BOOK JACKET Jews and Jazz Charles B. Hersch, 2016-10-14 *Jews and Jazz: Improvising Ethnicity* explores the meaning of Jewish involvement in the world of American jazz. It focuses on the ways prominent jazz musicians like Stan Getz, Benny Goodman, Artie Shaw, Lee Konitz, Dave Liebman, Michael Brecker, and Red Rodney have engaged with jazz in order to explore and construct ethnic identities. The author looks at Jewish identity through jazz in the context of the surrounding American culture, believing that American Jews have used jazz to construct three kinds of identities to become more American, to emphasize their minority outsider status, and to become more Jewish. From the beginning, Jewish musicians have used jazz for all three of these purposes, but the emphasis has shifted over time. In the 1920s and 1930s, when Jews were seen as foreign, Jews used jazz to make a more inclusive America for themselves and for blacks, establishing their American identity. Beginning in the 1940s, as Jews became more accepted into the mainstream, they used jazz to re-minoritize and avoid over-assimilation through identification with African Americans. Finally, starting in the 1960s, as ethnic assertion became more predominant in America, Jews have used jazz to explore and advance their identities as Jews in a multicultural society.

The Wister Trace Loren D. Estleman, 2014-09-29 A master practitioner's view of his craft, this classic survey of the fiction of the American West is part literary history, part criticism, and entertaining throughout. The first edition of *The Wister Trace* was published in 1987, when Larry McMurtry had just reinvented himself as a writer of Westerns and Cormac McCarthy's career had not yet taken off. Loren D. Estleman's long overdue update connects these new masters with older writers, assesses the genre's past, present, and future, and takes account of the renaissance of western movies as well. Estleman's title indicates the importance he assigns Owen Wister's 1902 classic *The Virginian*. Wister was not the first writer of Westerns, but he defined the genre, contrasting chivalry with the lawlessness of the border and introducing such lines as "When you call me that smile." Estleman tips his hat to Wister's predecessors among them Ned Buntline, the inventor of the dime novel, and Buffalo Bill. His assessments of Wister's successors, Zane Grey, Walter Van Tilburg Clark, and Louis L. Amour, to name but three, soon make clear the impossibility of differentiating great western writing from great American writing. Especially important in this new edition is the attention to women writers. The author devotes a chapter each to Dorothy Johnson, author of *The Man Who Shot Liberty Valance*, and Annie Proulx, whose Wyoming stories include *Brokeback Mountain*. In his discussion of movies, Estleman includes a list of film adaptations that will guide readers to movies and moviegoers to books. An appendix draws readers' attention to authors not covered elsewhere in the volume, some of them old masters like Bret Harte and Jack London, but many of them fascinating outliers ranging from Clifford Irving to Joe R. Lansdale.
