E, Geography. 1912 William Swan Sonnenschein, 1912 of Australia and Their Life-Work Ernest Favenc, 2004-07 Classified Catalogue of the Carnegie Library of Pittsburgh **European Discovery and Exploration of Australia** Erwin Feeken, 2019-06-21 The Carnegie Library of Pittsburgh, 1914 map of Australia abounds with fascinating geographical place names the origins of which have for long been hidden in the journals of our early explorers Now after nine years of research Erwin Feeken a highly qualified cartographer and his wife Gerda have finalised the first complete record of Australian geographical place names and the most comprehensive general reference work on Australian exploration ever published In European Discovery and Exploration of Australia there are twenty three beautifully drawn four colour maps plus index showing the routes of more than 120 explorers with the locality of their named features numbered to accord with a Key to the Maps The place names in the Key have been numbered approximately in chronological order of their naming though places found during a single expedition have been grouped together. There is also a gazetteer containing over four thousand place names alphabetically arranged with notes on their origins The map reference numbers in brackets form a cross reference with the Key to the Maps The work is introduced by a foreword from Lord Casey and an essay on the nature of Australian exploration by Professor O H K Spate director of the Research School of Pacific Studies Australian National University The text comprising a survey of Australian exploration is arranged in the form of biographies of the explorers describing for the first time several almost unknown figures with emphasis on their expeditions and under the following headings The Approach to Australia Exploration before Settlement 1606 1788 From Botany Bay to the Blue Mountains 1788 1813 Land and Sea Expeditions 1813 1901 This section of the book is very fully illustrated with 18 full colour plates and some 150 black and white photographs mostly reproductions of early prints Concluding the book are bibliographies of sources and references a list of illustrations and an index of explorers and ships The comprehensive nature of this work will ensure that it becomes a valuable reference book for students while the text and illustrations will appeal to all who are interested in our history Collectors of Australiana will welcome this most attractive addition to the ever increasing number of available publications The Aboriginal Story of Burke and Wills Ian Clark, Fred Cahir, 2013-07-22 The Aboriginal Story of Burke and Wills is the first major study of Aboriginal associations with the Burke and Wills expedition of 1860 61 A main theme of the book is the contrast between the skills perceptions and knowledge of the Indigenous people and those of the new arrivals and the extent to which this affected the outcome of the expedition The book offers a reinterpretation of the literature surrounding Burke and Wills using official correspondence expedition journals and diaries visual art and archaeological and linguistic research and then complements this with references to Aboriginal oral histories and social memory It highlights the interaction of expedition members with Aboriginal people and their subsequent contribution to Aboriginal studies The book also considers contemporary and multi disciplinary critiques that the expedition

members were on the whole deficient in bush craft especially in light of the expedition s failure to use Aboriginal guides in any systematic way Generously illustrated with historical photographs and line drawings The Aboriginal Story of Burke and Wills is an important resource for Indigenous people Burke and Wills history enthusiasts and the wider community This book The Water Dreamers Michael Cathcart, 2010-08-02 The long is the outcome of an Australian Research Council project awaited history that will change the way Australians think about their country The Water Dreamers is the story of the settlement of Australia of the scarcity of water and the need to fill an imagined silence with the sounds of civilisation From the moment the First Fleeters stepped ashore water determined progress The Tank Stream that flowed through what is now the Sydney CBD provided fresh water until settlers and their livestock fouled it Then water from a nearby swamp was piped into the growing settlement When it ran dry sights were set further afield The Water Dreamers is an illuminating account of the ways people have imagined and interpreted Australia while struggling to understand this continent and striving to conquer its obstacles It s an environmental history and a cultural history with an unmistakable sense of how today we are part of that continuing story Journals and Printed Papers of the Parliament of Tasmania Tasmania.
