The Haunting Image:

The Haunting Image Suzanne Clausse, 1978 **The King's Living Image** Alejandro Caneque, 2013-04-15 To rule their vast new American territories the Spanish monarchs appointed viceroys in an attempt to reproduce the monarchical system of government prevailing at the time in Europe But despite the political significance of the figure of the viceroy little is known about the mechanisms of viceregal power and its relation to ideas of kingship Examining this figure *The King's Living Image* challenges long held perspectives on the political nature of Spanish colonialism recovering at the same time the complexity of the political discourses and practices of Spanish rule It does so by studying the viceregal political culture that developed in New Spain in the sixteenth and seventeenth centuries and the mechanisms both formal and informal of viceregal rule In so doing *The King's Living Image* questions the very existence of a colonial state and contends that imperial power was constituted in ritual ceremonies It also emphasizes the viceroys significance in carrying out the civilizing mission of the Spanish monarchy with regard to the indigenous population *The King's Living Image* will redefine the ways in which scholars have traditionally looked at the viceregal administration in colonial Mexico **Terrorizing Images** Charles Ivan Armstrong, Unni Langas, 2020-09-07 It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests This volume proposes that paying attention to how images of trauma and conflict are described in literary texts i e to the rhetorical practice known as ekphrasis is crucial to our understanding of how such images work The volume's contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different functions of ekphrasis in literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies Holocaust Images and Picturing Catastrophe Angi Buettner, 2016-12-05 *Holocaust Images and Picturing Catastrophe* explores the phenomenon of Holocaust transfer analysing the widespread practice of using the Holocaust and its imagery for the representation and recording of other historical events in various media sites It investigates the use of Holocaust imagery in political and legal discourses in critical thinking and philosophy as well as in popular culture to provide a fresh theorisation of the manner in which the Holocaust comes loose from its historical context and is applied to events and campaigns in the contemporary public sphere Richly illustrated with concrete examples including prominent international animal rights activism the Israeli Palestinian conflict and the genocide in Rwanda this book traces the visual rhetoric of Holocaust imagery and its application to events other than the genocide of Jewish people With its discussion of the wide range of issues arising with this form of Holocaust transfer the generalization of

the Holocaust as a metaphor in representations of catastrophe as well as in other cultural locations Holocaust Images and Picturing Catastrophe will appeal to those working in the fields of holocaust studies cultural and visual culture studies sociology and media studies *The Adult Attachment Projective Picture System* Carol George, Malcolm L. West, 2012-04-10 This book presents cutting edge research on adult attachment together with a complete overview of the Adult Attachment Projective Picture System AAP the authors validated developmental assessment In addition to identifying attachment classification groups the AAP yields important information about dimensions including defensive processes not evaluated by other available measures Detailed case illustrations show what the AAP looks like in action and what it reveals about individuals early experiences sense of self and capacity to engage in close protective relationships The AAP can be used in clinical or research settings the concluding chapter discusses promising applications to studying the neurobiology of attachment Time, Existential Presence and the Cinematic Image Sam B. Girgus, 2018-08-13 Uses philosophical thinking on delayed cinema time and ethics to provide a new approach to reading film In *Time Existential Presence and the Cinematic Image* Sam B Girgus relates Laura Mulvey's theory of delayed cinema to ideas on time and the relationship to the other in the writings of Jean Luc Nancy Emmanuel Levinas and Julia Kristeva among others The sustained tension in film between in Mulvey's phrase stillness and the moving image enacts a drama of existential emergence The stillness of the framed image in relation to the moving image opens free cinematic time and space for a fresh engagement with crucial ethical and cultural issues With close readings of films such as *The Bicycle Thieves* *Two Days One Night* *The Three Burials of Melquiades Estrada* *The Revenant* and *The Age of Innocence* this book proposes a fresh approach to reading film in the context of emerging existential presence and the ethical imperative **Aesthetics of Displacement** Ozlem Koksak, 2017-07-27 Displacement does not only have an effect on groups and individuals ways of relating to their identity and their past but the knowledge and experience of it also has an impact on its representation Looking at films that represent the experience of displacement in relation to Turkey's minorities *Aesthetics of Displacement* argues that there is a particular aesthetic continuity among the otherwise unrelated films Ozlem Koksak focuses on films that bring taboo issues concerning the repression of minorities into visibility arguing that the changing political and social conditions determine not only the types of stories told but also the ways in which these stories are told Focusing on aesthetic and narrative continuities the films discussed include *Ararat* *Waiting for the Clouds* and *Once Upon a Time in Anatolia* among others Each film is examined in light of major historical events and their context political and social as well as the impact these events had on the construction of both minority and Turkish identity **Picturing the Family** Silke Arnold-de Simine, Joanne Leal, 2020-08-04 Whether pasted into an album framed or shared on social media the family photograph simultaneously offers a private and public insight into the identity and past of its subject Long considered a model for understanding individual identity the idea of the family has increasingly formed the basis for exploring collective pasts and cultural memory *Picturing the Family* investigates how visual

