**The Two-Soul'd Animal** James Jaehoon Lee, 2019-03-15 The Two Soul'd Animal illuminates an early modern debate that recognized the troubling extent to which Christian thought had defined the human in terms of two incompatible models of soul As the sixteenth century progressed Christian and humanist thinkers began to realize that these two souls fundamentally contradicted each other On the one hand Christian theology had a great debt to Aristotle's tripartite model of the soul based on three organic faculties intellection sensation and nutrition On the other the Christian soul was defined by its immortal immaterial and transcendental substance The sixteenth century acknowledgement of the two souls provoked a great deal of anxiety leading Christian thinkers to ask How can we as God's perfect design have two redundant and yet contradictory souls And how could the core of the religious subject possibly be defined by a psychological paradox As a result the soul was an intrinsically unstable term being renegotiated in Renaissance culture The English writers studied in *The Two Soul'd Animal* place two prevailing interpretations of the soul's faculties one rhetorical on the plane of aesthetics the other theological on the plane of ethics into contact as a way to construct a new mode of Christian agency
