Recreating Ancient History: Episodes from the Greek and Roman Past in the Arts and Literature of the Early Modern Period ,2021-10-25 This volume deals with the question how did scholars and artists in the early modern period represent or rather recreate Greek and Roman history It appears that ancient history was not just studied so as to reconstruct the past it was used as a way of understanding and legitimizing the present Sixteen authors from various disciplines have studied the works of scholars and artists in different media so as to reveal how they used ancient history as a rich field of raw material that could be used recycled and adapted to new needs and purposes The studies in this volume are important for historians of the early modern period from all disciplines and for all those interested in the reception of classical antiquity Contributors include Maria Berbera Jan Bloemendal Anton Boschloo Jeanine De Landtsheer Jan L de Jong Karl Enenkel Marc Laureys Olga van Marion Alicia Montoya Mark Morford Bettina Noak Sjaak Onderdelinden Paul Smith Wilfried Stroh Francesca Terrenato Arnoud Visser and Bart Westerweel This publication has also been published in paperback please click here for details

The European Renaissance 1400-1600 Robin Kirkpatrick,2014-10-17 With Italy at its centre but encompassing the whole of Renaissance Europe this evocative history challenges some of the popularly held views on the Renaissance period In particular whilst always acknowledging the brilliance and exuberance of Renaissance culture Robin Kirkpatrick draws equal attention to the strangeness and often unresolved tensions that lay beneath the surface of that culture Insisting on a European rather than purely Italian viewpoint he embraces Renaissance thinking and culture in all its diversity from Northern thinkers such as Cusanus Luther and Calvin to the painting of Van der Weyden and El Greco and the music of the Flemish musicians Josquin des Prez and Orlando Lassus Special attention is also paid to the unique contribution made by Margueritte of Navarre to the development of humanist culture The book concludes with a study of Shakespeare in which his plays are viewed as a searching critique of some of the main principles of Renaissance culture *The Taking and Displaying of Human Body Parts as Trophies by Amerindians* Richard J. Chacon,David H. Dye,2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence

This book fills the gap in literature on this subject *Catalogue of the Barton Collection, Boston Public Library* Boston Public Library. Barton Collection, 1888 The Works of Michael de Montaigne Michel de Montaigne, 1860 The Publishers Weekly, 1911 **Book Reviews**, 1895 **Tacitus' Wonders** James McNamara, Victoria Emma Pagán, 2022-02-10 This volume approaches the broad topic of wonder in the works of Tacitus encompassing paradox the marvellous and the admirable Recent scholarship on these themes in Roman literature has tended to focus on poetic genres with comparatively little attention paid to historiography Tacitus whose own judgments on what is worthy of note have often differed in interesting ways from the preoccupations of his readers is a fascinating focal point for this complementary perspective Scholarship on Tacitus has to date remained largely marked by a divide between the search for veracity as validated by modern historiographical standards and literary approaches and as a result wonders have either been ignored as unfit for an account of history or have been deprived of their force by being interpreted as valid only within the text While the modern ideal of historiographical objectivity tends to result in striving for consistent heuristic and methodological frameworks works as varied as Tacitus Histories Annals and opera minora can hardly be prefaced with a statement of methodology broad enough to escape misrepresenting their diversity In our age of specialization a streamlined methodological framework is a virtue but it should not be assumed that Tacitus had similar priorities and indeed the Histories and Annals deserve to be approached with openness towards the variety of perspectives that a tradition as rich as Latin historiographical prose can include within its scope This collection proposes ways to reconcile the divide between history and historiography by exploring contestable moments in the text that challenge readers to judge and interpret for themselves with individual chapters drawing on a range of interpretive approaches that mirror the wealth of authorial and reader specific responses in play Catalogue of the Christie Collection University of Manchester. Library (1904-1972). Christie Collection, Charles William Edward Leigh, 1915 **Montaigne and Brief Narrative Form** D. Losse, 2013-06-11 The first book length study to trace the origins of the essay to the conte Montaigne and Brief Narrative Form puts the reader in touch with how unstable times and exceptional artistic insights transform one genre to create a new artistic form

Montaigne and the Lives of the Philosophers Alison Calhoun, 2014-12-18 In his Essais Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality In fact he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so Understanding Montaigne's philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves The focus of Montaigne and the Lives of the Philosophers Life Writing and Transversality in the Essais is how Montaigne assembled the lives of the philosophers on the pages of his Essais in order to grapple with two fundamental aims of his project first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self Both of these objectives grew out of a dialogue with the structure and content in the

life writing of Plutarch and Diogenes Laertius authors whose books were bestsellers during the essayist's lifetime **A**

History of World Societies, Volume 2: Since 1450 John P. McKay, Bennett D. Hill, John Buckler, Roger B. Beck, Clare Haru Crowston, Patricia Buckley Ebrey, Merry E. Wiesner-Hanks, 2011-10-05 A History of World Societies introduces students to the global past through social history and the stories and voices of the people who lived it Now published by Bedford St Martin's and informed by the latest scholarship the book has been thoroughly revised with students in mind to meet the needs of the evolving course Proven to work in the classroom the book's regional and comparative approach helps students understand the connections of global history while providing a manageable organization With more global connections and comparisons more documents special features and activities that teach historical analysis and an entirely new look the ninth edition is the most teachable and accessible edition yet Test drive a chapter today Find out how **Humanities** ,1986 **Shaping Tradition** Sandra F. Tropp, 1992 The Complete Works of Michael de Montaigne Michel de Montaigne, William Hazlitt, 1842 *Cervantes's Novel of Modern Times* David Quint, 2018-06-05 This book offers a radically new reading of Don Quixote understanding it as a whole much greater than the sum of its famous parts David Quint discovers a unified narrative and deliberate thematic design in a novel long taught as the very definition of the picaresque and as a rambling succession of individual episodes Quint shows how repeated motifs and verbal details link the episodes often in surprising and heretofore unnoticed ways Don Quixote emerges as a work that charts and reflects upon the historical transition from feudalism to the modern times of a moneyed commercial society In Part One of the novel this change is measured in a shift in the nature of erotic desire and we find Don Quixote torn between his love for Dulcinea and his hopes to wed for wealth and social advancement In Part Two Don Quixote himself changes from anarchic madman to a gentler wiser hero a member of a middle class in the making Throughout Cervantes meditates on the literary form that he is inventing as a response to modernity questioning the novel's relationship to other genres and the place of heroism and imagination within stories of everyday life A new and coherent guide through the maze like structure of Don Quixote this book invites readers to appreciate the perennial modernity of Cervantes's masterpiece a novel that confronts times not so distant from our own **The Publishers' Trade List Annual** ,1893
