Kirschenbaum, 2024-02-22 In 1935 two Soviet satirists Ilia Ilf and Evgeny Petrov undertook a 10 000 mile American road trip from New York to Hollywood and back accompanied only by their guide and chauffeur a gregarious Russian Jewish immigrant and his American born Russian speaking wife They immortalized their journey in a popular travelogue that condemned American inequality and racism even as it marvelled at American modernity and efficiency Lisa Kirschenbaum reconstructs the epic journey of the two Soviet funnymen and their encounters with a vast cast of characters ranging from famous authors artists poets and filmmakers to unemployed hitchhikers and revolutionaries Using the authors notes US and Russian archives and even FBI files she reveals the role of ordinary individuals in shaping foreign relations as Ilf Petrov and the immigrants communists and fellow travelers who served as their hosts guides and translators became creative actors in cultural exchange between the two countries **Kuleshov on Film** Lev Kuleshov, 2024-06-12 Lev Kuleshov 1899 1970 was the first aesthetic theorist of the cinema An outstanding figure in the montage school he was a key influence on Eisenstein and Pudovkin Kuleshov was the first to see clearly that montage the assemblage and alternation of shots was the very essence and structure of cinematic expression often overriding the significance of the content of the shots themselves Deriving his insights from close study of American films particularly D W Griffith's Kuleshov used his experience in prerevolutionary Russian films and his wartime efforts in Soviet documentaries to conduct experiments in film acting and montage He developed an editing method later referred to as the Kuleshov effect that juxtaposed shots to evoke new meanings from the combinations In one experiment he intercut identical shots of an actor's neutral face with shots of a bowl of soup a child in a coffin and a sunny landscape to evoke different emotional responses from the audience Kuleshov also synthesized a nonexistent woman from close ups of different parts of several women and

created artificial landscapes by intercutting shots of locations separated by great distances Kuleshov taught at the Soviet film school and was a well known director of features and Kuleshov on Film contains essays on both the theoretical and practical sides of filmmaking Influenced by Futurism Russian Formalism and structural linguistics Kuleshov's analysis can now be seen as semiotic presaging studies of film as a system of signs As a Marxist and structuralist Kuleshov examined form and content with a materialist approach The translator's extensive introduction discusses Kuleshov's use of signs typage and other structuralist concepts and places him in the development of semiotic thought It also provides intriguing biographical detail on Kuleshov's conflicts with advocates of socialist realism who attempted to stamp out the artistic and theoretical innovations of the early revolutionary years and establishes Kuleshov's position as one of the great figures in the evolution of film Kuleshov on Film is essential reading for everyone seriously concerned with the cinema This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 **Film Comedy** Geoff King, 2002 Comedy is one of the most popular forms in film But what exactly is film comedy and what might be the basis of its widespread appeal This book takes a multi perspective approach to answering these questions **The Film Factory** Ian Christie, Richard Taylor, 2012-10-12 The Film Factory provides a comprehensive documentary history of Russian and Soviet cinema It provokes a major reassessment of conventional Western understanding of Soviet cinema Based on extensive research and in original translation the documents selected illustrate both the aesthetic and political development of Russian and Soviet cinema from its beginnings as a fairground novelty in 1896 to its emergence as a mass medium of entertainment and propaganda on the eve of World War II *Movies for the Masses* Denise J. Youngblood, 1992 This book is a pathbreaking study of the unknown Soviet cinema the popular movies which were central to Soviet film production in the 1920s Professor Youngblood discusses acting genres the cinema stars audiences and the influences of foreign films and examines three leading filmmakers Iakov Protazanov Boris Barnet and Fridikh Ermler She also looks at the governmental and industrial circumstances underlying filmmaking practices of the era and provides an invaluable survey of the contemporary debates concerning official policy on entertainment cinema Professor Youngblood demonstrates that the film culture of the 1920s was predominantly and aggressively bourgeois and enjoyed patronage that cut across class lines and political allegiance Thus she argues the extent to which Western and pre revolutionary influences bourgeois directors and middle class tastes dominated the film world is as important as the tradition of revolutionary utopianism in understanding the transformation of Soviet culture in the Stalin revolution **'Russian Americans' in Soviet Film** Marina L. Levitina, 2015-09-29 Certain aspects of American popular culture had a formative influence on early Soviet identity and aspirations Traditionally Soviet Russia and the United States between the 1920s and the 1940s are regarded as polar

opposites on nearly every front Yet American films and translated adventure fiction were warmly received in 1920s Russia and partly shaped ideals of the New Soviet Person into the 1940s Cinema was crucial in propagating this new social hero While open admiration of American film stars and heroes of literary fiction in the Soviet press was restricted from the late 1920s onwards many positive heroes of Soviet Socialist Realist films in the 1930s and 1940s were partially a product of Soviet Americanism of the previous decade Some of the new Soviet heroes in films of the 1930s and 1940s possessed traits noticeably evocative of the previously popular American film stars such as Douglas Fairbanks Pearl White and Mary Pickford Others cinematically represented the contemporary trope of the Russian American an ideal worker exemplifying the Stalinist marriage of Russian revolutionary sweep with American efficiency Russian Americans in Soviet Film analyses the content reception and underlying influences of over 60 Soviet and American films the book explores new territory in Soviet cinema and Soviet American cultural relations It presents groundbreaking archival research encompassing Soviet audience surveys Soviet film journals and reviews memoirs and articles by Soviet filmmakers and scripts among other sources The book reveals that values of optimism technological skill efficiency and self reliance perceived as quintessentially American were incorporated into new Soviet ideals through channels of cross cultural dissemination resulting in cultural synthesis

