Understanding by Design Grant P.

Wiggins, Jay McTighe, 2005 What is understanding and how does it differ from knowledge How can we determine the big ideas worth understanding Why is understanding an important teaching goal and how do we know when students have attained it How can we create a rigorous and engaging curriculum that focuses on understanding and leads to improved student performance in today's high stakes standards based environment Authors Grant Wiggins and Jay McTighe answer these and many other questions in this second edition of Understanding by Design Drawing on feedback from thousands of educators around the world who have used the UbD framework since its introduction in 1998 the authors have greatly revised and expanded their original work to guide educators across the K-16 spectrum in the design of curriculum assessment and instruction With an improved UbD Template at its core the book explains the rationale of backward design and explores in greater depth the meaning of such key ideas as essential questions and transfer tasks Readers will learn why the familiar coverage and activity based approaches to curriculum design fall short and how a focus on the six facets of understanding can enrich student learning With an expanded array of practical strategies tools and examples from all subject

areas the book demonstrates how the research based principles of Understanding by Design apply to district frameworks as well as to individual units of curriculum Combining provocative ideas thoughtful analysis and tested approaches this new edition of Understanding by Design offers teacher designers a clear path to the creation of curriculum that ensures better learning and a more stimulating experience for students and teachers alike [SpeedCooking 1.doc](#) Michael Bousfield,

Bushby,2012-08-02 In Punta Arenas Chile in November 1998 Karl Bushby set out on one of the most remarkable journeys of modern times His plan is as simple as it is extraordinary to walk up the Americas across the Bering Strait through Asia Russia and Europe back through the Channel Tunnel and returning to Britain in 2011 It is a journey of remarkable endurance 20 miles a day 3 000 miles a year 36 000 miles in total By the time Karl returns he will have crossed four continents twenty five countries a frozen sea six deserts and seven mountain ranges But more than that unlike other similar expeditions Karl is attempting it single handed no huge support teams no large sponsorship deals this is the inspiring true story of a man facing remarkable odds and winning **Rebellious Cooks and Recipe Writing in Communist Bulgaria** Albena Shkodrova,2021-01-28 How did people exist and resist in their daily lives under Soviet control in the Cold War period Shkodrova s monograph shows how in communist Bulgaria many women passionately exchanged recipes with friends and

strangers to build substantial and impressive private collections of recipes This activity was borderline contraband in going against the general disapproval of home cooking that formed part of the ideology of communism in which home cooking was considered household slavery and an agent of patriarchalism Private recipe collections were by far the preferred written source of culinary information more popular than the state approved commercial cookbooks Shkodrova shows how these recipe collections held many different meanings for the women who collected them from helping to navigate the communist economy to enabling new friendships to be developed while engaging safely in power relations and cultivating a sense of individual identity in a society where collective existence was prioritised and exalted Drawing on primary sources including scrapbook cookbooks and working from the establishment of cookery classes before communism and their obliteration thereafter Shkodrova presents a structured outline of the meanings of recipes exchange and home cooking for Bulgarian women under communism
