Information Notes, 1975 **Life's Solution** Simon Conway Morris, 2003-09-04 The assassin s bullet misses the Archduke s carriage moves forward and a catastrophic war is avoided So too with the history of life Re run the tape of life as Stephen J

Gould claimed and the outcome must be entirely different an alien world without humans and maybe not even intelligence. The history of life is littered with accidents any twist or turn may lead to a completely different world. Now this view is being challenged. Simon Conway Morris explores the evidence demonstrating life's almost eerie ability to navigate to a single solution repeatedly. Eyes, brains, tools, even culture, all are very much on the cards. So if these are all evolutionary inevitabilities, where are our counterparts across the galaxy? The tape of life can only run on a suitable planet and it seems that such Earth-like planets may be much rarer than hoped. Inevitable humans, yes, but in a lonely Universe.

The Ecosystem Concept In Anthropology Emilio F. Moran, Susan H. Lees, 2019-09-06. Critics of the ecosystem concept have noted the tendency of ecosystem-based studies to overemphasize energy flow, to rely on functionalist assumptions, to neglect historical and evolutionary factors, and to overlook the role of individuals as the locus of natural selection and decision making. In this volume, leading figures in the study of biological and human ecology evaluate these criticisms and propose ways to advance the state of knowledge in ecological research.
