our own moment of global doublethink wouldn't have wanted his devotion to contrariety applied to the literary legacy he left behind. The Never End is at once a hatchet job and a celebration. Animal Farm based on a previously unknown Russian short story, Animal Farm deployed by the CIA, MI6, and the Congress for Cultural Freedom, Orwell turning over blacklists in a McCarthy-esque act of betrayal. The Cold War. Does it last forever? Russia, the Axis of Evil, and now China. But Orwell. Course syllabi. Literary laurels. Snitch. Why do we keep coming back for the wrong reasons? Or because we know Old Benjamin would want us to know the truth.

Art and Commerce in the British Short Story, 1880-1950 Dean Baldwin, 2015-10-06. The short story was a commercial phenomenon which took off in the late nineteenth century and lasted through to the rise of television and film. Baldwin uses a wide variety of sources to show how economic factors helped to dictate how and what a wide variety of authors wrote.

Writing Animals Timothy C. Baker, 2019-01-07. This book surveys a broad range of contemporary texts to show how representations of human-animal relations challenge the anthropocentric nature of fiction. By looking at the relation between language and suffering in twenty-first century fiction and drawing on a wide range of theoretical approaches, Baker suggests new opportunities for exploring the centrality of nonhuman animals in recent fiction. Writing animal lives leads to new narrative structures and forms of expression. These novels destabilise assumptions about the nature of pain and vulnerability, the burden of literary inheritance, the challenge of writing the Anthropocene, and the relation between text and image. Including both well-known authors and emerging talents from J.M. Coetzee and Karen Joy Fowler to Sarah Hall, Alexis Wright, and Max Porter, and texts from experimental fiction to work for children, Writing Animals offers an original perspective on both contemporary fiction and the field of literary animal studies.
