The Face Of Tibet:

The Face of Tibet William Chapman, 2001 A lavish photographic celebration of Tibetan life includes a forward by the Dalai Lama and incorporates images of the Plateau of Tibet and the Forbidden City of Lhasa as well as scenes of the area's countryside religious observances and people

The Classical Tibetan Language Stephan V. Beyer, 1992-01-01 Among Asian languages Tibetan is second only to Chinese in the depth of its historical record with texts dating back as far as the eighth and ninth centuries written in an alphabetic script that preserves the contemporaneous phonological features of the language

The Classical Tibetan Language is the first comprehensive description of the Tibetan language and is distinctive in that it treats the classical Tibetan language on its own terms rather than by means of descriptive categories appropriate to other languages as has traditionally been the case Beyer presents the language as a medium of literary expression with great range power subtlety and humor not as an abstract object He also deals comprehensively with a wide variety of linguistic phenomena as they are actually encountered in the classical texts with numerous examples of idioms common locutions translation devices neologisms and dialectal variations

The Disempowered Development of Tibet in China Andrew Martin Fischer, 2013-12-20 Series Studies in Modern Tibetan Culture Lexington Books Weatherhead East Asian Institute Columbia University Since the central government of China started major campaigns for western development in the mid 1990s the economies of the Tibetan areas in Western China have grown rapidly and living standards have improved However grievances and protests have also intensified as dramatically evidenced by the protests that spread across most Tibetan areas in spring 2008 and by the more recent wave of self immolation protests that started in 2011 This book offers a detailed and careful exploration of this synergy between development and conflict in Tibet from the mid 1990s onwards when rapid economic growth has occurred in tandem with a particularly assimilationist approach of integrating Tibet into China Fischer argues that the intensified economic integration of Tibet into regional and national development strategies on these assimilationist terms within a context of continued political disempowerment and through the massive channeling of subsidies through Han Chinese dominated entities based outside the Tibetan areas has accentuated various dynamics of subordination and marginalization faced by Tibetans of all social strata Whether or not these dynamics are intended to be discriminatory they effectively accentuate the discriminatory assimilationist and disempowering characteristics of development even while producing considerable improvements in the material consumption of local Tibetans In particular strong cultural linguistic and political biases intensify ethnically exclusionary dynamics among middle and upper strata of the

Tibetan labor force which is problematic considering the rapid shift of Tibetans out of agriculture and towards the highly subsidy dependent sectors of the economy especially in urban areas The combination of these disempowering dynamics with the sheer speed of dislocating and disembedding social change provides important insights into recent tensions given that it has accentuated insecurity while restricting the ability of Tibetan communities to adapt in autonomous and self determined ways The study represents one of the only macro level and systemic analyses of its kind in the scholarship on Tibet based on accessible economic analysis and extensive interdisciplinary fieldwork It also carries much interest for those interested in China and in the interactions between development inequality exclusion and conflict more generally

Gruber,2010-08-10 The story of Drikung Chetsang Rinpoche s life notes the Dalai Lama encompasses a remarkably broad range of Tibetan experience over the past fifty years This is the story of a young boy born in 1946 to inherit the role of high ranking lama When the Chinese army invaded his family escaped the country but he and the other monks in his monastery were rounded up by soldiers and sent to an indoctrination school After surviving almost two decades of the Cultural Revolution in Tibet during which time lamas and aristocrats were persecuted and jailed Chetsang Rinpoche walked out of Tibet alone and found his way to Kathmandu Nepal Eventually after living as a refugee and an immigrant he fully took on leadership of the Drikung lineage by founding the Drikung Kagyu Institute in India Since then the teachings of this lineage have spread around the world after nearly being lost

The Tibetan Assimilation of Buddhism Matthew T. Kapstein, 2002-02-07 This book explores the Buddhist role in the formation of Tibetan religious thought and identity. In three major sections, the author examines Tibet's eighth century conversion, sources of dispute within the Tibetan Buddhist tradition, and the continuing revelation of the teaching in both doctrine and myth.

Tibetans in Nepal Ann Frechette, 2004 Based on eighteen months of field research conducted in exile carpet factories, settlement camps, monasteries and schools in the Kathmandu Valley of Nepal, as well as in Dharamsala, India, and Lhasa, Tibet, this book offers an important contribution to the debate on the impact of international assistance on migrant communities. The author explores the ways in which Tibetan exiles in Nepal negotiate their norms and values as they interact with the many international organizations that assist them, and comes to the conclusion that, as beneficial as aid agency assistance often is, it also complicates the Tibetans' efforts to define themselves as a community.

Tibetan Renaissance Ronald M. Davidson, 2008-01-01 How did a society on the edge of collapse and dominated by wandering bands of armed men give way to a vibrant Buddhist culture led by yogins and scholars? Ronald M. Davidson explores how the translation and spread of esoteric Buddhist texts dramatically shaped Tibetan society and led to its rise as the center of Buddhist culture throughout Asia, replacing India as the perceived source of religious ideology and tradition. During the Tibetan Renaissance, 950-1200 C.E., monks and yogins translated an enormous number of Indian Buddhist texts. They employed the evolving literature and practices of esoteric Buddhism as the basis to reconstruct Tibetan religious, cultural, and political institutions. Many translators achieved the de facto status of feudal lords, and while not always loyal to their Buddhist vows, these figures helped solidify political power in the hands of religious authorities and began a process that led to the Dalai Lama's theocracy. Davidson's vivid portraits of the monks, priests, popular preachers, yogins, and aristocratic clans who changed Tibetan society and culture further enhance his perspectives on the tensions and transformations that characterized medieval Tibet.

Tibetan Buddhism in Diaspora Ana Lopes, 2014-12-17 The imperialist ambitions of China which invaded Tibet in the late 1940s have sparked the spectacular spread of Tibetan Buddhism worldwide and especially in western countries This work is a study on the malleability of a particular Buddhist tradition on its adaptability in new contexts The book analyses the nature of the Tibetan Buddhism in the Diaspora It examines how the re signification of Tibetan Buddhist practices and organizational structures in the present refers back to the dismantlement of the Tibetan state headed by the Dalai Lama and the fragmentation of Tibetan Buddhist religious organizations in general It includes extensive multi sited fieldwork conducted in the United States Brazil Europe and Asia and a detailed analysis of contemporary documents relating to the global spread of Tibetan Buddhism The author demonstrates that there is a de institutionalized and de territorialized project of political power and religious organization which among several other consequences engenders the gradual autonomization of lamas and lineages inside the religious field of Tibetan Buddhism Thus a spectre of these previous institutions continues to exist outside their original contexts and they are continually activated in ever new settings Using a combination of two different academic traditions namely the Brazilian anthropological tradition and the American Buddhist studies tradition it investigates the process of cultural re signification of Tibetan Buddhism in the context of its Diaspora Thus it will be a valuable resource to students and scholars of Asian Religion Asian Studies and Buddhism Tibet, China and Great Britain Grover Clark, 1924
