Vikings of the Pacific The Adventures of the Explorers who Came from the West, Eastward Agnes Christina Laut, 2006-01-01 Peter the Great sends Bering on Two Voyages First to discover whether America and Asia are united Second to find what lies north of New Spain Terrible Hardships of Caravans crossing Siberia for Seven Thousand Miles Ships lost in the Mist Bering s Crew cast away on a Barren Isle We have become such slaves of shallow science in these days such firm believers in the fatalism which declares man the creature of circumstance that we have almost forgotten the supremest spectacle in life is when man becomes the Creator of Circumstance We forget that man can rise to be master of his destiny fighting unmaking re creating not only his own environment but the environment of multitudinous lesser men There is something titanic in such lives They are the hero myths of every nation s legends We somehow feel that the man who flings off the handicaps of birth and station lifts the whole human race to a higher plane and has a bit of the God in him though the hero may have feet of clay and body of beast Such were the old Vikings of the North who spent their lives in elemental warfare and rode out to meet death in tempest lashed to the spar of their craft And such too were the New World Vikings of the Pacific who coasted the seas of two continents in cockle shell ships planks lashed with deer thongs calked with moss rapacious in their deep sea plunderings as beasts of prey fearless as the very spirit of the storm itself The adventures of the North Pacific Vikings read more like some old legend of the sea than sober truth and the wild strain had its fountain head in the most tempestuous hero and beastlike man that ever ascended the throne of the Russias When Peter the Great of Russia worked as a ship s carpenter at the docks of the East India Company in Amsterdam the sailors tales of vast undiscovered lands beyond the seas of Japan must have acted on his imagination like a match to gunpowder Already he was dreaming those imperial conquests which Russia still dreams of pushing his realm to the southernmost edge of Europe to the easternmost verge of Asia to the doorway of the Arctic to the very threshold of the Chinese capital Already his Cossacks had scoured the two Siberias like birds of prey exacting tribute from the wandering tribes of Tartary of Kamchatka of the Pacific of the Siberian races in the northeasternmost corner of Asia And these Chukchee Indians of the Asiatic Pacific told the Russians of a land beyond the sea of driftwood floating across the ocean unlike any trees growing in Asia of dead whales washed ashore with the harpoons of strange hunters and most comical of all in the light of our modern knowledge about the Eskimo s tail shaped fur coats of men wrecked on the shores of Asia who might have qualified for Darwin s missing link

inasmuch as they wore tails And now the sailors added yet more fabulous things to Peter s knowledge There was an unknown continent east of Asia west of America called on the maps Gamaland Now Peter s consuming ambition was for new worlds to conquer What of this Gamaland But as the world knows Peter was called home to suppress an insurrection War domestic broils massacres that left a bloody stain on his glory busied his hands for the remaining years of his life and January of 1725 found the palaces of all the Russias hushed for the Hercules who had scrunched all opposition like a giant lay dying ashamed to consult a physician vanquished of his own vices calling on Heaven for pity with screams of pain that drove physicians and attendants from the room Perhaps remorse for those seven thousand wretches executed at one fell swoop after the revolt perhaps memories of those twenty kneeling supplicants whose heads he had struck off with his own hand drinking a bumper of quass to each stroke perhaps reproaches of the highway robbers whom he used to torture to slow death two hundred at a time by suspending them from hooks in their sides perhaps the first wife whom he repudiated the first son whom he had done to death either by poison or convulsions of fright came to haunt the darkness of his deathbed Catherine the peasant girl elevated to be empress of all the Russias could avail nothing Physicians and scientists and navigators Dane and English and Dutch whom he had brought to Russia from all parts of Europe were powerless Vows to Heaven in all the long hours he lay convulsed battling with Death were useless The sins of a lifetime could not be undone by the repentance of an hour Then as if the dauntless Spirit of the man must rise finally triumphant over Flesh the dying Hercules roused himself to one last supreme effort

The Prehistoric Exploration and Colonisation of the Pacific Geoffrey Irwin, 1992 The exploration and colonisation of the Pacific is a remarkable episode of human prehistory Early sea going explorers had no prior knowledge of Pacific geography no documents to record their route no metal no instruments for measuring time and none for exploration Forty years of modern archaeology experimental voyages in rafts and computer simulations of voyages have produced an enormous range of literature on this controversial and mysterious subject This book represents a major advance in knowledge of the settlement of the Pacific by suggesting that exploration was rapid and purposeful undertaken systematically and that navigation methods progressively improved Using an innovative model to establish a detailed theory of navigation Geoffrey Irwin claims that rather than sailing randomly downwind in search of the unknown Pacific Islanders expanded settlement by the cautious strategy of exploring upwind so as to ease their safe return The author has tested this hypothesis against the chronological data from archaeological investigation with a computer simulation of demographic and exploration patterns and by sailing throughout the region himself

Maritime Exploration in the Age of Discovery, 1415-1800 Ronald S. Love,2006-09-30

Despite earlier naval expeditions undertaken for reasons of diplomacy or trade it wasn't until the early 1400s that European maritime explorers established sea routes through most of the globe's inhabited regions uniting a divided earth into a single system of navigation From the early Portuguese and Spanish quests for gold and glory to later scientific explorations of land and culture this new understanding of the world's geography created global trade built empires defined taste and alliances of power and began the journey toward the cultural political and economic globalization in which we live today Ronald Love's engaging narrative chapters guide the reader from Marco Polo's exploration of the Mongol empire to Ferdinand Magellan's circumnavigation of the globe the search for a Northern Passage Henry Hudson's voyage to Greenland the discovery of Tahiti the perils of scurvy mutiny and warring empires and the eventual extension of Western influence into almost every corner of the globe Biographies and primary documents round out the work
