The Hidden Side Of Religions:

The Hidden Side of Religions Annie Wood Besant, 2005-12-01 This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world s literature in affordable high quality modern editions that are true to the original work *The Hidden Side of Christian Festivals* Charles Webster Leadbeater, 1920 [The Dark Side of Church/State Separation](#) Stephen Strehle, 2017-09-08 The Dark Side of Church State Separation analyzes the Enlightenment s attack upon the Judeo Christian tradition and its impact upon the development of secular regimes in France Germany and Russia Such regimes followed the anti Semitic anti Christian agenda of the French Enlightenment in blaming the Judeo Christian tradition for all the ills of European society and believing that human beings can develop their own set of values and purposes through rational means apart from any revelation from God or Scripture Stephen Strehle s analysis extends our understanding of church state relations and its history He confirms the spiritual roots of modern anti Semitism within the ideology of the Enlightenment and recognizes the intimate relationship between anti Semitism and anti Christianity Strehle questions the absolute doctrine of church state separation given its background in the bigotries of the philosophes He notes the nefarious motives of subsequent regimes which used the French doctrine to replace the religious community with the state and its secular ideology This detailed historical analysis of original sources and secondary literature is woven together with special appreciation for the philosophical and theological ideas that contributed to the emergence of political institutions Readers will gain an understanding of the most influential ideas shaping the modern world and present day culture *Esoteric Christianity* Annie Besant, 2017-08-22 The object of this book is to suggest certain lines of thought as to the deep truths underlying Christianity truths generally overlooked and only too often denied The generous wish to share with all what is precious to spread broadcast priceless truths to shut out none from the illumination of true knowledge has resulted in a zeal without discretion that has vulgarised Christianity and has presented its teachings in a form that often repels the heart and alienates the intellect The command to preach the Gospel to every creature though admittedly of doubtful authenticity has been interpreted as forbidding the teaching of the Gnosis to a few and has apparently erased the less popular saying of the same Great Teacher Give not that which is holy unto the dogs neither cast ye your pearls before swine This spurious sentimentality which refuses to recognise the obvious inequalities of intelligence and morality and thereby reduces the teaching of the highly developed to the level attainable by the least evolved sacrificing the higher to the lower in a way that injures both had no place in the virile common sense of the early Christians S Clement of Alexandria says quite bluntly after alluding to the Mysteries Even now I fear as it is said to cast the pearls before swine lest they tread them underfoot and turn and rend us For it is difficult to exhibit the really pure and transparent words respecting the true Light to swinish and

untrained hearers If true knowledge the Gnosis is again to form a part of Christian teachings it can only be under the old restrictions and the idea of levelling down to the capacities of the least developed must be definitely surrendered Only by teaching above the grasp of the little evolved can the way be opened up for a restoration of arcane knowledge and the study of the Lesser Mysteries must precede that of the Greater The Greater will never be published through the printing press they can only be given by Teacher to pupil from mouth to ear But the Lesser Mysteries the partial unveiling of deep truths can even now be restored and such a volume as the present is intended to outline these and to show the nature of the teachings which have to be mastered Where only hints are given quiet meditation on the truths hinted at will cause their outlines to become visible and the clearer light obtained by continued meditation will gradually show them more fully For meditation quiets the lower mind ever engaged in thinking about external objects and when the lower mind is tranquil then only can it be illuminated by the Spirit Knowledge of spiritual truths must be thus obtained from within and not from without from the divine Spirit whose temple we are and not from an external Teacher These things are spiritually discerned by that divine indwelling Spirit that mind of Christ whereof speaks the Great Apostle and that inner light is shed upon the lower mind This is the way of the Divine Wisdom the true Theosophy It is not as some think a diluted version of Hinduism or Buddhism or Taoism or of any special religion It is Esoteric Christianity as truly as it is Esoteric Buddhism and belongs equally to all religions exclusively to none This is the source of the suggestions made in this little volume for the helping of those who seek the Light that true Light which lighteth every man that cometh into the world though most have not yet opened their eyes to it It does not bring the Light

A Theology of the Dark Side Nigel G. Wright, 2010-04-01 How can we oppose evil without creating new evils and being made evil ourselves Walter Wink What we think and don't think about evil is important Nigel Wright provides us with a thorough biblical and theological study of the nature of evil Christ's victory over it and our participation in that victory as we await its consummation In this revision and updating of the Fair Face of Evil Putting the Power of Darkness in Its Place Wright sorts through the options to develop a thoroughly Christian understanding of the danger of the enemies of both God and humanity Getting our thinking right will help us get our ways of living and acting right as well

The Dark Side of Dharma Anna Lutkajtis, 2021-03-24 The Dark Side of Dharma explores some of the possible undesirable side effects also known as adverse effects of meditation and mindfulness Researcher Anna Lutkajtis investigates why these effects which are well known in spiritual and religious traditions have been ignored in contemporary secular contexts such as Western psychology Lutkajtis research reveals that while meditation is commonly portrayed as a practice that is overwhelmingly positive a growing number of research studies and anecdotal reports suggest that meditation can also have negative effects Some meditators believe that these adverse effects are a normal part of the contemplative path and a welcome sign of progress For others such effects are completely unexpected and can be psychologically harmful In religious traditions like Buddhism difficulties associated with meditation are acknowledged and are usually viewed as milestones on the path to enlightenment or the result of an unbalanced practice In such traditional contexts meditation teachers are equipped to deal with adverse effects if and when they arise However in the modern West meditation adverse effects have been overlooked under researched and generally misunderstood Given the current popularity of meditation Lutkajtis argues that it is important to understand why meditation adverse effects have been ignored in contemporary secular settings

