The Role of God in Spinoza's Metaphysics Sherry Deveaux,2007-02-26 Baruch Spinoza began his studies learning Hebrew and the Talmud only to be excommunicated at the age of twenty four for supposed heresy Throughout his life Spinoza was simultaneously accused of being an atheist and a God intoxicated man Bertrand Russell said that compared to others Spinoza is ethically supreme the noblest and most lovable of the great philosophers This book is an exploration of a what Spinoza understood God to be b how for him the infinite and eternal power of God is expressed and c how finite human beings can have a true idea of this greatest of all entities Sherry Deveaux begins with an analytic discussion of these three questions and an explication of three different views held by contemporary commentators on Spinoza She then shows that the commonly held views about Spinoza are inconsistent with Spinoza's texts especially his magnum opus the Ethics Next comes an analysis of topics in Spinoza that must be understood in order correctly to answer the three questions For example the notions of power and true idea are discussed along with Spinoza's definition of the essence of a thing which is shown to be central to the discussion of Spinoza's God Deveaux then claims that Spinoza defines God's essence as absolutely infinite and eternal power and that contrary to the commonly held view that God's essence is identical with the attributes e g thought and extension God's essence or power is expressed through the attributes
