Steel Detailing In Cad Format:

Steel Detailing in CAD Format Kamel A. Zayat, 1995-02-06 Designed so that professionals can create the structural calculation package and the detailing as quickly and economically as possible Contains 239 representative drawings each one on a separate page that includes a description a checklist summarizing the detail and a small plan view which suggests the location on the structural drawing where the detail can be applied An accompanying disk in CAD format allows users to import the details and customize them to their needs In addition every drawing is saved in a separate file in DXF format that can be loaded into most CAD software programs and modified plotted or printed as needed

Structural Wood Detailing in CAD Format Kamil A. Zayat, 2012-12-06 Structural Wood Detailing in CAD Format is a reference library for wood building construction Engineers architects and contractors will find the book useful for daily use and practice It provides structural details for building which is a major factor in building design Using a library of standard details saves much of the engineering time and money which was spent drawing the same details many times This structural wood detailing book covers the two most important forces vertical and lateral forces For each detail the lateral resistance was carefully considered The details have been created using professional experience to maintain economical construction costs and to create safe buildings The book is divided into three major sections ROOF FLOOR and FOUNDATION The details in each chapter are further categorized by connections For example in the ROOF chapter there is a set of details for rafters connected to shear walls another set for beams connected to posts or columns and another set for hips connected to ridge beams This method of dividing the chapters helps the user to become easily familiar with this reference book Some of the details are combinations of wood and steel or wood and masonry or wood and wood We have provided each detail on an 8 1 2 x 11 sheet Each sheet contains the drawing itself a description of the detail a check list which summarizes the detail and a small plan view which suggests the location on the structural drawing where the detail can be applied