representations of the family reveal both personal and shared histories evaluating the testimonial and social value of photography and film Combining academic and creative practice based approaches this collection of essays introduces a dialogue between scholars and artists working at the intersection between family memory and visual media Many of the authors are both researchers and practitioners whose chapters engage with their own work and that of others informed by critical frameworks From the act of revisiting old personal photographs to the sale of family albums through internet auction the twelve chapters each present a different collection of photographs or artwork as case studies for understanding how these visual representations of the family perform memory and identity Building on extensive research into family photographs and memory the book considers the implications of new cultural forms for how the family is perceived and how we relate to the past While focusing on the forms of visual representation above all photographs the authors also reflect on the contextualization and remediation of photography in albums films museums and online

Unlocking the Poetry of W. B.

Yeats Daniel Tompsett, 2018-06-13 Unlocking the Poetry of W B Yeats undertakes a thorough re reading of Yeats oeuvre as an extended meditation on the image and theme of the heart as it is evident within the poetry It places the heart at the centre of a complex web of Yeatsian preoccupations and associations from the biographical to the poetic and philosophical to the mythological and mystical In particular the book seeks to unlock Yeats mystifying aesthetic vision via his understanding of the ancient Egyptian Weighing of the Heart ceremony The work provides a chronological narrative arc that looks to use the theme of the heart as it recurs in the poetry in order to circumvent and overcome more established frameworks Its purpose is to offer refreshing ways of conceptualizing and building alternatives to more deeply entrenched but not entirely satisfactory arguments that have been offered since Yeats death in 1939 while demonstrating the centrality of the occult to Yeats art

Women, Desire, and Power in Italian Cinema M. Cottino-Jones, 2010-02-15

Women Desire and Power in Italian Cinema offers for the first time in Italian Cinema criticism a contextual study of the representation of women in twentieth century Italian films Marga Cottino Jones argues that the ways women are depicted on screen reflects a subconscious sexual conservatism typical of an Italian society rooted within a patriarchal ideology The book then follows the slow but constant

process of social awareness in the Italian society through women in film especially after the 1950s Comprehensive in scope this book analyzes the films of internationally known male and female directors such as Antonioni Fellini Rossellini Visconti Bertolucci Benigni Cavani Wertmuller Comencini and Archibugi Special consideration is given to the actresses and actors that have become the icons of Italian femininity and masculinity such as Sofia Loren Gina Lollobrigida Silvana Mangano Gian Carlo Giannini Marcello Mastroianni and Alberto Sordi **Culture, Heritage and Representation** Steve

Watson,2016-12-05 The visual has long played a crucial role in forming experiences associations expectations and understandings of heritage Images convey meaning within a range of practices including tourism identity construction the popularization of the past through a variety of media and the memorialization of events However despite the central role of the visual in these contexts it has been largely neglected in heritage literature This edited collection is the first to explore the production use and consumption of visual imagery as an integral part of heritage Drawing on case studies from around the world it provides a multidisciplinary analysis of heritage representations combining complex understandings of the visual from a wide range of disciplines including heritage studies sociology and cultural studies perspectives In doing so the book provides a comprehensive overview of the theoretical and methodological tools necessary for understanding visual imagery within its cultural context Journal of Moral Theology, Volume 9, Special Issue 2 Matthew J.
