and the State in Contemporary Crime Fiction Andrew Pepper, David Schmid, 2016-09-23 Why has crime fiction become a global genre How do writers use crime fiction to reflect upon the changing nature of crime and policing in our contemporary world This book argues that the globalization of crime fiction should not be celebrated uncritically Instead it looks at the new forms and techniques writers are using to examine the crimes and policing practices that define a rapidly changing world In doing so this collection of essays examines how the relationship between global crime capitalism and policing produces new configurations of violence in crime fiction and asks whether the genre can find ways of analyzing and even opposing such violence as part of its necessarily limited search for justice both within and beyond the state The Midnight House Alex

Kugler, 2019-06-04 According to narratives in the Bible the threats of the people's end come from various sources but the most significant threat comes as learned from the Pentateuch from God himself What is the theological meaning of this tradition In what circumstances did it evolve How did it stand alongside other theological and socio-political concepts known to the ancient authors and their diverse audience The book employs a diachronic method that explores the stages of the tradition's formation and development revealing the authors' exegetical purposes and ploys and tracing the historical realities of their time The book proposes that the motif of the threat of destruction existed in various forms prior to the creation of the stories recorded in the final text of the Pentateuch The inclusion of the motif within specific literary contexts attenuated the

concept of destruction by presenting it as a phenomenon of specific moments in the past Nevertheless the threat was resurrected repeatedly by various authors for use as a precedent or a justification for present affliction
