

The textbook provides a comprehensive overview of the essential issues in effective entrepreneurial management. It first introduces readers to the fundamentals of entrepreneurial management, the nature of entrepreneurial strategies and business planning, before exploring the specific topics of creativity and innovation, risk management, entrepreneurial marketing and negotiations as well as financing. The authors then move to contemporary topics such as entrepreneurial growth strategies, e-commerce challenges, ethical and socially responsible entrepreneurial management, franchising, and managing entrepreneurial family ventures. Each chapter provides a case study and several practice-based examples to help explain the concepts.

By providing a truly international approach this text offers ample theoretical and empirical insights into entrepreneurship and small business management. It is a valuable and up-to-date resource for teachers and students of entrepreneurship.
