New developments in RICS New Rules of Measurement NRM are incorporated throughout the book in addition to new material on e business, the internet, social media, building information modelling, sustainability, building resilience and carbon estimating. This trusted and easy to use guide to the cost management role focuses on the importance of costs of constructing projects during the different phases of the construction process. Features learning outcomes and self assessment questions for each chapter. Addresses the requirements of international readers. From introductory data on the construction industry and the history of construction economics to recommended methods for cost analysis and post contract cost control. **Cost Studies of Buildings** is an ideal companion for anyone learning about cost management. Getting to Grips with BIM James Harty, Tahar Kouider, Graham Paterson, 2015-12-14

With the UK government's 2016 BIM threshold approaching, support for small organisations on interpreting, filtering and applying BIM protocols and standards is urgently required. Many small UK construction industry supply chain firms are uncertain about what Level 2 BIM involves and are unsure about taking first steps towards having BIM capability. As digitisation increasingly impacts on work practices, **Getting to Grips with BIM** offers an insight into an industry in change, supplemented by practical guidance on managing the transition towards more widespread and integrated use of digital tools to manage the design, construction and whole life use of buildings.
