The European Community And Eastern Europe:

The European Community and Eastern Europe Charles Ransom, 1973 The European Community, Eastern Europe, and Russia Nicholas V. Gianaris, 1994-04-30 Europe is undergoing dramatic economic and political changes This work discusses structural changes and main problems and developments in relationships between the European Community EC and Eastern Europe Part I deals with the EC mainly the West European democracies and gives an historical framework for formation and expansion of this group Part II deals individually with the East European and troubled Balkan countries Part III deals with the European countries in the former USSR **The European Community and Eastern Europe** John Pinder, 1991 7

Investment and aid *The EU and its Relations with Eastern Europe* de Deugd, Nienke, Hoen, Herman W., 2022-02-15 The politico economic relations between the European Union EU and Eastern Europe are currently entering a new phase which some scholars qualify as a revival of the Cold War This insightful book seeks to explain whether and why a Cold War Europe has returned and discusses underlying factors that clarify the relations between East and West since the Second World War

Back To Europe Karen Henderson, 2005-10-09 With post communist states applying to join the European Union this book examines the challenges of Eastern enlargement focusing on international relations European institutions economics of integration and domestic politics Negotiating the New Europe Dimitris Papadimitriou, 2018-02-06 This title was first

published in 2002 Offering a new and challenging perspective on how the European Union EU sought to structure its relations with Central and Southeast Europe after the Cold War this volume draws upon key debates in both politics and international relations A historically and theoretically informed examination of the EU s engagement in Central and Eastern Europe since 1989 the book combines conceptual rigour with clear empirical analysis firmly grounding the study of the European Union s current enlargement process in established theoretical perspectives The book is written in an engaging and accessible way which will appeal to academics students and practitioners alike *The EC, Eastern Europe and European Unity* Peter van Ham, 2016-10-06 This text argues that the process of West European integration was encouraged and facilitated by the Cold War in which the threat posed by the Soviet Union temporarily inhibited internal conflicts and in which American hegemony provided the relatively stable and secure economic political and military framework in which the major West European countries were able to co operate and take major steps towards the ultimate ideal of a European Union

Recreating Europe Alan Mayhew, 1998 This book considers the main problems to be faced on the road to European enlargement **Life in Post-communist Eastern Europe After EU Membership** Donnacha Ó Beacháin, Vera Sheridan, Sabina Stan, 2012 This book examines how membership of the European Union has affected life in the ten former communist countries of Central and Eastern Europe that are now members of the European Union It attempts to answer some fundamental questions Was the reward of EU membership worth the sacrifices made How have the new member states fared Has the promise of EU membership on which so many expectations were based been realised Or have the new member

states traded a Socialist Commonwealth with Moscow pulling the strings for an over centralised Brussels bureaucracy that lacks transparency and accountability How has a shared communist past influenced the countries post socialist and post accession trajectory How have the populations of post communist Europe fared Have some done better than others Are these divergences confined to the political economic or social spheres or to more than one If there have been disappointments how have the populations reacted to these By taking stock of debates within domestic elites popular opinion non governmental organisations civil society and external actors this book seeks to answer these crucial questions European Integration and Disintegration Robert Bideleux, Professor Richard Taylor, Richard Taylor, 2002-09-11 Europe has changed radically since 1989 and continues to change at great speed This book deals with the principle problems and challenges confronting Europe in the aftermath of the Cold War and the collapse of European communism Whilst endeavouring to strike a balance between East West North and South the volume is more concerned with the changing political economic and cultural morphology of Europe and of the relations within it than with the formal institutional arrangements of the European Community and its successor the European Union There are already numerous books on the institutional development of the EU but relatively few with a wider compass and institutional interpretations of European integration The book shows that the study of European integration should be taken in the round avoiding a narrow and self centered concern with the development of the lesser Europe of the EU It demonstrates that integration should be seen as neither an inexorable predetermined process nor as an automatic consequence of high levels of economic interdependence but rather as something that proceeds in fits and starts and sometimes suffers reverses The Changing Geopolitics of Eastern Europe Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership **Central and Eastern Europe in the EU** Christian Schweiger, Anna Visvizi, 2018-05-15 Since the onset of the global financial crisis in 2008 the EU has been in almost permanent crisis mode It is witnessing new dimensions of internal differentiation among its member states and the migration crisis has shown that the Central and Eastern European countries CEEs in particular are slowly but certainly transforming themselves from predominantly passive policy takers towards becoming more active players in the process of shaping the EU s governance agenda This edited volume offers the first comprehensive and critical insight into how the CEEs position themselves in the EU s changing internal and external environment their stance towards the European integration process under current crisis conditions and what political and economic strategies they prioritize **The European Union and Central and Eastern Europe** Dimitris Papadimitriou, Dorina Baltag, Neculai-Cristian Surubaru, 2018-12-07 The role of the European Union EU in Central and Eastern European countries CEECs and its near abroad has attracted much scholarly attention over the past few years Notwithstanding the successes of the EU s eastwards enlargement the transformative

power of the EU in the region has often been called into question both in terms of its depth and longevity This book addresses a number of key questions What determines EU performance in post communist Europe What are the conditions that influence it How does the projection of EU power differ between its enlargement policy and the European Neighbourhood policy To answer these questions this volume brings together a wide range of case studies based on different approaches and methods but with a single analytical focus on performance The book s coverage and focus will be of interest to academics practitioners and students interested in the EU CEECs pre and post enlargement studies and more widely to those interested in the international relations and the governance of wider Eastern Europe The chapters of this book were originally published as a special issue of East European Politics

