Anyone reading English translations of Buddhist texts will encounter a host of names terms and phrases whose meanings are not clear even though they appear in English Buddhism is famous for its specialized terminology and translation alone may not communicate its full meaning East Asian Buddhist diction is layered with several languages Pali Sanskrit Chinese and Japanese and the only way to make one s way through this linguistic maze without getting lost is with the aid of a good dictionary The Soka Gakkai Dictionary of Buddhism a revised and expanded version of A Dictionary of Buddhist Terms and Concepts 1983 is a welcome addition that serves this purpose Written clearly for the general reader the Dictionary contains over 2 700 entries While it is designed primarily for use with the Soka Gakkai s translations of Nichiren s works the Dictionary contains a wealth of terms found in all other traditions of Buddhism Definitions are given for technical terms historical figures doctrinal texts institutions and place names The entries provide complete cross references so that readers may know and further pursue meanings of term equivalents as rendered in other ways or languages Ten appendixes provide maps and world lists that enable the reader to find terms in English Pali Sanskrit Chinese or Japanese Like all Buddhist masters Nichiren presented his particular message in the wider context of other Buddhist teachings and practices To know the particular one must also understand the general context and the Dictionary in addressing both levels provides essential knowledge not only for students of Nichiren Buddhism but for anyone reading Buddhist texts Empty Vision David McMahan,2013-12-19

Visual metaphors in a number of Mahayana sutras construct a discourse in which visual perception serves as a model for knowledge and enlightenment In the Perfection of Wisdom Prajnaparamita and other Mahayana literature immediate access to reality is symbolized by vision and set in opposition to language and conceptual thinking which are construed as obscuring reality In addition to its philosophical manifestations the tension between vision and language also functioned as a strategy of legitimation in the struggle of the early heterodox Mahayana movement for authority and legitimacy This emphasis on vision also served as a resource for the abundant mythical imagery in Mahayana sutras imagery that is ritualized in Vajrayana visualization practices McMahan brings a wide range of literature to bear on

this issue Including a rare analysis of the lavish imagery of the Gandavyuha Sutra in its Indian context He concludes with a discussion of Indian approaches to visuality in the light of some recent discussions of ocularcentrism in the west inviting scholars to expand the current discussion of vision and its roles in constructing epistemic systems and cultural practices beyond its exclusively European and American focus **Harvard Oriental Series** ,1921 Dōgen's texts Ralf Müller,George Wrisley,2023-12-07 This book addresses the question of how to properly handle D gen s texts a core issue that became critical during the Meiji period in which the philosophical appropriation of D gen became apparent inside and outside of the monastery In present day D gen studies most scholarship is informed by a number of factions representing D gen The chapters herein address the Zennist j zenj ka emphasising practice the Genz nians j genz ka shifting the attention to the close reading of D gen s texts the laity movement opening up both the texts and the practice to people in modern society and the Genz researchers j genz kenky ka searching for the authenticity and truth of D gen s writings The book aims to clarify the rightful place of D gen in the monastery in denominational studies or in modern academic philosophy It brings forth various viewpoints on D gen and analyzes the relations of these viewpoints from the premodern to modern times The collected volume appeals to students and researchers in the field while establishing hermeneutic standards of reading and proposing new original and critical interpretations of D gen s texts Chapter From Uji to Being time and Back Translating D gen into Philosophy is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

delusion and dualism This is the Buddhist teaching on the perfection of wisdom and cuts through all obstacles on the path of practice As Red Pine explains The Diamond Sutra may look like a book but it s really the body of the Buddha It s also your body my body all possible bodies But it s a body with nothing inside and nothing outside It doesn t exist in space or time Nor is it a construct of the mind It s no mind And yet because it s no mind it has room for compassion This book is the offering of no mind born of compassion for all suffering beings Of all the sutras that teach this teaching this is the diamond The
