The Essentials of Education Rudolf Steiner, 1998-02 5 lectures Stuttgart April 8 11 1924 CW 308 These talks were given during an educational conference in 1924 They are the last public lectures given by Rudolf Steiner in Germany According to one member of his audience Seventeen hundred people listened to him the prolonged applause from this great crowd at the end of every lecture was deeply moving while at the end of the last lecture the applause became an ovation that seemed as if it would never end This kind of adoration was the result not only of who Steiner was as an individual but of what he accomplished as well People had already begun to realize the potential and the promise for the future that Waldorf education held out to the children of the world The Essentials of Education together with its companion book The Roots of Education present a remarkable synthesis of what Waldorf education is and what it can become The Waldorf experiment had matured for five years since 1919 when Steiner helped to establish the first Waldorf school He had guided that school from its beginning observing very closely all that happened As a result he was able to distill and present the essentials of Waldorf education with elegance as well as with the urgency he felt for the coming times German source Die Methodik des Lehrens und die Lebensbedingungen des Erziehens GA 308

The Essentials of Education Rudolf Steiner, 1997 Delivered in April 1924 during an educational conference these five lectures are the last public lectures that Steiner gave in Germany E A K Stockmeyer writes Seventeen hundred people listened to him and the prolonged generous applause from this great crowd at the end of every lecture was deeply moving while at the end of the last lecture the applause became an ovation that seemed as if it would never end back cover

A Lethal Inheritance Victoria Costello, 2012-01-10 Every family has secrets only some secrets are lethal In Victoria Costello's family mental illness had been given many names over at least four generations until this inherited conspiracy of silence finally endangered the youngest members of the family her children In this riveting story part memoir detective story and scientific investigation the author recounts how the mental unraveling of her seventeen year old son Alex compelled her to look back into family history for clues to his condition Eventually she tied Alex's descent into hallucinations and months of shoeless wandering on the streets of Los Angeles to his great grandfather's suicide on a New York City railroad track in 1913 But this insight brought no quick relief Within two years of Alex's diagnosis of paranoid schizophrenia both she and her youngest son succumbed to two different mental disorders major depression and anxiety disorder Costello depicts her struggle to get the best possible mental health care for her sons and herself treatment that ultimately brings each of them to full recovery In the process she discovers new science that explains how clusters of mental illness traverse family generations Artfully weaving the scientific into the personal Costello takes a journey to the far reaches of neuroscience and reports back on the startling findings it is yielding about the complex interplay between genes and environment that drives mental illness and what it now tells us about how parents can trump a lethal inheritance She shares the results of long term U K and European family studies identifying the earliest signs of mental illnesses that can be

passed on from grandparents to parents and grandchildren She tracks ongoing clinical trials to reverse the courses of these diseases through early intervention with the latest evidence based treatments and offers brain healthy choices individuals and families can make to prevent mental illness freeing future generations to live healthier happier lives **American Book Publishing Record** ,1997-09 *The Foundations of Human Experience* Rudolf Steiner,1996-07 7 Lectures various cities Nov 29 1917 Oct 16 1918 CW 182 Death as Metamorphosis of Life is a brilliant exceptional collection The lectures are intimate existential profound and transformative they address us in our soul lives where we live and where we strive for spiritual experience They make clear the necessary and living bond that must unite the inner work of Anthroposophists the day to day inner spiritual work in our ordinary lives and the outer work of Anthroposophy the manifestation of spirit in life that is the tasks of service that we take on in the world Steiner understood that if Anthroposophy or spiritual wisdom does not live and grow as a spiritual reality in the souls of those who claim to practice it then the practical wisdom their actions in the world as called for by the spirit of the times will come to nothing Christopher Bamford introduction The lectures in Death as Metamorphosis of Life address us in our soul life and speak to our hearts They make clear the bond that must unite our inner spiritual work and the outer work of manifesting spirit in life For if spiritual wisdom does not live and grow as a reality in the souls of those who practice it then the practical wisdom of service called for by the spirit of the times will come to nothing The particular realities that Rudolf Steiner focuses on are twofold working with the dead and the spiritual hierarchies and coming to know the Christ What these two have in common is that they are both Earth centered They teach us the fundamental importance of everyday human destiny and earthly life not just for humanity but also for divinity and the cosmos We learn not only what the dead can teach us about the spiritual world and the working of the hierarchies but also what it means to be human in a spiritual sense We learn of the importance of working with the dead and the angelic worlds both for our own and for their development as well as for the future evolution of the Earth The Mystery of Golgotha is equally important we must understand it spiritually As Steiner says It is the will of the gods that the most important event on Earth must compel us to spirituality The Christ must be experienced inwardly not historically At the same time he must be found on Earth for instance in human destiny The more we become aware of what is secretly invisibly and unconsciously working in our lives the closer we will come to working with the dead and to the kingdom of Christ How can we find the Christ Steiner quotes the seventeenth century mystic Angelus Silesius The Cross on Golgotha cannot save you from evil if it is not also raised within you The Cross is raised within us by the polarity of the powerlessness of our body and the resurrection of our spirit There is no need for supersensory capacities to realize this experience only humility and sincerity in seeking are required Resurrection from the soul death of powerlessness is the true Christ experience that opens the soul to the presence of Christ Truly these are astonishing lectures to be treasured to be read reread to be thoroughly understood as something living to be meditated and made one's own and to be carried as a transformative gift into the world Christopher Bamford
