popular press publications such as magazines films and television documentaries Media Narratives in Popular Music examines these various publications and questions how and why they are constructed It considers the typically linear narratives that are based on simplifications exaggerations and omissions and the histories they construct an approach that leads to totalizing official histories that reduce otherwise messy narratives to one dimensional interpretations of a heroic and celebratory nature This book questions the basis on which these mediated histories are constructed highlights other hidden histories that have otherwise been neglected and explores a range of topics including consumerism the production pressure behind documentaries punk fanzines Rolling Stones covers and more

When Souls Had Wings Terry L. Givens, Terry L. Givens, 2012-06-07 The idea of the pre existence of the soul has been extremely important widespread and persistent throughout Western history from even before the philosophy of Plato to the poetry of Robert Frost This book offers the first systematic history of this little explored feature of Western culture Terry L. Givens underscores how durable and controversial this idea has been throughout history highlighting the theological dangers it has represented and revealing how prominently it has featured in poetry literature and art

The French Idea of History Carolina Armenteros, 2011-07-07 A fierce absolutist a furious theocrat the champion of the hardest narrowest and most inflexible dogmatism part learned doctor part inquisitor part executioner Thus did mile Faguet describe Joseph Marie de Maistre 1753 1821 in his 1899 history of nineteenth century thought This view of the influential thinker as a reactionary has with little variation held sway ever since In *The French Idea of History* Carolina Armenteros recovers a very different figure one with a far more subtle understanding of and response to the events of his day Maistre emerges from this deeply learned book as the crucial bridge between the Enlightenment and the historicized thought of the nineteenth century Armenteros demonstrates that Maistre inaugurated a specifically French way of thinking about past present and future that held sway not only among conservative political theorists but also among intellectuals generally considered to belong to the left particularly the Utopian Socialists The historical rupture represented by the French Revolution compelled contemporaries to reflect on the nature and meaning of history Some who remained religious during those years felt history with particular intensity awakening suddenly to the fear that God might have abandoned humankind This profound spiritual anxiety emerged in Maistre s work under his pen everything knowledge society religion government the human body had to be historicized and temporalized in order to be known The imperative was to end history by uncovering its essence Socialists positivists and traditionalists drew on Maistre s historical ideas to construct the collective good and design the future The dream that history held the key to human renewal and the obliteration of violence faded after the 1848 revolutions but it permanently changed French social political moral and religious thought

Sharpening Psychology's Concepts Wolfgang Giegerich, 2025-07-30 A big problem of psychology in the tradition of C G Jung is that many concepts and orientations are being used by its adherents that are not really compatible with a true psychology because they have their home ground in other orientations It is essential for psychology

that its views and concepts are ultimately derived from a rigorous notion of psychology and from the concept of its key metaphor soul This book diligently examines a host of diverse psychological stances and concepts using this insight as its compass Beginning with a thorough elucidation of the unique foundational orientation of Jung's psychology as an additional crucial guidepost and then exploring the lasting significance of James Hillman's achievement in the field of psychology it goes on to engage with works from psychologists such as Robert Romanyshyn Mark Saban and Stanton Marlan By reviewing the various theses presented examples being that synchronicity could be a gate to meaning that one's anxiety could be a guide to psychological understanding that there are absolutely unassimilable images the emphasis is always on making the necessary distinctions and thereby training the mind in truly psychological thinking This book will be of great interest to the Jungian community psychotherapists and psychoanalysts training in Jungian theory and practice and those interested in psychological theological and philosophical issues *Fifth-Dimensional Soul Psychology* David K. Miller, 2014-08-18

Greetings I'm Vywamus I'm a soul psychologist In this series of lectures we will explore the meaning of soul psychology and how it relates to modern psychology More importantly we will show how soul psychology as a practice is becoming more popular and is an especially useful technique for starseeds and others who are awakening to the fact that there is reincarnation and that there are soul lessons that must be learned The basic essence of soul psychology rests with the idea that the soul is evolving and that part of this evolution is occurring through incarnations in the third dimension Now to even speak about the soul evolving is perhaps a controversial subject because we know that the soul is eternal We know that the soul has been in existence for infinity and we know that the soul is perfect So why would the soul have to evolve The answer to this question is complex and we may not be able to totally answer it using third dimensional terminology But it is an important question to answer because the nature of soul evolution is inherently connected to your experiences in the third dimension The soul in completing its evolutionary journey needs these experiences in the third dimension and it needs to complete the lessons here through David K Miller Chapters Include Soul Evolution The Nature of the Soul Enlightenment Soul Psychology and Planetary Healing Soul Group Psychology Restoring the Self Uncovering the Mystery of the Mental Body Negative Self Talk Altered States of Consciousness Cosmic Karma **The Criminalization of Abortion in the West**

