Cognitive Science Neil A. Stillings, 1995 Cognitive Science is a single source undergraduate text that broadly surveys the theories and empirical results of cognitive science within a consistent computational perspective In addition to covering the individual contributions of psychology philosophy linguistics and artificial intelligence to cognitive science the book has been revised to introduce the connectionist approach as well as the classical symbolic approach and adds a new chapter on cognitively related advances in neuroscience Cognitive science is a rapidly evolving field that is characterized by considerable contention among different views and approaches Cognitive Science presents these in a relatively neutral manner It covers many new orientations theories and findings embedding them in an integrated computational perspective and establishing a sense of continuity and contrast with more traditional work in cognitive science The text assumes no prerequisite knowledge introducing all topics in a uniform accessible style Many topics such as natural language processing and vision however are developed in considerable depth which allows the book to be used with more advanced undergraduates or even in beginning graduate settings A Bradford Book *Routledge Library Editions: Artificial Intelligence* Various, 2021-06-23 Artificial Intelligence AI a term coined in the 1950s actually dates back as far as 1943 Now very much in the public consciousness AI research has fallen in and out of favour over the years Routledge Library Editions Artificial Intelligence 10 Volumes brings together as one set or individual volumes a small interdisciplinary series of previously out of print titles originally published between 1970 and 1994 Covering ground in computer science literature philosophy psychology psychotherapy and sociology this set is a fascinating insight into the development of ideas surrounding AI PRICAI '96: Topics in Artificial Intelligence Norman Foo, Randy Goebel, 1996 This volume constitutes the refereed proceedings of the 4th Pacific Rim International Conference on Artificial Intelligence PRICAI 96 held in Cairns
