## **Stefansson And The Canadian Arctic:**

**Stefansson and the Canadian Arctic** Richard Diubaldo,1999-01-18 Stefansson s contributions to arctic exploration are immense He discovered some of the world s last major land masses in the Arctic and his hydrographic soundings outlined for the first time the continental shelf from Alaska to Prince Patrick Island and revealed the submarine mountains and valleys beneath the Beaufort Sea While in the Arctic he lived with the Inuit learning their habits and language and kept a detailed record of early Inuit society However some of Stefansson s deeds and the motives behind them garnered less acclaim In one instance Stefansson was accused of abandoning ship just before the ship was crushed in the ice a heinous act for the leader of an expedition On another occasion following a disastrous expedition to Wrangel Island during which great numbers of the party died Stefansson was accused of deliberately misleading members of the expedition and lying about the perils that faced them The affair caused Canada to become embroiled with the United States and the Soviet Union and many argued that Stefansson was more concerned with personal fame and financial gain than people s lives Was Stefansson a prophet or a profiteer a victim or a villain Stefansson and the Canadian Arctic reveals the truth about this fascinating personality

*The Last Voyage of the Karluk: Flagship of Vilhjalmur Stefansson's Canadian Arctic Expedition of 1913-16* Robert A Bartlett, 1913-01-01 Fifteen months after the Karluk flagship of Vilhjalmur Stefansson's Canadian Arctic Expedition steamed out of the navy yard at Esquimaux British Columbia the United States revenue cutter Bear that perennial Good Samaritan of the Arctic which thirty years before had been one of the ships to rescue the survivors of the Greely Expedition from Cape Sabine brought nine of us back again to Esquimaux nine white men out of the twenty who with two Eskimo men an Eskimo woman and her two little girls and a black cat comprised the ship's company when she began her westward drift along the northern coast of Alaska on the twenty third of September 1913 Years of sealing in the waters about Newfoundland and of Arctic voyaging and ice travel with Peary had given me a variety of experience to fall back upon by way of comparison the events of those fifteen months I must say justified the prophecy that I made in a letter to a Boston friend just before we left Esquimaux This will have the North Pole trip beaten to a frazzle It did and there were two main reasons why One was that the Karluk though an old time whaler was not built as the Roosevelt was especially for withstanding ice pressure very few ships are Dr Nansen's ship the Fram was built for the purpose and has had a glorious record in both the Arctic and the Antarctic The Karluk a brigantine of 247 tons 126 feet long 23 feet in beam drawing 16 1 2 feet when loaded was built in Oregon originally to be a tender for the salmon fisheries of the Aleutian Islands Her duty had been to go around among the stations and pick up fish for the larger ships The word karluk in fact is Aleut for fish When later in her career she was put into the whaling service her bow and sides were sheathed with two inch Australian ironwood but she had neither the strength to sustain ice pressure nor the engine power to force her way through loose ice She had had

however an honorable career in the now virtually departed industry of Arctic whaling and was personally and pleasantly known to Stefansson who had travelled on her from place to place along the Alaskan coast on several occasions during his expeditions of 1906 7 and 1908 12 The other reason was that the winter of 1913 14 was unprecedented in the annals of northern Alaska It came on unusually early as we were presently to learn and for severity of storm and cold had not its equal on record The National Geographic Society had originally planned to finance our expedition and it was only at the urgent request of the Canadian premier the Right Hon R L Borden that the Society relinquished its direction of the enterprise The Canadian Government felt that since the country to be explored was Canadian territory it was only fitting that the expedition fly its flag and be financed from its treasury When I returned from the seal fisheries to Brigus my old home in Newfoundland in the spring of 1918 I found awaiting me a telegram from Stefansson asking me to join his expedition and take charge of the Karluk I went at once to New York then to Ottawa for a day with the government authorities and direct from there to Victoria B C It was the middle of May and there was work to be done to get the ship ready to sail in June

**Travelling Passions**

Gísli Pálsson, 2005 Vilhjalmur Stefansson is widely known for his groundbreaking Canadian Arctic explorations of the early 1900s He acquired a reputation almost larger than life with his discovery of the Copper Inuit a hitherto unknown people his insistence on living as the local people did and with Natkusiak his Inuit co explorer his adventurous forays onto barren ice for months at a time He was a fixture in the New York Greenwich Village scene and later in his life taught at Dartmouth College However despite his detailed field diaries and the frenzy of publicity that followed his every move his private life has remained largely unknown Then in 1987 an accidental discovery in a flea market of hundreds of private letters and documents proved to be those belonging to Stefansson and they told a story of private relationships in particular with two southern women Orpha Cecil Smith to whom Stefansson was engaged and the novelist Fannie Hurst with whom Stefansson was involved for many years Moreover letters between some of Stefansson s friends as well as his own field diaries alluded to an important relationship Stefansson had with an Inupiat woman in the Arctic Pannigabluk and to their son Alex Gisli Pálsson has followed the trail of these sources and conducted many interviews with Stefansson s northern descendants uncovering a complex and perhaps torn personality In *Travelling Passions* we have a much more complete picture of the man who figured so largely in the imagination of the early twentieth century

BOOK JACKET      *Stef* William R. Hunt, 1986 Scholarly biography which examines all of Stefansson s varied careers