Wolfgang Müller, 2012-06-01 Anyone who wants to understand how abortion has been treated historically in the western legal tradition must first come to terms with two quite different but interrelated historical trajectories On one hand there is the ancient Judeo-Christian condemnation of prenatal homicide as a wrong warranting retribution on the other there is the juristic definition of crime in the modern sense of the word which distinguished the term sharply from sin and tort and was tied to the rise of Western jurisprudence To find the act of abortion first identified as a crime in the West one has to go back to the twelfth century to the schools of ecclesiastical and Roman law in medieval Europe In this book Wolfgang P Müller tells the story of how abortion came to be criminalized in the West As he shows criminalization as a distinct phenomenon and

abortion as a self standing criminal category developed in tandem with each other first being formulated coherently in the twelfth century at schools of law and theology in Bologna and Paris Over the ensuing centuries medieval prosecutors struggled to widen the range of criminal cases involving women accused of ending their unwanted pregnancies In the process punishment for abortion went from the realm of carefully crafted rhetoric by ecclesiastical authorities to eventual implementation in practice by clerical and lay judges across Latin Christendom Informed by legal history moral theology literature and the history of medicine M ller s book is written with the concerns of modern readers in mind thus bridging the gap that might otherwise divide modern and medieval sensibilities *Fundamentals of Early Christianity* George Luther Clark,1928 The Fifth Dimension Ramma Kher,2017-06-08 The protagonist Meera emigrates from India to Canada as a newlywed Unfortunately her husband dies within a few months Her dear friend Jane commits suicide soon after To fulfill her last wishes Meera adopts her illegitimate son Rishi Janes ruthless and wicked mother Helena has Rishi in an immoral and convoluted web of deceit Rishi grows into a conflicted adolescent partly because of racism he experiences at school and partly due to Helenas indoctrination against his mother Rishi leaves Meera in spite of the sacrifices she made for him refusing a marriage proposal twice The protagonist is a highly moral and compassionate human who refuses to compromise her essence Constantly striving to preserve some semblance of beauty and truth in her turbulent life Meeras story is about sacrifice struggle and survival decrepitude and triumph and pain and transcendence by the Spirit the fifth dimension **A History of Psychology** Otto Klemm,1914 Derek Jarman's Visionary Arts Michael Charlesworth,2024-05-16 Derek Jarman s place in the history of film is assured by virtue of his vibrant defiant films that experiment with the very process of film making and create new forms His paintings their excitements and their profundity are less well known Michael Charlesworth sheds light on the varied ramifications of Jarman s artistic practice from his years at Prospect Cottage Dungeness and provides the first book length study of his interest in depth psychology He draws on Jarman s paintings especially his landscapes from the 1960s and 70s his multiple series such as black and broken glass GBH Queer and Evil Queen and his last Ecstatic Landscapes 1991 3 He also showcases Jarman s excellence as a writer with respect to his memoir Kicking the Pricks In a novel approach to Jarman s cinema selecting films such as Journey to Avebury 1973 Caravaggio 1986 The Garden 1990 and Blue 1993 Charlesworth emphasizes themes and artistry rather than narrative Exploring the ways in which Jungian and post Jungian psychology were absorbed into Jarman s varied works Derek Jarman s Visionary Arts provides a fresh perspective on his painting film and writing It celebrates him as one of the major British artists of the late 20th century engaging with current debates about queer sexualities environmentalism and climate catastrophe Walking in Albion Richard Leviton,2010-04-22 FICTION Take a visionary walk through the cosmos right here on the Earth What if you woke up one morning and realized you are the cosmos all the heavenly realms and gods and a refl ection of God Himself Herself Th at you and the Earth have the same structures of consciousness are made virtually the same Walking in Albion is an amusing
