Defiled Trades and Social Outcasts Kathy Stuart, 2000-05-04 This book presents a social and cultural history of dishonourable people *unehrliche Leute* an outcast group in early modern Germany Executioners skinners grave diggers shepherds barber surgeons millers linen weavers sow gelders latrine cleaners and bailiffs were among the dishonourable by virtue of their trades This dishonour was either hereditary often through several generations or it arose from ritual pollution whereby honourable citizens could become dishonourable by coming into casual contact with members of the outcast group The dishonourable milieu of the city of Augsburg from the sixteenth to the eighteenth centuries is reconstructed to show the extent to which dishonour determined the life chances and self identity of dishonourable people The book then investigates how honourable estates interacted with dishonourable people and how the pollution anxieties of early modern Germans structured social and political relations within honourable society The Executioner's Alphabet Julie Kwiatkowski Schuler, 2019-04-22 Pictures of The Executioner s Alphabet a hand embroidered artwork of 26 panels each with a letter of the alphabet and a corresponding illustration of a method of execution or torture **Art History, Narratology, and Twentieth-Century Chinese Art** Lian Duan, 2023-07-28 This study constructs a framework of narratology for art history and rewrites the development of twentieth century Chinese art from a narratological perspective Theoretically and methodologically oriented this is a self reflective meta art history studying the art historical narratives while narrating the story of modern and contemporary Chinese art Thus this book explores the three layers of narrative within the narratological framework the first hand fabula the secondary narration and the tertiary narrativization With this tertiary narrativization the reader author presents three types of narrative the grand narrative of the central thesis of this book the middle range narrative of the chapter theses and case analyses supporting these theses The focus of this tertiary narrativization is the interaction between Western influence on Chinese art and the Chinese response to this influence The central thesis is that this interaction conditioned and shaped the development of Chinese art at every historical turning point in the twentieth century The book will be of interest to scholars working in art history critical theory Chinese studies and cultural studies Witchcraft Persecutions in Bavaria Wolfgang Behringer, 2003-11-13 A groundbreaking study of witchcraft in modern day Bavaria between 1300 and 1800 Sacred and Legendary Art Mrs. Jameson (Anna), 1850 **The Art of Law** Stefan Huygebaert, Georges Martyn, Vanessa Paumen, Eric Bousmar, Xavier Rousseaux, 2018-09-27 The contributions to this volume were written by historians legal historians and art historians each using his or her own methods and sources but all concentrating on topics from the broad subject of historical legal iconography How have the concepts of law and justice been represented in public art from the Late Middle Ages onwards Justices and rulers had their courtrooms but also churches decorated with inspiring images At first the religious influence was enormous but starting with the Early Modern Era new symbols and allegories began appearing Throughout history art has been used to legitimise the act of judging but artists have

also satirised the law and the lawyers architects and artisans have engaged in juridical and judicial projects and in some criminal cases convicts have even been sentenced to produce works of art The book illustrates and contextualises the various interactions between law and justice on the one hand and their artistic representations in paintings statues drawings tapestries prints and books on the other

Making Foreign People Pay Ali Cem Budak, 2019-05-29 First published in 1999 Making Foreign People Pay deals with the recovery of monetary claims in cross border legal relations and contains the results of a comparative empirical research of debt recovery procedures of three countries with different socio legal environments Germany England and Turkey In order to analyse judicial debt recovery of cross border claims court statistics and files have been evaluated The data show an infrequent use of the courts in all three countries It seems that legal efforts aiming at facilitating international procedures have not been successful But court

procedures for the recovery of monetary claims are now to a large extent interchangeable with what may be called privatised methods of debt collection including modern financial services such as factoring forfaiting and commercial debt collection Empirical evidence shows that such privatization of debt collection is a strong trend in cross border debt collection The book is an empirical contribution to the ongoing discussion of globalization processes and describes an important field of the globalization of law

Attachment of Assets Lawrence W. Newman, 2014-03-01 Practitioners from leading firms in over 90 countries provide practical information about procedural and substantive issues regarding attachment of assets Because the availability of attachments in advance of judgments can make the difference between success and failure in a lawsuit for money damages and because attachments may often be obtained in places far removed from the venues of proceedings on the merits it is important for litigation counsel to be aware of the potential for multi jurisdictional assaults on the assets of their clients or of their clients adversaries Attachment of Assets is designed to give practical information and guidance to lawyers and businessmen who are interested in securing expected future judgments and in making strategic decisions concerning the deployment of moveable assets in the face of possible attachments of them The chapters each discussing the requirements of a separate country are written by lawyers with practical expertise in this field The procedure by which attachments are obtained vary ranging from court orders authorizing a court official to take custody of a defendant's assets to orders restraining the defendant from transferring his assets The effects of such orders differ as well some create a lien superior to those of other creditors and others do no more than immobilize the debtor's assets leaving them open to being levied upon by later arriving judgment creditors Countries vary in the ways in which they permit attachments to be carried out whether for example all of the banks in a given city may be served with attachment notices or orders They vary as well with respect to the information that is imparted to the attaching creditor after attachment orders have been served Some rules make available to creditor information concerning the value of assets on which they have successfully levied while others leave creditors in the dark or dependent on informal hints from garnishees as to whether or not pay dirt has been struck Most importantly jurisdictional requirements for the issuance of attachment orders are not similar Some countries permit attachments only if the defendant is subject to the jurisdiction of their courts with respect to the merits of the case Others are less demanding permitting attachments solely on the basis and to the extent of the presence of the assets successfully attached It is probably fair to say that in many foreign jurisdictions the protection of creditors through fraudulent conveyance laws and the like is inadequate or even as a practical matter unavailable The enforcement of judgments is therefore often dependent on a creditor's ability to obtain early even prior to the commencement of a lawsuit a prejudgment attachment or the equivalent of his debtor's assets The extent to which attachments are obtainable in various countries of the world and the basis under which they may be obtained under local law are the focus of Attachment of Assets

Format of Publication Organized in a uniform question and answer format that addresses the receptiveness of each country

toward the attachment of assets the procedural requirements for filing for attachment reciprocity treaty provisions and defenses Every Chapter is organized with the same special three part arrangement allowing you to quickly and easily locate the information you need for each country Part I contains a survey of the current attitude of each country's courts and government toward the attachment of assets including anticipated changes and recent cases Part II discusses procedure the judgment creditor must follow to file for the attachment of assets in the other country including translation of the judgment currency conversion attorneys fees and recovery of interest Part III summarizes the requirements the judgment creditor must meet for attachment and the defense the judgment and the defenses the judgment debtor must establish to prevent attachment

A Bank's Duty of Care Danny Busch, Cees van Dam, 2017-08-24 In recent years an increasing number of clients and third parties have filed claims against banks such as for mis selling financial products poor financial advice insufficient disclosure of and warning about financial risks The scope of a bank's duty of care seems to expand not only to include protection of consumers against unclear risks of complicated

products but also protection of professional parties against more obvious risks of relatively straightforward products This topic raises many questions both at a theoretical and practical level This book provides a rich source of information about how various jurisdictions Germany Austria France Italy Spain the Netherlands England and Wales Ireland and the United States of America deal with these questions and how answers are found or embedded in their national legal systems The book also contains a detailed chapter on the MiFID I and II conduct of business provisions Finally the book provides a thorough comparative analysis and perspective Togo Property, Land Ownership and Agricultural Laws Handbook - Strategic Information and Basic Laws IBP, Inc,2013-04-04 Togo Land Ownership and Agriculture Laws Handbook
