

The Expert Consumer

A CONSUMER'S GUIDE TO THE EXPERT CONSUMER

BY JAMES H. HANCOCK

The expert consumer is a new breed of consumer who is not only more knowledgeable about the products he buys, but also more discerning in his choices. He is the consumer who has spent time and money on education, and who is now using that knowledge to make better choices. He is the consumer who is not easily swayed by advertising, and who is more likely to seek out independent sources of information. He is the consumer who is more likely to read product labels, and who is more likely to ask questions of salespeople. He is the consumer who is more likely to return a product if it is not what he expected. He is the consumer who is more likely to be satisfied with his purchase. He is the expert consumer.

The Expert Consumer Kenneth Eisenberger, 1977-01-01 Consumers' Guide, 1933 **Consumers' Guide** United States. Agricultural Adjustment Administration, 1939 The Expert Consumer Alain Chatriot, Marie-Emmanuelle Chessel, 2017-09-29 Recent work has focused on the politics of consumption and its manifestation in a number of situations This volume extends these debates providing a tighter focus and contributing to a noticeable gap in the field that numerous scholars are beginning to turn towards that is organizations of consumers themselves who have chosen to speak for all consumers and similar such bodies of experts which act on behalf of consumers The volume is fortunate in drawing upon a number of scholars who are about to publish major works on the subject but who are happy to provide summary versions of their work for the volume The book pays particular attention to specific moments in consumer mobilization and expertise capturing the range of types of expert consumers across the twentieth century from ethical consumer groups at the beginning to intellectuals housewives economists and public officials It addresses questions on the nature of consumer organizing which bodies can speak for consumers whether one consumer voice can ever be identified and the relationship between consumption and citizenship Overview pieces demonstrate the larger narratives involved in the study of the expert consumer whilst more comparative essays set out the nature of transatlantic exchanges Other contributions point to the similarities across seemingly different consumption regimes while case studies of specific organisations and key historical moments draw out the particularities of consumer expertise
