Waller, 1983 By the outbreak of the First World War England had become the world's first mass urban society In just over sixty years the proportion of town dwellers had risen from 50 to 80 percent and during this period many of the most crucial developments in English urban society had taken place This book provides a uniquely comprehensive analysis of those developments conurbations suburbs satellite towns garden cities and seaside resorts Waller assesses the importance of London the provincial cities and manufacturing centers He also examines the continuing influence of the small country town and rural England on political economic and cultural growth Scholarly and readable this book is a general social history of late nineteenth and early twentieth century England seen from an urban perspective *Being English* Sayan Chattopadhyay, 2021-11-29 This book critically examines the cultural desire for anglicisation of the Indian middle class in the context of postcolonial India It looks at the history of anglicised self fashioning as one of the major responses of the Indian middle class to British colonialism The book explores the rich variety of nineteenth and twentieth century writings that document the attempts by the Indian middle

class to innovatively interpret their personal histories their putative racial histories and the history of India to appropriate the English language and lay claim to an English identity It discusses this unique quest for Englishness by reading the works of authors like Michael Madhusudan Dutt Rabindranath Tagore Cornelia Sorabji Nirad C Chaudhuri Dom Moraes and Salman Rushdie An important intervention this book will be of interest to scholars and researchers of postcolonial studies Indian English literature South Asian studies cultural studies and English literature in general Certain delightful English towns, with glimpses of the pleasant country between William Dean Howells, 2019-11-29 In *Certain Delightful English Towns with Glimpses of the Pleasant Country Between* William Dean Howells provides a captivating exploration of England's quaint towns and the serene landscapes that connect them Written in a rich descriptive literary style characteristic of the late 19th century Howells draws readers into the intimate details of local life culture and the picturesque beauty of the English countryside The narrative is imbued with a sense of nostalgia and admiration reflecting both the romantic ideals of the time and the growing appreciation for travel literature as it captures the essence of each location through vivid imagery and personal observations William Dean Howells an influential literary figure and social critic was deeply attuned to the complexities of American society which informed his worldview and writing His extensive travels across Europe particularly to England inspired Howells to reflect on broader themes of culture and identity while his background in literary realism allowed him to present a nuanced portrayal of life in England Through this work he invites readers to ponder the connections between place and personal experience I highly recommend *Certain Delightful English Towns* to anyone seeking an engaging travelogue that celebrates the charm of English towns while offering profound reflections on the relationship between environment and human experience Howells keen observations and graceful prose will transport readers to the heart of England making it a delightful read for both armchair travelers and literary enthusiasts

The Transformation of a Peasant Economy John Goodacre, 2017-07-28 The market town has been dismissed as an incompletely formed urban community in fact it was the primary urban unit in pre industrial England This study places the market town at the centre of the transformation of early modern England both catalysing changes in agriculture and experiencing in a distinctive fashion the urbanisation that was to occur a century or more later in the great industrial and commercial centres of Europe In the two centuries after 1500 the rural economy changed from a pattern of subsistence to improved farming The first great enclosures took place during this time but the economic base for this revolution was the growth of local trading centred on markets and local communications networks This redistribution of produce provisions and information was the motor of specialisation and hence modernisation The strength of this study is in its detailed research into this process in one representative locality and the sensitive extrapolation of local experiences on to the national and European scale By integrating in one book the themes of rural transformation and early urbanisation this account of one typical midland market town demonstrates the continuing vigour of the discipline of local history
