Dictionary of Twentieth-Century British

Philosophers Stuart Brown,2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture

A New Vision of God for the 21st Century Stanley A. Fry, 2005-11 A New Vision of God for the 21st Century Discovering the Essential Wesley for Pastors and Other Seekers STANLEY A FRY The need for a book focused on John Wesley as a preacher has been apparent for some time However as fascinating as such an historical work would have been its value for the preaching and teaching ministries of the church in the 21st century would have been very limited The author has turned this study of Wesley s preaching into a search for the preachable and teachable essence of Wesley s message That effort has required a bit of surgery on Mr Wesley which is designed to fit his doctrine of salvation with a new vision of God and another vocabulary responsive to the spiritual sensitivities of the 21st century The result includes a critique not only of Wesley but of some of the orthodox doctrines promulgated very early in the church s history Rather than write a memoir in his retirement the author has chosen to write

this homiletical essay as a testimony to his own spiritual journey It is not a method book but rather a message book On the Existence of God Robert Geis,2009-11-11 The existence of God raises many questions Geis work addresses queries that arise from the gratuitous claims of empiricism in Hume unfounded assumptions in Kant presumptions of science and the improbabilities it identifies in Darwinism By focusing on number and proportion as intrinsic to material and atomic constituency any argument from chance as instrumental to the cosmos emergence and sustainability becomes invalidated The arguments from contingency and the nature of intellection provide more clarity than the ratio Anselmi for acknowledging a transcendent causality taking the reader to the problem of evil and present day nihilism These concepts present great but not insuperable difficulty for theism Geis argues that evil when one uses it as a means to the betterment of oneself and the world takes on the role commensurate with the doctrine of an omnibenevolent deity Accordingly one can use evil as a means to a greater understanding of God Providence and eternal destiny Making Sense of Your World W. After Hegel Frederick C. Beiser,2016-09-13 Histories of German philosophy in the nineteenth century typically focus on its first half when Hegel idealism and Romanticism dominated By contrast the remainder of the century after Hegel s death has been relatively neglected because it has been seen as a period of stagnation and decline But Frederick Beiser argues that the second half of the century was in fact one of the most revolutionary periods in modern philosophy because the nature of philosophy itself was up for grabs and the very absence of certainty led to creativity and the start of a new era In this innovative concise history of German philosophy from 1840 to 1900 Beiser focuses not on themes or individual thinkers but rather on the period s five great debates the identity crisis of philosophy the materialism controversy the methods and limits of history the pessimism controversy and the Ignorabimusstreit Schopenhauer and Wilhelm Dilthey play important roles in these controversies but so do many neglected figures including Ludwig B chner Eugen D hring Eduard von Hartmann Julius

Fraunstaedt Hermann Lotze Adolf Trendelenburg and two women Agnes Taubert and Olga Pluemacher who have been completely forgotten in histories of philosophy The result is a wide ranging original and surprising new account of German philosophy in the critical period between Hegel and the twentieth century

The Philosophy of Plotinus William R. Inge, 2003-07-08 History of the Gifford Lectures The educator and historian Jacques Barzun described the Gifford Lectures as virtuoso performances and the highest honor in a philosopher's career For over a hundred years the Gifford Lecture series has been one of the foremost lecture series dealing with religion science and philosophy In his 1885 will the jurist Adam Lord Gifford convinced that true felt knowledge of God when acted upon generated human well being and progress bequeathed 80 000 to the four Scottish universities Universities of Edinburgh Aberdeen Glasgow and St Andrews for the establishment of a series of lectures dealing with the topic of natural religion In dealing with their particular area of interest and expertise lecturers are to discuss natural theology as a science that is without reference to or reliance upon any supposed special exceptional or so called miraculous revelation The lectures began in 1888 and with the exception of the years during World War II 1942 1945 have been delivered continuously since that time Presenters were to be appointed for a period of two years and could be reappointed for two additional periods of two years each but for no more than six years in a given city In this manner the subject was to be examined and promoted by different minds

The Philosophy of Plotinus William Ralph Inge, 1918 *Language, Logic And God* Frederick Ferré, 2016-03-28 THIS BOOK is an attempt to fill the present striking need for an introduction to contemporary linguistic philosophy as it bears on theological discourse Wherever I have gone recently among educated Christians in Britain and America I have encountered profound curiosity and a good deal of anxiety concerning modern methods in philosophy as they relate to the logical nature and validity of theological affirmations Similarly I have found many of my students in contemporary philosophy

and in the philosophy of religion becoming deeply absorbed in the issues raised by a critical examination of theological speech From both groups the intellectually alert Christians and the thoughtful graduate and undergraduate students of philosophy and religion I have been heavily bombarded with appeals for direction to some book which would 1 set forth the central issues and arguments concerning theological discourse for readers who have familiarity with traditional philosophy but who are relatively untrained in contemporary philosophical practices and 2 place into perspective the present state of philosophical and theological discussion in this area of burgeoning interest To my frustration I have had to answer such requests with the admission that no such book exists and with the promise that I would try some day to provide that book myself In preparing this volume therefore I have done my best to keep those promises in mind
