The Middle English Mystics Wolfgang Riehle, 2019-06-26 Originally published as an English translation in 1981 The Middle English Mystics is a crucial contribution to the study of the literature of English mysticism This book surveys and analyses the language of metaphor in the writings of such mystics as Richard Rolle Walter Hilton Julian of Norwich and in such anonymous works as The Cloud of Unknowing and the Ancrene Wisse The main emphasis of this comparative and stylistic study is not theological but rather the means by which theological concepts are communicated through language The book sets the English mystics in perspective by establishing their place in the European mystical movement of the Middle Ages It shows how intricate the relationship between English and continental mysticism really is The book suggests that there is clear links between English and German female mysticism yet the mysticism is in the main due not so much to specific influences as to the common background of Christian theology and mysticism

The Mystery of Soul Ruby Hart, AI, 2025-02-14 The Mystery of Soul explores humanity's enduring quest to understand the soul consciousness and the afterlife across diverse religious and philosophical traditions It tackles questions such as What happens to us when we die by examining historical contexts from ancient animistic beliefs to sophisticated theological systems The book uniquely presents a comparative analysis identifying both common threads and divergences among traditions rather than advocating for a single viewpoint The book begins by defining core concepts then explores them within specific religious traditions like Hinduism Christianity and Islam as well as philosophical schools of thought including Platonism and existentialism Each chapter meticulously analyzes primary texts and scholarly interpretations Did you know that some traditions view the soul as an immortal essence while others see it as a more transient aspect of being Also the book addresses the tension between scientific materialism and spiritual beliefs Finally the book examines the implications of differing views on ethics morality and how individuals live their lives leading to a culmination of the argument where the book identifies common threads and unresolved questions across traditions

Andrew Marvell's Liminal Lyrics Joan Faust, 2012-10-12 Andrew Marvell's Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth-century British metaphysical poet Andrew Marvell The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep Jacques Lacan and other observers of the in-between aspects of experience The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi-media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit This study acknowledges that the poems discussed and by

implication the entire corpus of Marvell's work and the life that produced it derive from a refusal to draw a definite divide. In analyzing a small selection of Marvell's life and lyrics as explorations of various realms of liminality in word and image, readers can see a passageway to the poet's works that never really reaches a destination; instead, the unlimited possibilities of the journey remain. Thus, the in-between aspects of the poet and his poetry actually define his technique as well as his brilliance.

Soul AiR - Atman in Ravi, 2020-06-03.

What is the Soul? Do you have a Soul? Will your Soul go to heaven after you die? Haven't you heard such questions about the Soul? But what is the truth that remains unknown to humanity? The myth of the Soul is one of the greatest mysteries in the world, and one that most people have not been able to unravel. We live and die thinking that we have a Soul. Most of us believe that our Soul will be reborn. We also think that there are good Souls and bad Souls, but we have not realized the truth about the Soul. When a person dies, we say, "May his Soul rest in peace" or "Let us pray for the departed Soul." Little do we realize that we are completely ignorant about the truth of the Soul. This book will help us overcome the mystery of the Soul and help us realize that we don't have a Soul; we are the Soul. This realization will liberate us from all the misery and suffering of the world.

The Light of the Soul Alice Bailey, Patanjali, 2012-05-14. This volume is an original paraphrase with commentary of the Yoga Sutras of Patanjali. The Yoga Sutras are of ancient origin, first reduced to writing by Patanjali, who is considered the founder of the Raja Yoga School. Control of the mind and its illumination by the soul are brought about through the practice of Raja Yoga. The Sutras have a power and a timelessness about them which demonstrate the accuracy with which they pinpoint the basic truths of human evolution, from subservience to personality, clamours to the serene freedom of the soul. Most human problems today originate in selfish desire, the prostitution of the feeling nature to self-centred action. This is also brought out clearly in the teaching of the Lord Buddha, the treading of the Noble Eight Fold path providing the only way out of the maze: Right Values, Right Speech, Right Mode of Living, Right Thinking, Right Expression, Right Conduct, Right Effort, Right Rapture, or True Happiness. These are attributes of the soul. Patanjali explores exhaustively the means, the techniques, and the mental posture which create the connecting thread between the form-centred personality and these stages towards spiritual achievement and soul fusion.
