American Television examines evil twin depictions in over fifty years of television comparing male twins to female twins and male writer depictions to female writer depictions Kristi Rowan Humphreys evaluates The Patty Duke Show Bewitched Gilligan's Island I Dream of Jeannie and The Brady Bunch among other television programs that use the twinning trope to explore themes of feminism and identity Employing traits identified by Betty Friedan in *The Feminine Mystique* as belonging to the evil side of her schizophrenic split theory Humphreys analyzes the ways in which these alter ego characters embody the desire for a separate self and independence through loose inhibitions career interests political interests intellectual prowess and assertiveness This book then compares female written twin episodes to male written twin episodes finding that when evil twin episodes are written by women writers the twins are presented less as oppositional binaries and more as compatible often symbiotic binaries Thus the women writers of these shows offer a compelling response to Friedan's text one that acknowledges and underscores the many complexities of women the image of which cannot in reality be so easily split into two oppositional binaries Humphreys then connects 1960s depictions to more current evil twin examples including those in Friends Knight Rider and Sabrina the Teenage Witch The Official Dick Van Dyke Show Book Vince Waldron, 2001 The first and only complete fully authorized biography of one of TV's most beloved sitcoms including the first complete viewer's guide to all 158 episodes as well as special behind the scenes trivia and a full chapter concordance 50 black and white photos

Hypertext semiotics in the commercialized Internet Moritz Neumüller, 2003-04-15 Inhaltsangabe Abstract Building on approaches that have succeeded in applying semiotic principles and methodology to computer science such as computer semiotics computational semiotics and semiotic interface engineering this dissertation establishes a systematic account for those researchers who are ready to look at hypertext from a semiotic point of view Rather than a new hypertext model this work presents the prolegomena of a theory of hypertext semiotics interlacing the existing models with the findings of semiotic research on all levels of the textual aural visual tactile and olfactory channels A short history of hypertext from its

prehistory to today's state of the art systems and the current developments in the commercialized World Wide Web creates the context for this approach which should be seen as a fortification of the connection between the media semiotic approach and computer semiotics. While computer semioticians claim that the computer is a semiotic machine and Artificial Intelligence scientists underline the importance of semiotics for the construction of the next hypertext generation, this paper makes use of a much broader methodological basis. These findings are placed in the context of the commercialization of the Internet. Besides identifying the main challenges for eCommerce from the viewpoint of hypertext semiotics, the author concentrates on information goods and the current limitations for a new economy such as restrictive intellectual property and copyright laws. A semiotic analysis of iMarketing techniques and the Toywar complete the dissertation. Zusammenfassung: Diese Dissertation legt einen systematischen Ansatz für all jene Forscher dar, die bereit sind, Hypertext aus einer semiotischen Perspektive zu betrachten. Durch die Verknüpfung existierender Hypertext Modelle mit den Resultaten aus der Semiotik auf allen Sinnesebenen der textuellen, auditiven, visuellen, taktilen und geruchlichen Wahrnehmung skizziert der Autor Prolegomena einer Hypertext Semiotik Theorie, anstatt ein völlig neues Hypertext Modell zu präsentieren. Eine Einführung in die Geschichte der Hypertexte von ihrer Vorgeschichte bis zum heutigen Entwicklungsstand und den gegenwärtigen Entwicklungen im kommerzialisierten World Wide Web bilden den Rahmen für diesen Ansatz, welcher als Fundierung des Brückenschlages zwischen Mediensemiotik und Computer Semiotik angesehen werden darf. Während Computer Semiotiker wissen, dass der Computer

The Generic Closet Alfred L. Martin, 2021-04-06 Even after a rise in gay and Black representation and production on TV in the 1990s, the sitcom became a generic closet restricting Black gay characters with narrative tropes. Drawing from 20 interviews with credited episode writers, key show runners, and Black gay men, *The Generic Closet* situates Black cast sitcoms as a unique genre that uses Black gay characters in service of the series' heterosexual main cast. Alfred L. Martin Jr. argues that the Black community is considered to be anti-gay due to misrepresentation by shows that aired during the family viewing hour and that were written for the imagined traditional Black family. Martin considers audience reception, industrial production practices, and authorship to unpack the claim that Black gay characters are written into Black cast sitcoms such as *Moesha*, *Good News*, and *Let's Stay Together* in order to closet Black gayness. By exploring how systems of power produce ideologies about Black gayness, *The Generic Closet* deconstructs the concept of a monolithic Black audience and investigates whether this generic closet still exists.
