Face in the Window Cheryl Knoll, 2021-11-12 The year 2020 was not good for our country I feel there were a lot of people just like me We were faces in our windows looking out wondering what in the world is going on We have some evil giants trying to stomp us down and they are trying to turn our country into something we cannot accept God is love but He is not just soft mushy quiet love God has a temper and He has displayed it in His Word The scolding poems the face in the window poems came to me in a basically complete form To me they were a gift I

barely changed a word or corrected any of them It is okay for us to use righteous indignation to fight what is wrong We are not doormats for someone to wipe their feet on If someone is trying to walk all over you pull yourself out from underneath them and knock them on their backsides God uses tough love for correction and teaching God will show His wrath when He is angered He displays His righteous indignation He offers the greatest love imaginable He offers mercy and grace Don t forget He has a sense of humor God has a wide range of emotions and so do we God loves America God s love is alive God loves to hear from us and He is saying Where are you I love to write poems about God s love for us and my love for Him Now it s 2021 Hmm something is going to happen The Face Beyond the Window Peter Scott,2023-09-15 On a winter s evening in 2041 14 year old Tom arrives at Albans School tucked away in an isolated Blue Mountains location west of Sydney a special school for children with disabilities Tom doesn t speak can t hear and has no word recognition Watching Tom s arrival from the school library is Abbey a book that no one has ever read Abbey s desperate need to be read drives her to find a way to communicate with Tom and unleashes a terrifying and thrilling adventure They encounter a global conspiracy using artificial intelligence to control the minds of the younger generation the inheritors Together they forge an exceptional team to fight back from the very place the global conspirators plan to destroy imagination As they confront increasingly perilous challenges they come to understand why they are like they are and the meaning of partnership Books become the guiding influence as Tom and Abbey light the flame of self belief to rise above their limitations To fight for a new generation s right to freely choose the society in which they want to live and who they want to be **The Face at the Window. Patent Office,1909 *Photograph the Face* ,2014-06-10 The most essential factor in creating a successful salable portrait is properly lighting the face But every face is different and each face type requires a different style of lighting It is imperative that the photographer realizes this From the subjects complexion and facial size to their clothing hair color and setting there are many aspects to consider when lighting a client The photographer must also take into consideration what type of product the client wants senior portrait bridal portrait glamour or professional Each one of these requires something different Properly and efficiently addressing all of these factors will set you and your business apart from the competition In this book Smith focuses on teaching photographers how to conceptualize and produce

portraits that will please the client He emphasizes that he is not creating his own artistic vision but that he is crafting what the client wants That is not to say the results aren't artful and creative Both of those things are very important as Smith shows but the main goal as a successful professional photographer is to create portraits that the subject wants to buy Smith advises photographers to be aware of a subject's self image when creating the portrait being sure not to light them in a manner that is unflattering or distorted Success in creating salable portraits relies as much on understanding people and the way our self image functions as it does understanding the proper techniques of lighting First Smith discusses the differences between face types and what to be aware of when setting up the lighting for each Proper metering and placement of light source are essential to controlling your highlights your shadowing and the transition area in between Establishing a system for modifying your lighting setup for each subject is emphasized The concept of Camera Sight or visualizing the finished photo ahead of time to look for potential problem areas is very important As Smith admits this skill comes with experience Where he once had to take many test shots to pick out these issues he is now able to see them before he shoots a single frame This is a skill that develops over time with training and practice The author then explains the differences between shooting in a studio and shooting on location both indoors and outdoors Different equipment is required for each scenario but the equipment used for shooting outdoors can even differ depending on the time of day While the most ideal natural light occurs just after sunrise or just before sunset most customers do not want to have their portraits taken at 5am or late in the day So the photographer needs to be prepared to shoot in the harsh midday sun In addition to lighting the face the photographer must find usable light to illuminate the background properly Smith details the lighting system he uses for outdoor portraiture and presents it in the context of his shooting experiences While studio shoots provide greater levels of comfort and consistency compared to a location shoot there are still many things required to get that perfect shot Properly applying fill accent light and shadowing are just as important in the studio as they are on location Understanding the concepts of traditional lighting allows the photographer to consistently create studio portraits that will please any customer The most important part of the face to light properly is the eyes Smith explains in detail what factors a successful photographer must consider to get the final portrait every client wants Whether it is a difference in the size of the client's eyes or ears asymmetrical lips or a crooked nose there are ways to light these to correct the differences Using artistry and creative vision to adapt from the comfort of studio shoots to the complicated and diverse demands of location shoots Smith provides the reader with the tools to capture what the client wants every time