The Dark Side of Democracy Michael Mann, 2005 Publisher Description **The Dark Side of the Nation** Himani Bannerji, 2000 These feminist Marxist and anti racist essays speak to important current political issues Though they begin from experiences of non white people living in Canada they provide a critical theoretical perspective capable of exploring similar issues in other

Western and Third World countries This reading of difference includes and extends beyond the cultural and the discursive into political economy state and ideology It cuts through the conventional paradigms of current debates on multiculturalism These essays take up in particular the notion of Canada as the nation and the state as an unsettled ground of contested hegemonies They particularly draw attention to how the state of Canada is an unfinished one and how the discourse of culture helps it to advance the legitimization claim needed by any state especially one arising in a colonial context with unsolved nationalist problems The myth of the two founding peoples Anglo and Francophone conveniently ignored the reality of First Nations More recently it has also ignored the entrance of non European immigrants who may have a history of being indentured and politically marginalized and have just begun struggling for political enfranchisement in their new homeland

The Dark Side of the Enlightenment: Wizards, Alchemists, and Spiritual Seekers in the Age of Reason John V.

Fleming, 2013-07-22 Describes the darker pursuits that took place during the Age of Reason including explorations of magic alchemy and the occult as well as the dual role of secret societies including the Freemasons and the Rosicrucians The Dark Side of Humanity Robert Parkin, 2012-10-12 Robert Parkin's book gives a reading of each of these texts before going on to show their subsequent influence on anthropologists in particular Hertz's activities as reviewer and pamphleteer are also covered The introductory biographical chapter drawing on Hertz's surviving papers in the Collège de France shows his own ambivalence towards his academic career and it also attempts to clarify the circumstances leading up to his apparently gratuitous death in the First World War Two further chapters attempt to situate his work in the broader context of Durkheimian sociology *The Dark Side of the Supernatural* Bill Myers, David Wimbish, 2008 Supernatural hunger Angels the good and the bad Demons Satanism Ufos Communicating with the dead Ghosts Near death experiences Reincarnation Wicca and witchcraft Vampires and fantasy games More doors to be wary of opening Wrapping up **The Dark Side of**

The Theosophical Writings of Annie Besant Annie Besant, 2012 Annie Besant was a prominent British socialist Theosophist women s rights activist writer and orator and supporter of Irish and Indian self rule In 1890 Besant met Helena Blavatsky and over the next few years her interest in Theosophy grew while her interest in secular matters waned She became a member of the Society and a highly successful lecturer in Theosophy As part of her Theosophy related work she travelled to India where in 1898 she helped establish the Central Hindu College and in 1902 she established the first overseas Lodge of the International Order of Co Freemasonry Le Droit Humain in England Over the next few years she established lodges in many parts of the British Empire In 1907 she became President of the Theosophical Society This volume include the following writings Thought Forms The Case For India My Path To Atheism Death And After The Christian Creed Or What It Is Blasphemy To Deny The Basis Of Morality Evolution Of Life And Form London Lectures Of 1907 Avat ras Esoteric Christianity Or The Lesser Mysteries An Introduction To Yoga Karma

The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete) Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception

From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism

Esoteric Christianity, or The Lesser Mysteries Annie Besant,2022-05-28

In *Esoteric Christianity or The Lesser Mysteries* Annie Besant explores the deeper spiritual meanings and hidden truths of Christian doctrine offering a provocative interpretation that bridges Eastern and Western religious thought Drawing from a rich tapestry of philosophies including Theosophy and ancient mysticism Besant employs a discourse that is both enlightening and contemplative urging readers to transcend the superficial tenets of Christianity to grasp its more profound esoteric teachings The book challenges conventional religious paradigms positioning itself within the literary context of early 20th century spiritual revivalism where a quest for deeper truth was prevalent Annie Besant was a prominent Theosophist social reformer and advocate for mental and spiritual awakening Her lifelong journey through various ideologies including atheism social activism and mysticism shaped her views on religion particularly Christianity which she regarded as a foundational yet often misinterpreted spiritual path Besant s intellectual and spiritual pursuits led her to view the esoteric as a vital aspect of personal and collective transformation culminating in the creation of this thought provoking work This book is highly recommended for those seeking to deepen their understanding of Christianity beyond its dogmatic boundaries It provides readers with a unique framework for considering the interplay of spirituality morality and mystery within a familiar faith tradition Whether you are a scholar of religion or a seeker on a spiritual path Besant s insights will provoke critical thought and inspire a richer comprehension of the sacred

Philosophy, Film, and the Dark Side of Interdependence Jonathan Beever,2020-11-03
