Faith Movements and Social Transformation Samta P. Pandya, 2018-12-11 This book examines the role of Hindu inspired faith movements (HIFMs) in contemporary India as actors in social transformation. It further situates these movements in the context of the global political economy where such movements cross national boundaries to locate believers among the Hindu diaspora and others. In contemporary neoliberal India, HIFMs have become important actors and they realize themselves by making public assertions through service. The four pillars of the contemporary presence of such movements are gurus, sociality, hegemony, and social transformation. Gurus who spearhead these movements create a matrix of possible meanings in their public discourses which their followers pick up to create messages of personal and social change. Sociality is a core strategy of proliferation across such movements and implies social service which is qualified by memories of the guru and what they are believed to embody. Hegemony is reflected in the fact that social service in such movements often ominously imbibes right wing or far right Hinduism. They propose a model of Hindu inspired social transformation involving faith building into and transforming the civil society. The book discusses in a nuanced way several Hindu inspired faith movements of various hues which have made national and international impact. This topical book is of interest to students and researchers in the fields of sociology, anthropology, social work, and social psychology with a special interest in the study of religious movements.

The Depth of the Human Person Michael Welker, 2014-06-30 This volume brings together leading theologians, biblical scholars, scientists, philosophers, ethicists, and others to explore the multidimensionality and depth of the human person. Moving away from dualistic mind/body/spirit/flesh/natural/moral anthropologies, the book's contributors examine human personhood in terms of a complex flesh/body/mind/heart/soul/conscience/reason/spirit spectrum. *The Depth of the Human Person* begins with a provocative essay on the question: Why is personhood conceptually difficult? It then rises to the challenge of relating theological contributions on the subject to various scientific explorations. Finally, the book turns to contemporary theological/ethical challenges, discussing such subjects as human dignity, embodiment, gender stereotypes, and human personhood at the edges of life. Contributors: Maria Antonaccio, Warren S. Brown, Philip Clayton, Volker Henning Drecoll, Markus Hfner, Origen V. Jathanna, Malcolm Jeeves, Isolde Karle, Eiichi Katayanagi, Andreas Kemmerling, Stephan Kirste, Bernd Oberdorfer, John C. Polkinghorne, Jeffrey P. Schloss, Andreas Schle, William Schweiker, Gerd Theissen, Gnter Thomas, Frank Vogelsang, Michael Welker.

Evolution's Purpose Steve McIntosh, 2012-10 Presents the author's view of the scientific story of our evolutionary origins to show how evolution's progressive generation of emergent value reveals a larger purpose within the process. He demonstrates how this purpose can be felt within each of us as the evolutionary impulse to make things better, to grow toward ever widening realizations of beauty, truth, and goodness.
