The Etchings of Jacques Bellange Des Moines Art Center, Amy N. Worthen, 1975 **"The" Etchings of Jacques Bellange**, 1975 **The Etchings of Jacques Bellange** Amy N. Worthen, Sue Welsh Reed, Des Moines Art Center, Metropolitan Museum of Art (New York, N.Y.), 1975 Because impressions are relatively rare Bellange's etchings cannot easily be seen There has been a recent surge in the appreciation of mannerist art evidenced by numerous publications and exhibitions It seemed appropriate to gather together all available etchings by Bellange and make them visible to a larger audience To the best of our knowledge such an exhibition has never before been held Moreover the catalogue provides an opportunity to reproduce all the prints and to make available in English information from Nicole Walch's excellent German publication as well as to publish the results of new research Point of View of the Exhibition page 6

Catherine Jenkins, Nadine M. Orenstein, Freyda Spira, Peter Fuhling, Donald J. La Rocca, Anne Varick Lauder, Christof Metzger, Femke Speelberg, Ad Stijnman, Pierre Terjanian, Julia Zaunbauer, 2019-10-21 The Renaissance of Etching is a groundbreaking study of the origins of the etched print Initially used as a method for decorating armor etching was reimagined as a printmaking technique at the end of the fifteenth century in Germany and spread rapidly across Europe Unlike engraving and woodcut which required great skill and years of training the comparative ease of etching allowed a wide variety of artists to exploit the expanding market for prints The early pioneers of the medium include some of the greatest artists of the Renaissance such as Albrecht Dürer Parmigianino and Pieter Bruegel the Elder who paved the way for future printmakers like Rembrandt Goya and many others in their wake Remarkably contemporary artists still use etching in much the same way as their predecessors did five hundred years ago Richly illustrated and including a wealth of new information The Renaissance of Etching explores how artists in Germany the Netherlands Italy and France developed the new medium of etching and how it became one of the most versatile and enduring forms of printmaking p p1 margin 0 0px 0 0px 0 0px font 14 0px Verdana