Directory of World Cinema: Russia 2 Birgit Beumers, 2015-02-20 Soviet and Russian filmmakers have traditionally had uneasy relationships to the concept of genre This volume rewrites that history by spotlighting some genres not commonly associated with cinema in the region including Cold War spy movies and science fiction films blockbusters and horror films remakes and adventure films and chernukha films and serials Introductory essays establish key aspects of these genres and directors biographies provide the background for the key players Building on the work of its predecessor which explored cinema from the time of the tsars to the Putin era this book will be warmly received by the serious film scholar as well as all those who love Russian cinema Directory of World Cinema Russia 2 is an essential companion to the filmic legacy of one of the world's most storied countries

Western Crime Fiction Goes East Boris Dralyuk, 2012-09-06 This book examines the staggering popularity of early twentieth century Russian detective serials Traditionally maligned as Pinkertonovshchina these appropriations of American and British detective stories featuring Nat Pinkerton Nick Carter Sherlock Holmes Ethel King and scores of other sleuths swept the Russian reading market in successive waves between 1907 and 1917 and famously experienced a red resurgence in the 1920s under the aegis of Nikolai Bukharin The book presents the first holistic view of Pinkertonovshchina as a phenomenon and produces a working model of cross cultural appropriation and reception The red Pinkerton emerges as a vital missing link between pre and post Revolutionary popular literature and marks the fitful start of a decades long negotiation between the regime the author and the reading masses

Hollywood - a Challenge for the Soviet Cinema Franz, Norbert P., 2020 This book features four essays that illuminate the relationship between American and Soviet film cultures in the 20th century The first essay emphasizes the structural similarities and dissimilarities of the two

cultures Both wanted to reach the masses However the goal in Hollywood was to entertain and educate a little and in Moscow to educate and entertain a little Some films in the Soviet Union as well as in the United States were conceived as clear competition to one another as the second essay demonstrates and the ideological opponent was not shown from its most advantageous side The third essay shows how in the 1980s the different film cultures made it difficult for the Soviet director Andrei Konchalovsky to establish himself in the US but nevertheless allowed him to succeed In the 1960s a genre became popular that tells the story of the Russian Civil War using stylistic features of the Western The Eastern Its rise and decline are analyzed in the fourth essay **Wonderlands of the Avant-Garde** Julia Vaingurt,2013-05-31 In

postrevolutionary Russia as the Soviet government was initiating a program of rapid industrialization avant garde artists declared their intent to serve the nascent state and to transform life in accordance with their aesthetic designs In spite of their professed utilitarianism however most avant gardists created works that can hardly be regarded as practical instruments of societal transformation Exploring this paradox Vaingurt claims that the artists investment of technology with aesthetics prevented their creations from being fully conscripted into the arsenal of political hegemony The purposes of avant garde technologies she contends are contemplative rather than constructive Looking at Meyerhold s theater Tatlin s and Khlebnikov s architectural designs Mayakovsky s writings and other works from the period Vaingurt offers an innovative reading of an exceptionally complex moment in the formation of Soviet culture **Nonprofessional Film Performance**

Miguel Gaggiotti,2023-06-27 This book offers a critical account of film performances by nonprofessional actors Nonprofessional actors actors without previous acting training or experience have performed in films since the days of the Lumi re brothers Generally associated with currents such as Early Soviet Cinema Italian Neorealism and New Argentine Cinema nonprofessional actors also feature prominently in the works of celebrated directors including Pier Paolo Pasolini Robert Bresson and Joanna Hogg Since the turn of the century and the rise of digital filmmaking the performances of nonprofessional actors have remained a staple of independent cinemas from all over the world including films associated with the loose trend often referred to as Slow Cinema Despite their enduring presence in acclaimed and widely discussed films nonprofessional actors have received scant scholarly attention This book proposes to analyse exemplary nonprofessional performances from across the history of cinema as a means of illuminating their significance and celebrating the performers contributions to the films *The Politics and Sociology of Silent Comedy Films* Richard W. Waterman,2025-05-19 Comedies were among the first films ever made and comedy played a critical and often overlooked role in the early development of cinema This original book holistically examines the political and sociological dimensions of silent comedy films and the motion picture industry at the turn of the 20th century Richard Waterman takes a unique social science approach to the cinematic ecosystem and its development during this era studying the wider context the interconnected social political economic and technological movements and forces that shaped film production distribution and consumption in this pivotal

period in the history of film and culture These include moral standards and censorship class racism antisemitism sexism and the global film market Additionally the book analyzes specific films in depth to mine their themes social context and impact Bridging the humanities and social sciences this is a distinctive and valuable contribution to the study of early cinema
