Responsibility Jan-Christoph Heilinger, 2019-11-18 The world we live in is unjust Preventable deprivation and suffering shape the lives of many people while others enjoy advantages and privileges aplenty Cosmopolitan responsibility addresses the moral responsibilities of privileged individuals to take action in the face of global structural injustice Individuals are called upon to complement institutional efforts to respond to global challenges such as climate change unfair global trade or world poverty Committed to an ideal of relational equality among all human beings the book discusses the impact of individual action the challenge of special obligations and the possibility of moral overdemandingness in order to lay the ground for an action guiding ethos of cosmopolitan responsibility This thought provoking book will be of interest to any reflective reader concerned about justice and responsibilities in a globalised world Jan Christoph Heilinger is a moral and political philosopher He teaches at Ludwig Maximilians Universit t Munich Germany and at Ecole normale sup rieure Port au Prince Haiti *Christian Ethics and Commonsense Morality* Kevin Jung, 2014-11-27 Christian Ethics and Commonsense Morality goes against the grain of various postmodern approaches to morality in contemporary religious ethics In this book Jung seeks to provide a new framework in which the nature of common Christian moral beliefs and practices can be given a new meaning He suggests that once major philosophical assumptions behind postmodern theories of morality are called into question we may look at Christian morality in quite a different light On his account Christian morality is a historical morality insofar as it is rooted in the rich historical traditions of the Christian church Yet this kind of historical dependence does not entail the evidential dependence of all moral beliefs on historical traditions It is possible to argue for the epistemic autonomy of moral beliefs according to which Christian and other moral beliefs can be justified independently of their historical sources The particularity of Christian morality lies not in its particular historical sources that also function as the grounds of justification but rather in its explanatory and motivational capacity to further articulate the kind of moral knowledge that is readily available to most human beings and to enable people to act upon their moral knowledge **The Bloomsbury**
