Spiegelberg, 2012-12-06 In releasing the text of this volume originally set aside as a collection for possible posthumous publication during my lifetime I am acting in a sense as my own executor I want to save my heirs and literary executors the decision whether these pieces should be printed or reprinted in the present context a decision which I wanted to postpone to the last possible moment As to the reasons why I changed my mind I can refer to the Introduction Here I merely want to make some acknowledgments first to the copyright holders for the reprinted pieces and then to some personal friends who had an important influence on the premature birth of this brainchild The copyright holders to whom I am indebted for the permission to reprint here in the original or in slightly amended form the articles listed are with their names in alphabetical order Ablex Publishing Company Putting Ourselves into the Place of Others Atherton Press Equality in Existentialism and Human Dignity A Challenge to Contemporary Philosophy Friends Journal Is There a Human Right to One's Native Soil Gordon Breach Human Dignity A Challenge to Contemporary Philosophy Humanities Press Ethics for Fellows in the Fate of Existence Journal of the History of Ideas Accident of Birth A Non utilitarian Motif in Mill's Philosophy Philosophical Review A Defense of Human Equality Review of Existential Psychology and Psychiatry On the I am me Experience in Childhood and Adolescence The Monist A Phenomenological Approach to the Ego

Steppingstones Toward an Ethics for Fellow Existors E. Spiegelberg, 1986-03-31 **A Critical Examination of Ethics in Health Care and Biomedical Research** Richard M. Zaner, 2015-06-11 This book is a critical examination of certain basic issues and themes crucial to understanding how ethics currently interfaces with health care and biomedical

research Beginning with an overview of the field it proceeds through a delineation of such key notions as trust and uncertainty dialogue involving talk and listening the vulnerability of the patient against the asymmetric power of the health professional along with professional and individual responsibility It emphasizes several themes fundamental to ethics and health care 1 the work of ethics requires strict focus on the specific situational understanding of each involved person 2 Moral issues at least those intrinsic to each clinical encounter are presented solely within the contexts of their actual occurrence therefore ethics must not only be practical but empirical in its approach 3 Each particular situation is in its own way imprecise and uncertain and the different types and dimensions of imprecision and uncertainty are critical for everyone involved 4 Finally medicine and health care more broadly are governed by the effort to make sense of the healer's experiences with the patient whose own experiences and interpretations are ingredient to what the healer seeks to understand and eventually treat In addition to providing a way to develop ethical considerations in clinical life and research projects the book proposes that narratives provide the finest way to state and grapple with these themes and issues whether in classrooms or real life situations It concludes with a prospective analysis of newly emerging issues presented by and within the new genetics which together within a focus on the phenomenon of birth leads to a clearer understanding of human life

The Problem of Religious Experience Olga Louchakova-Schwartz, 2020-01-28 For a long time the philosophically difficult topic of religious experience has been on the sidelines of phenomenological research with a notable exception of Anthony Steinbock who focused on mysticism The book *The Problem of Religious Experience Case Studies in Phenomenology with Reflections and Commentaries* brings together preeminent as well as emerging voices in the field with fresh views on the topic Originating from dialogues of the Society for the Phenomenology of Religious Experience these two volumes cover a spectrum of phenomenological approaches with a thematization of the field in the form of case studies Contributions from theology comparative religion psychology and the philosophy of religion come together in the commentaries and meta narrative written by Olga Louchakova Schwartz the editor Volume I *The Primeval Showing of Religious Experience* examines religious experience with regard to its lived interiority in light of the problem of the ego cogito including the recent research on the embodiment of subjectivity and phenomenological materiality Volume I also sheds light on religious experience in regard for the problems of its constitution passive synthesis the world and otherness Volume II *Doxastic Perspectives in the Phenomenology of Religious Experience* addresses the phenomenology of revelation shows how different approaches treat the question of essence in religious experience i.e. what is it that makes religious experience religious and demonstrates how religious experience contributes to the psychological horizon of meaning The book identifies the growing edges in the phenomenological research of religious experience and is useful for psychologists philosophers and theologians alike The two volumes offer an excellent interdisciplinary introduction to the phenomenon of religious experience The case studies presented in them are arranged under the central topics of self alterity revelation and

psychological aspects of religious experience and provide outstanding examples of applied phenomenology Hans Rainer Sepp Charles University Prague and Central European Institute of Philosophy In the context of the return of religion this book offers both a timely and necessary contribution to confront the peculiarities of religious experience Providing readers with applied phenomenological descriptions in an interdisciplinary spirit these debates will prove stimulating for a resurgent field of research that is starting to refine its conceptual devices and methodological presuppositions University of Vienna

Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Conversations on the Edge Richard M. Zaner, 2004-01-08 At the edge of mortality there is a place where the seriously ill or dying wait a place where they may often feel vulnerable or alone For over forty years bioethicist cum philosopher Richard Zaner has been at the side of many of those people offering his incalculable gift of listening and helping to lighten their burdens not only with his considerable skills but with his humanity as well The narratives Richard Zaner shares in *Conversations on the Edge* are informed by his depth of knowledge in medicine and bioethics but are never clinical A genuine and caring heart beats underneath his compassionate words Zaner has written several books in which he

tells poignant stories of patients and families he has encountered there is no question that this is his finest In *Conversations on the Edge* Zaner reveals an authentic empathy that never borders on the sentimental Among others he discusses Tom a dialysis patient who finally reveals that his inability to work encouraged by his overprotective mother is the source of his hostility to treatment Jim and Sue young parents who must face the nightmare of letting go of their premature twins one after the other Mrs Oland whose family refuses to recognize her calm acceptance of her own death and in the final chapter the author's mother whose slow demise continues to haunt Zaner's professional and personal life These stories are filled with pain and joy loneliness and hope They are about life and death about what happens in hospital rooms and that place at the edge when we confront mortality It is the rarest of glimpses into the world of patients their families healers and those who struggle like Zaner to understand **Albert Schweitzer's Reverence for Life** Mike W. Martin, 2016-03-23 Albert

Schweitzer philosopher physician Nobel Peace Laureate theologian and musician developed a character oriented ethics focused on self realization nature centered spirituality and moral idealism which anticipated the current renaissance of virtue ethics Schweitzer's idea of reverence for life underscores the contribution of moral ideals to self realization connects ethics to spirituality without religious dogma and outlines a pioneering environmental ethics that bridges the gap between valuing life in its unity and valuing individual organisms In this book Mike W Martin interprets Schweitzer's reverence for life as an umbrella virtue drawing together all the more specific virtues in particular authenticity love compassion gratitude justice and peace loving each of which Martin discusses in an individual chapter Martin's treatment of his subject is sympathetic yet critical and for the first time clearly places Schweitzer's environmental ethics within the wider framework of his ethical theory *The Routledge Handbook of Phenomenology and Phenomenological Philosophy* Daniele De Santis, Burt C.

Hopkins, Claudio Majolino, 2020-08-24 Phenomenology was one of the twentieth century's major philosophical movements and it continues to be a vibrant and widely studied subject today with relevance beyond philosophy in areas such as medicine and cognitive sciences The Routledge Handbook of Phenomenology and Phenomenological Philosophy is an outstanding guide to this important and fascinating topic Its focus on phenomenology's historical and systematic dimensions makes it a unique and valuable reference source Moreover its innovative approach includes entries that don't simply reflect the state of the art but in many cases advance it Comprising seventy five chapters by a team of international contributors the Handbook offers unparalleled coverage and discussion of the subject and is divided into five clear parts Phenomenology and the history of philosophy Issues and concepts in phenomenology Major figures in phenomenology Intersections Phenomenology in the world Essential reading for students and researchers in philosophy studying phenomenology The Routledge Handbook of Phenomenology and Phenomenological Philosophy is also suitable for those in related disciplines such as psychology religion literature sociology and anthropology *How Change and Identity Coexist in Personal Individuality* Bianca

Bellini, 2021-09-15 This book purports to devise a pattern of the self that accounts for the role that change and identity play

in self shaping It focuses on the process through which we discover know and shape ourselves and wonder whether there is a core of our individuality and how we should account for it The core is described along with its range of possible variations and its constraints This volume provides arguments on how individual essence far from being something monolithic is inherently dynamic The text delves into the link between change and identity in self shaping arguably the fundamental issue of personal individuality Different theories and standpoints are addressed and scrutinized Descriptive phenomenology will enter along with Max Scheler s stance on axiology as well as the keystones that account for self shaping This book appeals to students and researchers working on the implications of phenomenology for self identification and personal individuality
