World Yearbook of Education 2020 Julie Allan, Valerie Harwood, Clara Rübner Jørgensen, 2019-09-30 A timely contribution to the debate on educational governance and equality, the World Yearbook of Education 2020 documents the significant changes that have occurred in the last 20 years, reflecting a widespread shift from government to governance. Considering school context as well as specific school responses around the emergence of particular forms of governance, this book presents and contextualises a clear historical account of governance and accountability within schooling. Organised into three sections covering Changing contexts of school governance, stakeholders and responsabilisation, and radical governance, carefully chosen contributors provide global insights from around the world. They consider educational outcomes and closing the inequality gap and they document radical forms of governance at local level which have sought to create more equitable governance, intelligent accountability and greater involvement of key stakeholders such as students. Providing a series of provocations and reminders of the possibilities that remain open to us, the World Yearbook of Education 2020 will be of interest to academics, professionals and policymakers in education and school governance and any scholars who engage in historical studies of education and debates about educational governance and equality

Partnership and Change Leslie Nai-Kwai Lo, Allan Walker, 2004 There has been a dearth of books covering themes and issues related to university-school partnerships and school development from an international perspective, particularly providing examples on university-school partnerships in the Asia-Pacific region. The book is broadly divided into two parts. Part One focuses on university-school partnership while Part Two highlights changes in school development. The nature of different partnerships as well as the experiences of and research on school development in connection with individual strategies and organizational strategies are described. The contributors are all renowned scholars, school reformers and experienced practitioners from the United States, Norway, Sweden, the United Kingdom, Australia and Hong Kong. Together they provide an international perspective on the issues related to school partnerships and development

Alternative Schools in British Columbia 1960-1975 Harley

Rothstein,2024-07-18 The tumultuous 1960s was an era of the counterculture political activism and resistance to authority. Conventions and values were challenged and new approaches to education captured the imaginations of parents, teachers, and students. Reacting against the one size fits all nature of the traditional public school system, groups of parents and teachers in Canada and the United States established alternative schools or free schools based on the Progressive child centred philosophy of John Dewey and the Romantic ideas of Summerhill founder A S Neill. In *Alternative Schools in British Columbia* 1960-1975, Harley Rothstein tells the story of ten such schools that arose in the province of British Columbia. Drawing on 350 self-conducted interviews, newspaper articles, personal journals, and school records, Dr Rothstein invites readers to experience the early days of alternative schools. He describes the educational philosophy, curriculum, and governance of these institutions and introduces readers to the people who were at the heart of alternative communities. Tracing the evolution, successes, and challenges of each school, he presents the day to day experience and brings to life the ethos of the 1960s era. Historians, educators, and all curious readers will become immersed in this engaging account of a group of educational pioneers on Canada's west coast and how they inspired the liberalization of the public school system that would come in the 1970s.

Alternative Education and Community Engagement O. Clennon,2014-04-18 This book explores the ethical and philosophical issues behind the provision of market led alternative education. The volume examines the models of Free Studio, Supplementary, and Co-operative school provisions, asking whether a market based approach to delivering higher standards of education actually works.

Yearbook of Experts, Authorities and Spoke Mitchell P. Davis,2006-02 The purpose of the Yearbook of Experts is to provide bona fide interview sources to working members of the news media. Page 2
