*Deep Refrains* Michael Gallope, 2017-11-16 We often say that music is ineffable that it does not refer to anything outside of itself But if music in all its sensuous flux does not mean anything in particular might it still have a special kind of philosophical significance In *Deep Refrains* Michael Gallope draws together the writings of Arthur Schopenhauer Friedrich Nietzsche Ernst Bloch Theodor Adorno Vladimir Jankélévitch Gilles Deleuze and Félix Guattari in order to revisit the age-old question of music's ineffability from a modern perspective For these nineteenth and twentieth century European philosophers music's ineffability is a complex phenomenon that engenders an intellectually productive sense of perplexity Through careful examination of their historical contexts and philosophical orientations close attention to their use of language and new interpretations of musical compositions that proved influential for their work *Deep Refrains* forges the first panoptic view of their writings on music Gallope concludes that music's

ineffability is neither a conservative phenomenon nor a pious call to silence. Instead, these philosophers ask us to think through the ways in which music's stunning force might address in an ethical fashion intricate philosophical questions specific to the modern world.

**The Cold War and Entertainment Television** Lori Maguire, 2016-08-17. An essential dimension of the Cold War took place in the realm of ideas and culture. While much work exists on cinema, relatively little research has been conducted on this subject in relation to television, despite the latter being a technology and popular cultural form that emerged during this period. This book rectifies that absence by examining the impact of the Cold War on entertainment television and underlines the comparative aspect by studying programs from both blocs without forgetting, of course, the outsized impact of American television. Although most of the focus is on the two main protagonists, the US and the USSR, chapters also consider programming from the UK, Czechoslovakia, Romania, and both East and West Germany. This book represents a contribution to the debate about the cultural Cold War through a rigorously comparative analysis of the two blocs. For this reason, the approach used is thematic. The study begins by considering the subject of censorship and then goes on to look at the very particular case of the two Germanys. A series of comparative genre studies follow, including police and war, variety shows, and documentaries and docudramas. Perhaps surprisingly, the similarities are often greater than the differences between television in the two blocs.
