Resistance to Science in Contemporary American Poetry Bryan Walpert, 2011-09-26 This book examines types of resistance in contemporary poetry to the authority of scientific knowledge tracing the source of these resistances to both their literary precedents and the scientific zeitgeists that helped to produce them Walpert argues that contemporary poetry offers a palimpsest of resistance using as case studies the poets Alison Hawthorne Deming Pattiann Rogers Albert Goldbarth and Joan Retallack to trace the recapitulation of romantic arguments inherited from Keats Shelly and Coleridge which in turn were produced in part in response to Newtonian physics modernist arguments inherited from Eliot and Pound arguments influenced in part by relativity and quantum theory and postmodernist arguments arguments informed by post structuralist theory e g Barthes Derrida Foucault with affinities to

arguments for the limitations of science in the philosophy sociology and rhetoric of science Some of these poems reveal the discursive ideologies of scientific language reveal in other words the performativity of scientific language In doing so these poems themselves can also be read as performative acts and therefore as forms of intervention rather than representation Reading Retallack alongside science studies scholar Karen Barad the book concludes by proposing that viewing knowledge as a form of intervention rather than representation offers a bridge between contemporary poetry and science

understand what it means to write from any particular place she charts a course in creative nonfiction prose From Cleveland to Yalta Wisconsin to Latvia England to the Arizona desert or the Philippines she writes as a way of knowing the world Along the way we become acquainted with the author herself whose parents were string quartet violinists They didn't go to church and caught up in a rehearsal sometimes forgot to put dinner on the table but there was always music in the house or the tenement flat Cherry recalls warmly the stories of her childhood I don't know whether or not there's a God her mother would say but I know there was a Beethoven and that's good enough for me And always there was writing As young writers do Cherry earned her living at a variety of jobs creating fictional histories of overseas orphans for their U S sponsors editing and writing religious textbooks a stint as a visiting professor in southwest Minnesota where in order to live in the dormitory the only housing practicable for someone without a car she had to enroll simultaneously as a student she took astronomy And in the evenings the mornings and other stolen moments she wrote as she does now to create beauty from a specific kind of knowledge the knowledge we acquire by creating beauty Cherry explores what it means to be a Southern writer and a woman writer and discusses the changing face of the profession of writing To be a writer in America is to be marginal she notes adding that perhaps the best place for a serious writer to reside is on the edge outside looking in You seek to know what it means to be living where you are and that search is for a writer a searching out of language That quest is for a writer a questioning For a writer beauty and knowledge begin in the same place With its brilliant insights and beautiful language Writing the World is an eloquent meditation on what it means to be a writer Like Annie Dillard's The Writing Life and Eudora Welty's One Writer's Beginnings Cherry's Writing the World will be a lasting inspiration for anyone who has ever dreamed of being a writer