The European Community and the Developing Countries Enzo R. Grilli, 1993 The European Community has long been the largest trading bloc in the world It is also on the way to becoming the world s largest integrated economic zone Its trade aid and development cooperation policies are therefore of great importance to developing countries At the same time the developing countries have continued to be of interest to the Community both as outlets for its exports and capital investments and as sources of raw materials This 1993 book analyses and evaluates European Community trade aid and industrial policies towards developing countries their origin main features logic evolution and effectiveness in reaching the goals assigned to them The author sums up the state of Europe s development policies by describing them as regional in scope colonial in geographical emphasis discriminatory in their effects and lacking in overall cogency This incisive re evaluation illustrates the different strategies the EC countries might pursue in their relations with the outside world as they progress towards fuller economic integration

The European Union and South East Europe Andrew Geddes, Charles Lees, Andrew Taylor, 2013-05-02 This book explores the interaction of the EU in Greece Slovenia Croatia and Macedonia in three key policy sectors cohesion border managements and the environment and assesses the degree to which the European Union s engagement with the democracies of South East Europe has promoted Europeanization and Multi Level Governance Although there is a tendency to view the Balkans as peripheral this book argues that South East European states are central to what the EU is and aspires to become and goes to the heart of many of the key issues confronting the EU It compares changing modes of governance in the three policy areas selected because they are contentious issues in domestic politics and have trans boundary policy consequences in which there is significant EU involvement The book draws on over 100 interviews conducted to explore actor motivation preferences and perceptions in the face of pressure to adapt from the EU and uses Social Network Analysis Timely and informative this book considers broader dilemmas of integration and enlargement at a time when the EU s effectiveness is under close scrutiny The European Union and South East Europe will be of interest to students and scholars of European politics public policy and European Union governance and integration

The European Community and Eastern Europe, 1973 Prospects and Risks Beyond EU Enlargement Iris Kempe, 2012-12-06 With the European Union s upcoming eastern enlargement Europe is

confronted with the necessity of creating security and stability beyond the EU borders in Eastern and Southeastern Europe. This task includes not only numerous risks but also opportunities to face the challenges of the 21st century. This volume provides policy oriented recommendations and differentiated insider knowledge about the regional situation in Russia, Ukraine, Moldova, and Belarus. Authors from the region analyze policies by state and by key issues such as energy, transportation, the future of Kaliningrad, or the regional hot spot in Transnistria. A concept for a Multi Layered Europe is developed for the strategic dilemmas concerning the current debate on Wider Europe. The unique alliance between analytical output and strategic thinking makes the book valuable for the academic community and for persons responsible for Europe's future.

European Integration Beyond Brussels Matthew Broad, Suvi Kansikas, 2020-08-14. Europe is a continent whose history has in one form or another long been dominated by integration. And yet the European integration process is often treated as synonymous with the evolution of just one particular and until recently geographically quite limited Western centred organisation, the European Union (EU). This trend obscures the multitude of ways European states have acted collectively on both sides of the Iron Curtain and continue to do so throughout the continent today. With contributors drawn from history and political science, this book explores some of these diverse integration efforts beyond Brussels. We shine a light on international organisations, trade frameworks, and various political, social, scientific, and cultural forms of unity in both Eastern and Western Europe. In so doing, the book seeks to redefine the history of the European integration process not only as a less purely EU centric phenomenon but as a less strictly Western European one too.

The European Union and its eastern neighbourhood Mike Mannin, Paul Flenley, 2018-01-17. This volume is timely in that it explores key issues which are currently at the forefront of the EU's relations with its eastern neighbours. It considers the impact of a more assertive Russia, the significance of Turkey, the limitations of the Eastern Partnership with Belarus and Moldova, the position of a Ukraine in crisis, and pulled between Russia and the EU, security and democracy in the South Caucasus. It looks at the contested nature of European identity in areas such as the Balkans. In addition, it looks at ways in which the EU's interests and values can be tested in sectors such as trade and migration. The interplay between values, identity, and interests, and their effect on the interpretation of Europeanisation between the EU and its neighbours, is a core theme of the volume.

The European Union and Its Eastern Neighbourhood Andriy Tyushka, Tobias Schumacher, 2021-11-29. This edited volume brings together some of the most important scholarly perspectives in the form of both journal article reprints and original contributions on the structure and dynamics of the EU's multi layered relations with its Eastern neighbours within the Eastern Partnership (EaP) framework and beyond. In May 2019, the EU's EaP, an ambitious and sophisticated policy framework conjoining elements of cooperation and integration with the EU's six eastern neighbours, i.e. Ukraine, Belarus, Moldova, Georgia, Armenia, and Azerbaijan, turned ten years. This anniversary, in conjunction with repeatedly voiced critique by scholars and policy makers alike regarding the framework's effectiveness and utility, led the EU to submit the EaP to a fundamental auditing and revision.

Structured around both enduring and emerging issues in the broader EU Eastern neighbourhood framework this book provides a retrospective analysis of key structural and relational challenges unfolding regional dynamics distinctive forms of bilateral multilateral engagement whilst also offering a critical perspective on the contested future relations between the EU and its Eastern neighbours Looking backwards and providing a critical and thorough assessment of the first ten years of the EaP in practice this book thinks forward and gauges its many potential future avenues This comes at a crucial moment as the EU and its six Eastern neighbours are in search of new and mutually acceptable forms of association
